PRODUCT DESCRIPTION

This acrylic cloud is comprised of 4 floating layers of white acrylic formed into soft undulating forms. Each panel is able to move independently in a softly undulating motion when exposed to breezes. The center light source is a 12" diameter acrylic globe. Available in incandescent or fluorescent lighting. Usually limited to 44" in diameter but larger sizes in white may be possible. Consider hanging in clusters to fill larger voids. Adjustable cable and cord suspension. 8ft Length standard cord length, custom lengths available upon request. Many acrylic color options are available as well as specialty acrylic with embedded materials.
