radial™

Our Purpose Is To Enrich Outdoor Spaces

We believe in the power of design and its ability to elevate experience and help create a sense of place in public environments. Our high quality products and outstanding customer service have earned us a reputation as one of the world's premier designers and manufacturers of outdoor commercial furnishings.

Radial Litter Receptacle Specifications

Radial receptacles are offered in 30- or 45-gallon capacity, with side- or top-opening options. A sand pan may be added to the side opening units. Receptacles include a tough polyethylene liner. The durable polyethylene lid is cable-attached to the unit. View standard colors on our website or call for a color chart.

Formed of linear medium density polyethylene (LMDPE), Radial is resistant to UV rays, moisture, corrosive substances and extreme temperature changes. A textured surface makes these units less susceptible to scratches and graffiti. The base is ballasted and may be mounted to hard surfacing for additional security.

To Specify

Select Radial receptacle, side or top opening, 30- or 45-gallon capacity, standard color.

		
30 Gallon Top-Opening	30 Gallon Side-Opening	
22" x 33"	22" x 41"	dia x h

		
45 Gallon Top-Opening	45 Gallon Side-Opening	
26" x 35"	26" x 44"	dia x h

Options

Sand pan insert on side opening units. Custom solid colors may be specified for an upcharge.
