

Green Story

Environmental impact and sustainability specifications of Brentano Green fabrics

PRODUCT: **Straight & Narrow - 5424**

CONTENTS: 100% Post-Consumer Recycled Polyester

USAGE: Eco-fabric, Upholstery, Panel, Drapery, Recycled content, LEED points possible

1. Brentano's recycled polyester fiber is made from post consumer polyesters. One source of post consumer polyester is plastic bottles that otherwise may have ended up in landfills.
2. Using recycled polyester fibers preserves virgin oil needed to manufacture new polyester fibers.
3. **Straight & Narrow** can continue to be recycled, preventing it from ever reaching a landfill.
4. The mill that produces **Straight & Narrow** achieved an MBDC Cradle to Cradle Silver certification for the fabric.

This icon appears on all Brentano fabrics that are **MBDC Cradle to Cradle certified**.

- A. Cradle to Cradle Certification provides a company with the means to tangibly and credibly measure achievement in environmentally-intelligent design.
- B. It helps customers purchase and specify products from companies that are pursuing use of environmentally safe and healthy materials; designing for material reutilization, i.e. recycling and composting; use of renewable and/or efficient energy; efficient use of water; maximum water quality associated with production; and instituting strategies for social responsibility.
- C. If a product achieves the necessary criteria, it is certified as either a Silver, Gold, or Platinum product, or as a Technical/Biological nutrient, and is branded as Cradle to Cradle.
