Before you begin

Take a few moments to get to know your Euphonia headset.

Safe to use in the comfort of your bath

Wireless headset compatible with Bluetooth technology

All encompassing design to isolate user from outside noises and distractions

Charging your headset

Charge your headset's battery for **4 hours before initial use.**

1. Plug the provided charger into the connector located inside the headset

   A dual-tone indicates the headset is charging. When fully charged, the headset will turn off automatically.

2. Disconnect charger.

   CAUTION:
   Do not use headset when charging.

Pairing your Euphonia headset with your music device

Your headset and music device must be paired before initial use.

1. Access the handsfree or Bluetooth section of your music player. Consult your device's user guide to learn how.

2. Touch simultaneously on the «+» and «−» keys on your headset until you hear an ascending four-tone sound.

3. Let the music player search for Bluetooth device and select **BlueTunes2**, the Euphonia headset's name. If a passkey is required, use **0000**.

4. After a few seconds, a dual-tone sound will confirm pairing with device. The closer the headset and music device are, the quicker the pairing will occur.

Using your Euphonia headset

Turning on the headset:
Touch and hold the «+» key for three seconds until and ascending three-tone sound confirms the power is on.

Turning off the headset:
Touch and hold the «−» to turn volume down. Release and touch again, holding until a descending three-tone sound confirms the power is off.

Adjusting volume:
Touch and hold «+» key to increase volume or «−» to decrease.

The headset will turn off automatically after 60 seconds of inactivity.

Do not use headset in temperatures above 113º F / 45º C
Waterproof.
