

AJIRO MARQUETRY™
WOOD VENEER

MAYA ROMANOFF

Utilizing micro-thin, genuine paulownia wood on a paper backing, Ajiro™ is so flexible it can wrap columns and even turn corners. Creates a wood veneer wall that is a beautiful, cost-effective and environmentally sound alternative to traditional wood surfacing materials. Made from farmed, fast-renewing wood. The wood is die-cut and hand-inlaid using a traditional marquetry technique. Custom colors available.
