WCI

Designer's Aid

Company Statement

"Can you make?"

That's how a lot of client phone calls to WCI begin. Designers and dealers know that we're more than our catalog. We're also the go-to collaborator for the custom designs other manufacturers are unable to handle.

For more than 70 years, we've been a creative and innovative partner to thousands of clients across the country and around the world. Whether it's a café, bistro, conference room, corporate cafeteria, or that in-between space, our tables, banquettes and seating are there for you. With all fabrication done at our Los Angeles factory our turnaround is perhaps the fastest in the industry.

WCI looks to the future inspired by its customer's commitment to design, and is prepared to meet the ever-changing and rapidly expanding needs of the industries it serves. Customers continually tell us, "You guys can do anything." We think the customer is always right.

This guide will help you make some decisions about our products, if you don't see something you need please call customer service at 415.621.6656 or email us at info@westcoastindustries.com.

Product Specifications | ADA Tables

Wheelchair Access

To comply with ADA regulations for wheelchair access to tables WCI recommends a minimum clearance of 27" from the floor to the bottom of the table; a minimum 30" barrier free width and a minimum barrier free depth of 19". In addition there must be a minimum of 30" unobstructed space from the table edge. Overall table height cannot exceed 34".

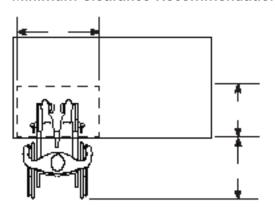

For more information on ADA requirements, the following websites may be useful:

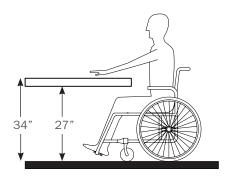

National Network of ADA Centers: www.adata.org

U.S. Justice Department - ADA Home Page: www.ada.gov

ABA and ABA Guidelines Home Page: www.access-board.gov/ada-aba

Minimum Clearance Recommendations

WCI ADA Table Recommendations

42" x 42" Post leg square table (P04242SQ)
23" x 39" Bistro ADA rectangle table (BI2339REOD)
30" x 48" T- base rectangle table (DUT3048RE, ALT3048RE,
MAT3048RE, PRT3048RE, SLT3048RE, SVT3048RE, TUT3048RE)

ADA Logo

The ADA logo is standard on the Bistro Outdoor rectangle table. The blue ADA symbol is 1.75° high x 5° wide and is inset from the front table edge on the right-hand side (from seated position).

Drawing is not to scale.

Designer's Aid | Table Seating Layouts

Seating Capacity All dimensions are based on 18" from table edge to chair back to allow for seated person.

Designer's Aid | Product Specifications

Laminate Top Construction

Standard 1.25" thick balanced construction consisting of 45 lb. NAUF/FSC (no added urea formaldehyde) particleboard core surfaced with a laminate face. A moisture resistant backing sheet is laminated to the underside of the top. All complete tables (tables consisting of a top and base) have steel threaded inserts for metal to metal mounting of table bases allowing ease of installation. Tops sold separately do not have steel threaded inserts. Table tops over 96" in length have a steel support to prevent bowing. All top dimensions are nominal and may vary up to .75" depending on the edge treatment. If a critical size is required (+/- .0625), dimensions must be specified in writing.

Veneer Top Construction

Standard 1.25" thick balanced construction consisting of 45 lb. NAUF/FSC (no added urea formaldehyde) particleboard core surfaced with a bookmatched veneer face. A moisture resistant backing sheet is laminated to the underside of the top. All complete tables (tables consisting of a top and base) have steel threaded inserts for metal to metal mounting of table bases allowing ease of installation. Tops sold separately do not have steel threaded inserts. Table tops over 96" in length have a steel support to prevent bowing. All top dimensions are nominal and may vary up to .75" depending on the edge treatment. If a critical size is required (+/- .0625), dimensions must be specified in writing.

Butcher Block Construction

Butcher block tops have an eased edge with 1.3125" wide finger jointed strips. Tops are 1.375" thick and 1.875" thick on 60" and 72" tops. Tops are constructed from solid maple. .5" tolerance.

Wood Surface Finish

All wood products are finished in a semi-gloss, acrylic waterborne enamel providing a 40% sheen finish using a multi-step process of hand sanding, staining and sealing that provides superior water and alcohol resistance. Custom sheens are available upon request; please contact WCI Customer Service for a quote.

Laminate Surfaces

See Laminate Reference Guide, Page 23

Ultrafoam Surfaces

Standard 1" thick balanced construction consisting of 45 lb. NAUF/FSC (no added urea formaldehyde) particleboard core surfaced with a permanently bonded fire-retardant, expanded polyvinyl chloride pad. Ultrafoam tops are available with white vinyl T-mold or raw exposed edges and are recommended for use with tablecloth only. Ultrafoam tops create a slightly cushioned surface that is impervious to grease, foods, acids and alcohol. Ultrafoam tops absorb sound and eliminate the need for silencer cloths, double linen or other padding. All complete tables (tables consisting of a top and base) have steel threaded inserts for metal to metal mounting of table bases allowing ease of installation. Tops sold separately do not have steel threaded inserts. Table tops over 96" in length have a steel support to prevent bowing. All top dimensions are nominal and may vary up to .75" depending on the edge treatment. If a critical size is required (+/- .0625), dimensions must be specified in writing.

Designer's Aid | Product Specifications

3form® Chroma® Surfaces Standard thickness of 1" with moisture resistant marine grade plywood sub-top for

indoor and outdoor use. 3form® Chroma® is produced from optical grade engineered resin with high UV resistance. The surface of Chroma features a durable renewable matte texture that can be easily refinished throughout its lifetime. Chroma incorporates 38% recycled content (29% pre-consumer, 9% post-consumer) and is certified according to the GREENGUARD® Indoor Air Quality Certification Program for Low Emitting

Products. All top dimensions are nominal and may vary up to .75" depending on the edge treatment. If a critical size is required (+/- .0625), dimensions must be specified

in writing.

Acrylic Surfaces Standard thickness of 1.25" with moisture resistant marine grade plywood sub-top.

The specially formulated acrylic provides a tough nonporous surface material with superior stain and UV light resistance. Color and material is consistent throughout the top providing a renewable surface. Acrylic surfaces are not predrilled to accept table bases. All top dimensions are nominal and may vary up to .75" depending on the edge treatment. If a critical size is required (+/- .0625), dimensions must be specified in

writing.

Corian® Surfaces Standard average nominal thickness of 1" with a NAUF (no added urea formaldehyde)

decorative hardwood plywood sub-top. Outdoor Corian® tops use a moisture resistant marine grade plywood sub-top. Corian® is a solid surface material created by DuPont, composed of acrylic polymer and alumina trihydrate. Corian® along with its adhesives and sealants are certified by the GREENGUARD® Environmental Institute, providing a complete surfacing system with low-VOC. All complete tables (tables consisting of a top and base) have steel threaded inserts for metal to metal mounting of table bases allowing ease of installation. Tops sold separately do not have steel threaded inserts. Table tops over 96" in length have a steel support to prevent bowing. All top dimensions are nominal and may vary up to .75" depending on the edge treatment. If

a critical size is required (+/- .0625), dimensions must be specified in writing.

Vinyl T-Mold Edges Vinyl edges provide an impact resistant edge. All vinyl T-molding corners have

a 2" radius.

PVC Edges PVC edges provide an impact resistant edge. All PVC corners are square.

Metal Edges Metal edges are extruded 6063 aluminum alloy for strength and durability. Standard

finishes are polished and satin aluminum. All metal edges have 2" radius corners.

Wood Edges Wood edges are solid maple, oak, cherry, and walnut. Other wood species are

available. Contact Customer Service at 415.621.6656 for quotation.

Overall Table Heights Overall table heights vary according to top specifications. WCl standard base height

is 28". Add top thickness to determine overall table height.

Designer's Aid | Laminate Reference Guide

WCI offers over 800 standard laminates from Nevamar, Formica, Wilsonart, and Pionite. Laminates from other manufacturers and non-standard laminates are available and require special pricing from WCI's Customer Service Department. Please contact WCI Customer Service at 415.621.6656 for all special laminate requests.

Please note: Laminate manufacturers change their product offerings frequently and sometimes without advanced notification. For this reason, a standard laminate may not be available. Please contact the laminate manufacturers for current offerings.

Note: Other laminate manufacturers are available, such as Arborite®, Laminart® and Abet Laminati®.

Designer's Aid | Corian® Reference Guide

WCI offers Corian® as a surface material for use on indoor and outdoor tops. Corian® offers over 100 colors, giving architects and designers a wide range of design choices and possibilities for aesthetic expression.

The material may be specified as a complete table by selecting one of our 23 base designs, or our customers may specify the material as a top only. Please visit our website, westcoastindustries.com, and download our complete pricelist for additional information.

Please note: Corian® may change their product offerings. For this reason, we recommend our customers contact Corian® directly for current offerings.

IMPORTANT SPECIFICATION INFORMATION

Due to random veining, material transparency, directional metallic flakes and unique colors, seams and glue lines may be visible on tops larger than 30"W x 72"L in certain series of Corian® solid surface materials. Please refer to the lists below for colors that may present fabrication issues.

Private Collection Series
