

CLOVE Originals

I was inspired by a bulb of garlic. This little collection is highly valued in so many cultures for such a variety of purposes. However, usually all that is necessary is just a clove. The same seems true of this piece and yet it nestles nicely with others.

Clove Medium is shown in Douglas fir with walnut stain and clear finish. Western red cedar with clear hardwax oil finish available by special order (CL-1C). Please ask for details.
