GEIGER LEVELS® CASEGOODS

MULTI-PLANE ARCHITECTURE | INTEGRATED TECHNOLOGY | SUSTAINABLE MATERIALS

"GEIGER LEVELS IS A SMART AND INTUITIVE WAY FOR TECHNOLOGY-BASED WORKERS TO ACCESS POWER AND DATA, AND TO ORGANIZE THEIR PROJECT-ORIENTED WORKFLOWS USING SEPARATE WORKING PLANES AND LOWER STACKING SURFACES. TODAY'S MULTI-GENERATIONAL WORKFORCE IS RESHAPING CONVENTIONAL IDEAS ABOUT HOW AND WHERE WORK IS DONE. LEVELS IS FURNITURE THAT SUPPORTS THIS EVOLUTION."

DAVID ALLAN PESSO

"When designing Levels, I visualized balance rather than rigid symmetry," Pesso explains. This notion reinforced Geiger's design premise that Levels should encourage specification of only what's needed and nothing more. Its trimmer scale gives Levels modern appeal and resolves the challenge of smaller office footprints. Built-in value engineering meets the cost requisite for mid-manager offices, in furniture crafted using the same material and finish standards of other Geiger casegoods. With GREENGUARD certification and FSC-certified materials, Levels can contribute to healthier workplaces and provides a lasting platform protected by Geiger's 12-year warranty.
