

Anything™ Truck

(2 Flat Shelves & 1 top shelf w/ 6 bins)

DESIGN:

The Anything™ Truck has one level of double-face bins and 2 flat shelves that can hold almost anything from books to art supplies, gym equipment and student works. They move easily through aisles on soft-tread, dual wheel casters that won't shimmy like single wheels.

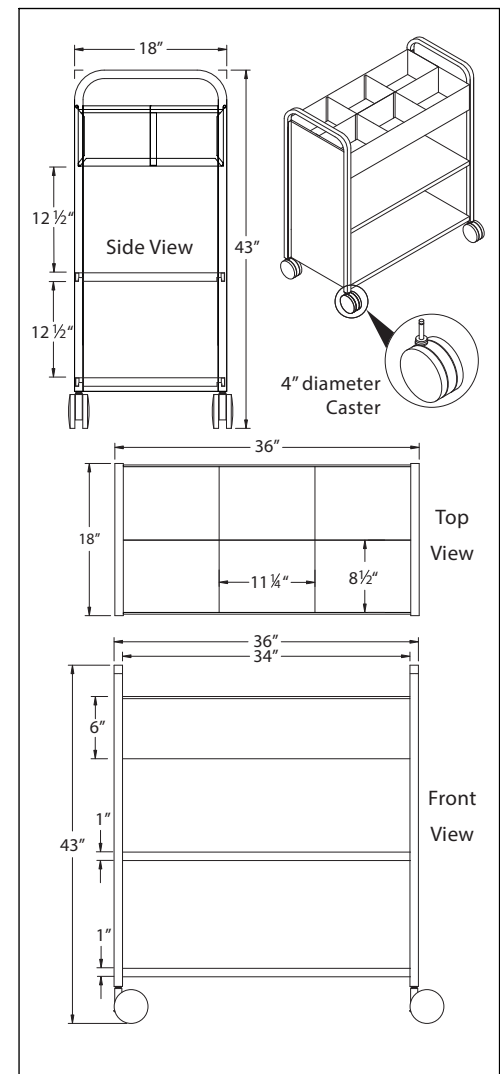

MATERIALS:

Units are delivered fully welded and assembled, simply insert the casters and the unit is ready for use. This Anything™ Truck consists of (2) Frames, (2) End Panels, (1) Shelf with 6 bins and (2) Flat Shelves. The End Panels consist of 20-gauge steel full height panels welded to 1" square 18-gauge steel tubing Frame with formed handles for added comfort and ease of movement. The Bins are constructed of 20-gauge steel shelves that are 34" long and 17 7/8" deep on each side and a 6" high back. The Flat Shelves are constructed of 20-gauge steel that are 34" long and 18" deep x 1" high edge. The cart is designed for 12 1/2" clearance between shelves, which are welded to the frames and end panels of the Book Truck. All Book Trucks feature 4" diameter dual wheel casters with soft tread for quiet operation. Dual wheels have no saddle that may damage surrounding furniture.
