Magis Product Offering	Available Styles	Care & Maintenance
Magis Lyra Stool	MGL20.	PRODUCT CARE We recommend using a soft rag, either dry or wet. When needed use ph-balanced liquid soap especially formulated for wood, diluted in water. Do not use abrasive sponges, as they may leave scratches. Avoid using acidic products, solvents and products containing ammonia. Avoid exposure to sunlight as this may permanently discolour the surface. Periodic and correct maintenance allows the product to keep its original look and lengthens the duration of its performance.
Magis Baguette Table	MGG70.	PRODUCT CARE We recommend using a soft rag, either dry or wet. When needed, use ph-balanced soap diluted in water. Do not use abrasive sponges as they may leave scratches. Immediately dry after washing with a soft rag or chamois leather. Never leave water or other liquids to stagnate on the product. Avoid contact with all acidic substances. Small marks or irregularities, which might be visible on the surface of the polished frame, should not be considered as faults, but on the contrary, as technical results of the nature of natural aluminum and its brushing and polishing by hand. Aluminum is very likely to dull while using. Regular care is therefore necessary to maintain its original appearance. We recommend using specific cleaning products for aluminum.
Magis Central Table	MGG70.	PRODUCT CARE We recommend using a soft rag, either dry or wet. When needed, use ph-balanced soap diluted in water. Do not use abrasive sponges as they may leave scratches. Immediately dry after washing with a soft rag or chamois leather. Never leave water or other liquids to stagnate on the product. Avoid contact with all acidic substances. Small marks or irregularities, which might be visible on the surface of the polished frame, should not be considered as faults, but on the contrary, as technical results of the nature of natural aluminum and its brushing and polishing by hand. Aluminum is very likely to dull while using. Regular care is therefore necessary to maintain its original appearance. We recommend using specific cleaning products for aluminum.
Magis Tavolo XZ3 Table	MGT70.	PRODUCT CARE We recommend using a soft rag, either dry or wet. When needed, use ph-balanced soap diluted in water. Do not use abrasive sponges as they may leave scratches. Avoid using acidic products, solvents and products containing ammonia. Periodic and correct maintenance allows the product to keep its original aspect and lengthens the duration of its performance.
Magis Chair_One	MGE00.	PRODUCT CARE We recommend using a soft rag, either dry or wet. When needed, use ph-balanced soap diluted in water. Do not use abrasive sponges as they may leave scratches. Immediately dry after washing with a soft rag or chamois leather. Never leave water or other liquids to stagnate on metal parts. Avoid contact with all acidic substances. Periodic maintenance and cleaning allows the product to keep its original look and lengthens the duration of its performance.

Do not use abrasive sponges as they may leave scratches. Immediately dry after washing with a soft rag or chamois leather. Never leave water or other liquids to stagnate on metal parts. Avoid contact with all acidic substances. Periodic maintenance and cleaning allows the product to keep its original look and lengthens the duration of its performance.</p>
Magis Chair_One Cushion	MGE90.	<p>UPHOLSTERY CARE</p> <p>Regular cleaning is important in order to keep the upholstery looking its best and to prolong its life. Dust and dirt wear the textile and reduce its fire-retardant properties.</p> <p><i>Normal Cleaning</i></p> <p>Vacuum frequently on medium power, ideally every week. Remove non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean warm water. Afterwards, if necessary, clean by dabbing with soapy water or water with a little washing-up liquid added - See formula given below.</p> <p>Finally, dab the surface with clean, tepid water. Do not rub the material hard because this could result in loss of color or perhaps damage any nap or the textile.</p> <p><i>Formula</i></p> <p>Soapy water solution: 1/4 dl soap flakes to 1 litre of hot water; let cool before use.</p> <p>Washing-up liquid solution: Maximum 1 teaspoonful of washing-up liquid to 1 litre of water.</p> <p>With concentrated agents, use a few drops per litre of water.</p>
Magis Stool_One	MGE20.	<p>PRODUCT CARE</p> <p>We recommend using a soft rag, either dry or wet. When needed, use ph-balanced soap diluted in water. Do not use abrasive sponges as they may leave scratches. Immediately dry after washing with a soft rag or chamois leather. Never leave water or other liquids to stagnate on metal parts. Avoid contact with all acidic substances. Periodic maintenance and cleaning allows the product to keep its original look and lengthens the duration of its performance</p>
