General Information

Terms and Conditions of Sale Order Information

GEIGER

Application of Standard Terms

Only the standard terms of sale stated in this catalog apply to any transaction unless those terms are modified or supplemented by a written document signed by an officer of Geiger International, Inc. ("Geiger"). Any terms contained in Customer's purchase order, including standard printed provisions, that are additional to or contrary to these terms, are not effective.

Use of Furniture and Materials

Geiger assumes that textiles, leathers and products are intended for commercial use and are not being bought for use primarily for personal, family, or household purposes. When installed and used as intended, products remain chattel property, are not considered fixtures, and no interest in them should arise under applicable real estate law.

Furniture Prices

Prices are determined by using the published list prices in effect when Geiger receives Customer's completed purchase order. If Customer's requested ship date is more than three months after Geiger receives Customer's order, it may be repriced using the list prices in effect when products ship. If Customer designates special finishes or options, additional charges may apply. Services such as design, project management, packaging, storage, inside delivery, double handling, installation, or inventory management are not included in Geiger's list prices.

COM / COL Procedures

If an order includes Customer-supplied materials, Customer must ship those materials to Geiger at Customer's own expense. The materials must be tagged with Geiger's confirmation number, item number, Customer's name, and purchase order number. Geiger is not liable for inadequacies in Customer's materials. Geiger will notify Customer of any apparent defects in Customer's materials before manufacturing.

Taxes

Customer is responsible for any local sales taxes or other similar taxes imposed on transactions.

Delays

Geiger is not liable for failure to ship by the acknowledged shipping date or any other date. Geiger is not liable for a delay or failure in shipment or performance if the delay or failure is caused by acts of omission of Customer, its agents, employees, contractors, a governmental authority, or God; delays in transportation; or other similar causes that are not within Geiger's reasonable control. Geiger is excused from further performance of its obligations for the duration of a force majeure cause.

Changes and Cancellation

Geiger's acceptance of an order is final and binding and an order may not be changed or canceled without Geiger's written consent.

Orders placed on any of Geiger's expedited shipment programs and orders of custom-dyed or custom-woven materials may not be changed or canceled. To change or cancel other orders, contact Geiger Customer Care in writing for authorization and applicable charges.

Storage

If Customer cannot accept delivery when products are ready, Geiger reserves the right to transfer products to storage and products are invoiced at that time. Customer is responsible for actual storage charges and any other expenses relating to the storage of products or materials that Geiger incurs. Customer bears all risk of loss for products or materials in storage.

Freight Terms

For casegoods and seating orders shipped within the 48 contiguous United States, surface freight charges are included.

For textile and leather orders actual packing and freight charges will be invoiced. Orders are shipped UPS ground unless requested otherwise.

For orders shipped to Alaska or Hawaii, the freight terms stated above apply only to the port of embarkation. Shipments beyond that point are freight collect. Domestic deliveries are shipped FOB Geiger's plant to a destination designated by Customer by a method Geiger selects.

Packaging and Shipping

Geiger's casegoods products are shipped in component form. Shipments over \$50,000 net are blanket wrapped. Tops and panels are shrink wrapped with cardboard corner protection. Pedestals, storage units, overheads and vertical storage units are wrapped in blankets and shrink wrapped with cardboard corner protection. Blankets are to be returned to Geiger for reuse. If the customer request cartoning on orders over \$50,000 net, there will be a charge of five percent of the net order. Packing materials are recyclable.

Shipments under \$50,000 net are cartoned. Cartoned shipments are packaged with a combination of cardboard channels and shrink wrap. Packing materials are recyclable.

Geiger's seating is cartoned in boxes for less than truckload shipments. Full truckload shipments are blanket wrapped.

If Customer requests special shipping or delivery methods, Customer is responsible for any extra costs that result.

Packaging and Shipping (continued)

Customer obtains title to products and materials, and assumes the risk of loss for them, upon shipment from Geiger's plant. Geiger reserves the right to make partial shipments, of truckload quantities, as products are manufactured.

Effective May 2, 2011 Geiger will add a shipping charge to all purchase orders under \$100,000 list. The amount of the shipping charge will be equal to a percentage of the overall list price of the entire order based on the ship to address. These charges will not be discounted.

International Shipping

Orders for export are shipped Ex Works factory (Incoterms 2000). The charge for export packing is five percent of the net order value. There are no export packing charges on shipments to Canada.

Claims

All blanket wrapped shipments must be unwrapped and inspected at the dock, in the presence of the driver. Claims for "concealed damage" or "subject to inspection" will not be honored on blanket wrapped shipments.

All cartoned shipments must be inspected for visual outside damage to the package.

Damages and piece count shortages must be noted on the bill of lading. Freight claims must be filed within 30 days (including cartoned shipments with concealed damage). Contact Customer Care for a warranty/freight claim form and send it by fax, mail or email to:

Geiger International
6095 Fulton Industrial Blvd

Warranty

Geiger International, Inc. ("Geiger"), 6095 Fulton Industrial Blvd., SW, Atlanta, GA 30336-2806, USA, warrants the products sold by it to be free from defects in material and workmanship, regardless of the number of shifts during which the products are used, for the warranty periods specified below.

This warranty covers the sale of Geiger product in all countries. Not all of the product lines appearing on this list are marketed by Geiger in all countries, and appearance on this list does not imply an offer for sale of a product line in a particular place. Product line availability is defined in current price lists applicable to different regions.

Geiger Commercial Office Furniture Products

12 years

All products sold under the Geiger® brand name, except as limited or described below.

Textile Alliance ProgramSM Fabrics

3 years

Includes, but is not limited to Luna, Bergamo, Place, and True fabrics and Edelman leathers.

IntersectionTM Fabric

3 years

Nonstandard Products

1 to 5 years

Warranty length on nonstandard products not covered by the 12-year warranty is identified on individual product quotes.

All Other Products, Parts, and Services

5 years

Electronic ballasts used in task lighting

3 years

All service parts

6 months

All other products, parts, and any services not listed above, sold or furnished by Geiger, except for consumable products such as light bulbs and other electronic products for which no warranty is given

Other Manufacturers' Products

None

Geiger will pass through to the original purchaser any warranty supplied by other manufacturers to the extent possible, including, but not limited to, open-line laminates.

Provisions that apply to all products and services:

During the applicable warranty period, Geiger, as its sole obligation, will repair or replace (at

Warranty (continued)

its option) any product, part, or component covered by this warranty and sold after the effective date of this warranty, which fails under normal use as a result of a defect in material or workmanship; Geiger will repair or replace the aforementioned product, part, or component with a comparable product, part, or component.

This warranty extends only to the original purchasers who acquire new product from Geiger, or its authorized resellers. Any product, part, or component must have been installed, used, and maintained according to Geiger's published instructions in order to be eligible for coverage under this warranty and must not have been subject to misuse or abuse. Any modification to the original product voids the warranty. Geiger does not warrant the performance of the product when used in combination with other than original Geiger product.

The warranty period starts from the date of purchase.

This document inclusively describes all of the warranties given and remedies available with respect to the company's products and services. Geiger disclaims any other warranty whether express or implied, statutory or otherwise, in relation to the products.

Geiger does not warrant:

- natural variations in wood grain or figure or the presence of character marks
- changes in surface finishes due to aging or exposure to light
- marks, scars, or wrinkles occurring naturally in leather
- veins, marks, voids, fissures, or cracks found naturally in stone

In addition, Geiger does not warrant:

- failure resulting from normal wear and tear
- the matching of colors, grains, or textures of natural materials
- the colorfastness or the matching of colors of textiles, including an exact match to cuttings or to swatch cards
- damage, marking, or staining of veneer surfaces due to contact with rubber or similar compounds; damage from sharp objects or imprinting from writing instruments, or prolonged exposure to direct sunlight

Geiger tests Customer's Own Material (COM) and other customer-supplied items for manufacturing quality only and does not provide any warranty with regard to these materials.

Geiger does not warrant products that are exposed to extreme environmental conditions or that have been subject to improper storage.

Warranty (continued)

Geiger's products meet the requirements of national and specific local codes as stated in the price books and other written publications.

TO THE EXTENT ALLOWED BY LAW, ANY IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE DISCLAIMED AND TO THE EXTENT THEY ARE LEGALLY REQUIRED, ARE LIMITED IN DURATION TO THE DURATION OF THIS WRITTEN WARRANTY.

GEIGER SHALL NOT BE LIABLE FOR LOSS OF TIME, INCONVENIENCE, COMMERCIAL LOSS, OR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

Applies in US only: Some states do not allow limitations on how long an implied warranty lasts or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations or exclusions in the two preceding paragraphs may not apply. This warranty gives the purchaser specific legal rights; however, the purchaser may also have other rights that may vary from state to state.

Applies outside US: Except as stated above, Geiger will not be liable for any loss or damage (including costs) however caused, whether direct or consequential, incurred or suffered by the purchaser or any third party in respect of the products but nothing contained herein will or will be considered to exclude or restrict any liability on Geiger's part for death or personal injury resulting from negligence.

Limitations and Disclaimers

Geiger is not liable for loss of time, inconvenience, lost profits, commercial loss, or other special, consequential, or incidental damages for any transaction.

Geiger reserves the right to change its designs, its methods of construction, or its prices, charges, or policies at any time without notice to Customer.

Design Rights

The designs depicted in Geiger's catalogs and price lists are proprietary to Geiger and Geiger reserves the exclusive right to manufacture them. Any reproduction of these designs infringes Geiger's rights and that infringement will be prosecuted.

How to Specify

- For each product ordered, specify a product number string. The string should include the product number and all finish and detail codes listed at the bottom of the pricebook page under "Specify".
- Specify finishes and details in the same sequence shown on the pricebook page.
- Product number string example:
LRAPL3672A4 943 LVI LU VHWH SK

The product number string above includes all codes required for a Levels arc front runoff desk with spacer as follows:

Product Number LRAPL3672A4
Wood Finish 943 Caramel Cherry
Edge Detail LVI Incline
Painted Finish LU Soft White
Pull VHWH Hook, White
Locks SK Nickel
Spacer WHT White

Greenguard™

- Levels products are Greenguard certified.
- Special products not included in the pricebook must be approved and possibly tested to determine if they meet Greenguard certification criteria. Testing costs are the responsibility of the customer.
- To view the complete list of Geiger products that are Greenguard-certified and to download individual certificates go to www.greenguard.org
- The Greenguard Certification ProgramSM is an industry-independent, third-party testing program for low-emitting products and materials. The program is managed by the Greenguard Environmental Institute (GEI), an industry-independent, non-profit organization. As an ANSI Authorized Standards Developer, GEI establishes acceptable indoor air standards for indoor products, environments, and buildings. GEI's mission is to improve public health and quality of life through programs that improve indoor air.
- Geiger Levels casegoods were developed according to the Design for the Environment (DfE) protocol, which takes into account material chemistry, disassembly and recyclability at the end of the product's useful life. It meets ANSI/BIFMA safety and performance standards. It is also available with FSC-certified materials. Contact your Geiger sales representative for more information.

General Notes

- Most units ship unassembled; all hardware for assembly is included.
- Top depths vary with edge detail, and depth dimensions do not include edge overhang except where noted.
- Tops are 1 1/4" thick on desks, returns, rear units, credenzas, runoffs and bookcases. Low credenza tops are 1" thick.
- Hanging file frames are included in all pedestals and low storage with file drawers. File frames accommodate letter or legal files.
- All shelves are 1" thick and adjustable or removable, except where noted.

Electrical Access Panels

- Removable kneespace access panels are attached via magnets to brackets located on the underside of the worksurface above. The removable access panel comes with rubberized gaskets running vertically along the panel edges to form a light seal between panel and adjacent pedestals.

Wall Mount Storage

- Inside depth clearance of wall mount storage is 13 1/4".
- Inside height clearance of wall mount storage is as follows:

Project shelf overhead, 22"H 15 9/16"
Project shelf overhead, 33"H 25 9/16"
Overhead, 16 5/8"H 14 5/8"

Project shelves have an inside height clearance of 3 1/4" with 9" depth clearance.
- Light fixtures can be specified separately for field installation.
- Customer should give close attention to the integrity and stability of the wall on which any wall mounted storage is attached. Customer is responsible for the cost of reinforcing or improving its walls, and should involve an architect or engineer, where appropriate. Attachment hardware should be securely fastened to the studs in load-bearing walls or in another secure fashion, as the architect or engineer recommends.

Stacking and Upper Storage

- Inside depth clearance of stacking storage and upper storage is 13 1/4".
- Inside height clearance of upper storage, side towers and center overhangs in overhead / tower units is as follows:

Upper storage, 43"H 15 9/16"
Upper storage, 54"H 25 9/16"

Project shelves have an inside height clearance of 3 1/4" with 9" depth clearance.

- Upper storage requires fabric wrapped tackboards which must be specified separately.
- Light fixtures can be specified separately for field installation.
- Upper storage units are designed to be used above credenzas (Fig. 1) or rear units (Fig. 2).

Fig. 1

Fig. 2

If upper storage units are required for use across a desk / L return (Fig. 3), or across a desk / bridge return / rear unit (Fig. 4), the overall dimensions of all units must be carefully calculated to ensure proper alignment.

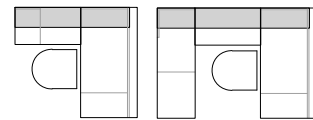

Fig. 3

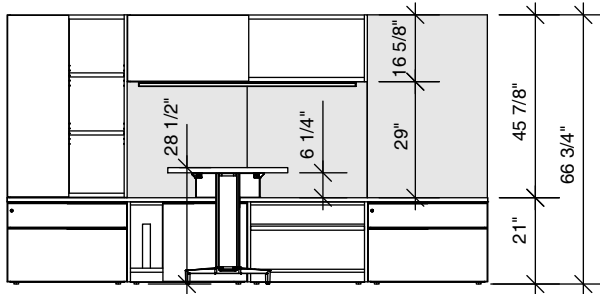

Fig. 4

Upper storage units are designed with side panel support on each end. If the overall width of the upper storage unit(s) exceeds the total width of the casegoods underneath, the unit will be too wide to be supported as necessary on both ends. For assistance, please contact your Geiger project manager or Customer Care representative at 1.800.456.6452.

- Upper storage units must have adequate pedestal, low storage or panel support under the worksurface.
- Wall mounted storage units are for overhead storage only and not to be used as a credenza. Units should not be mounted with the top below eye level. Impressed manufacturing stamps are visible on top edge of doors.

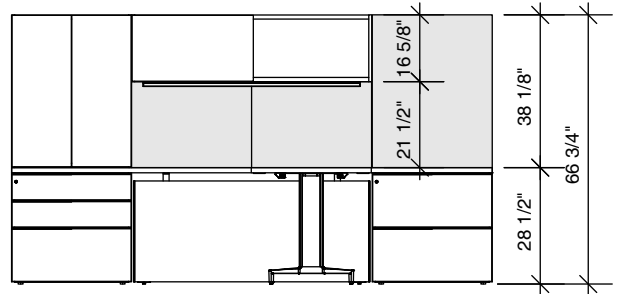

Low credenza

Overhead 16 3/4" high
Desk top 1 1/4" thick
Credenza top 1" thick

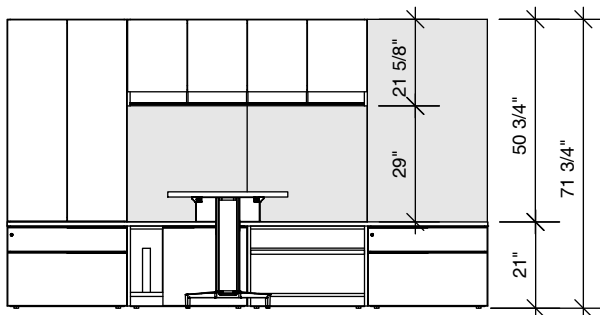

Standard credenza

Overhead 16 3/4" high
Desk top 1 1/4" thick
Credenza top 1 1/4" thick

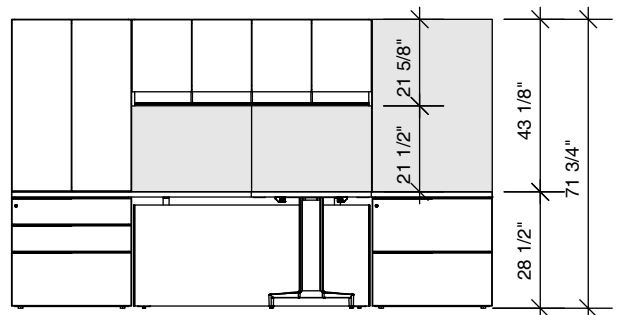

Low credenza

Overhead 21 5/8" high
Desk top 1 1/4" thick
Credenza top 1" thick

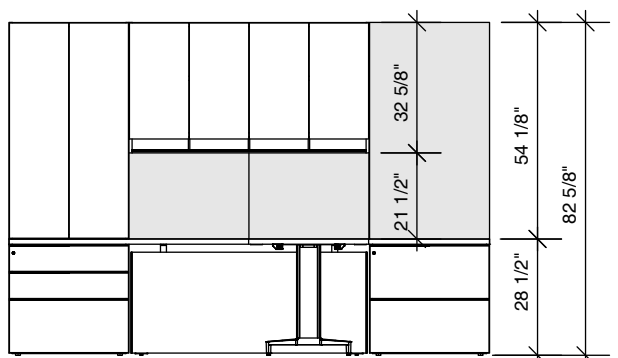

Standard credenza

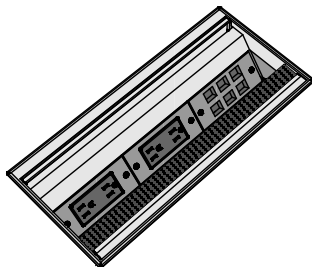

Overhead 21 5/8" high
Desk top 1 1/4" thick
Credenza top 1 1/4" thick

Standard credenza

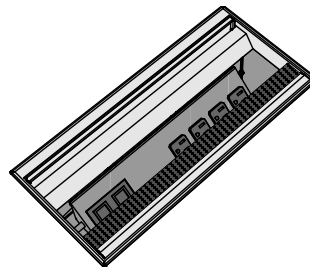

Overhead 32 5/8" high
Desk top 1 1/4" thick
Credenza top 1 1/4" thick

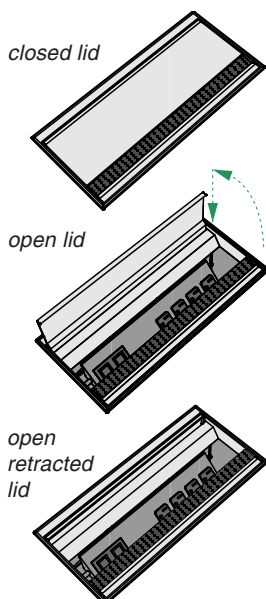

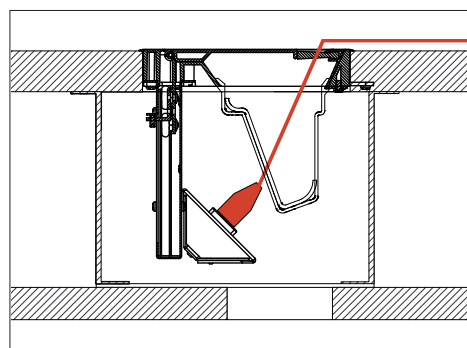

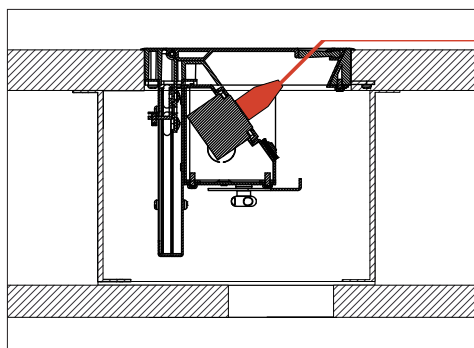

PDT Power Module

The PDT power module provides power/voice/data accessibility at the desktop, with two duplex receptacles on a single circuit and one faceplate for voice/data connections. Voice/data faceplates and adapters are ordered separately (see page 154). The PDT power module does not accept the Levels technology pocket. It is shown above with the retractable lid in the open position.

Levels Power Module

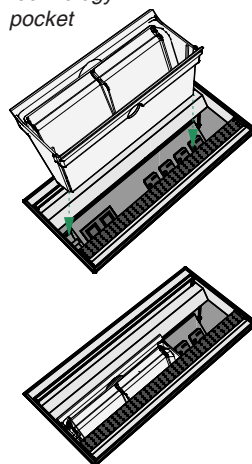

The Levels power module mounts lower in the spacer box than the PDT power module. It includes four simplex receptacles on a single circuit and one face plate for voice and data connections. A voice/data adapter kit is included to accept couplers and jacks as required. The Levels power module can accommodate a technology pocket (ordered separately) for personal device storage. The Levels power module is shown above with the retractable lid open and without the optional technology pocket.

Retractable Lid

PDT power modules and Levels power modules feature the same lift-up retractable lid. Most power module lids must remain in the "open" position, but this lid slides out of sight after opening, keeping the work surface neat and uncluttered. Both power modules provide plenty of room under the surface for extra lengths of cable.

technology pocket

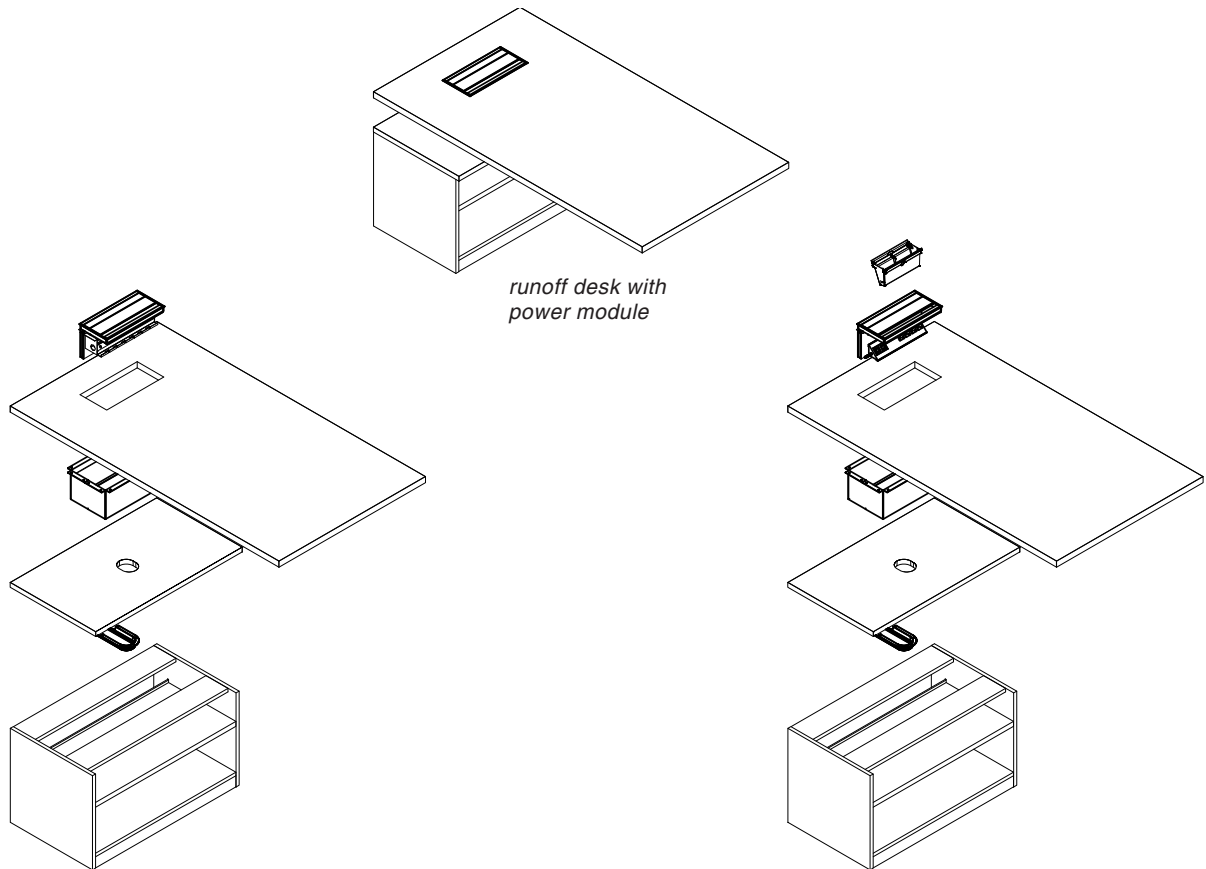

technology pocket in Levels power module

Technology Pocket

This accessory can be specified separately to conveniently dock personal technology devices in a Levels power module. The clear, soft gel liner can hold a cell phone, MP3 player, camera, etc. Smartly placed notches allow cables to enter the pocket from the charger plugged in below, leaving the cable pigtails easily accessible inside the pocket for quick connect and disconnect without a cable mess on the desktop.

The pocket snaps securely into the tabletop bezel to prevent accidental dislodgement. The pocket may be easily removed for cable reconfiguration. The technology pocket uses two-thirds of the bezel opening. The open third leaves clear access to outlets for plug-and-play requirements.

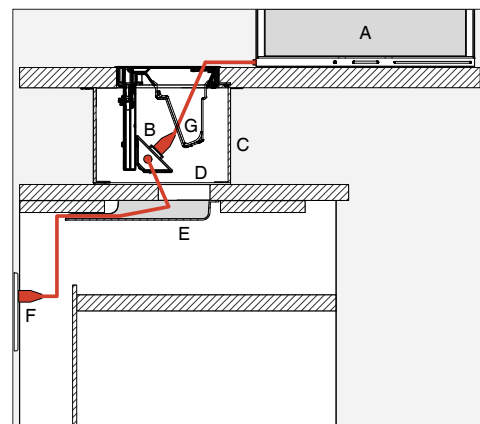

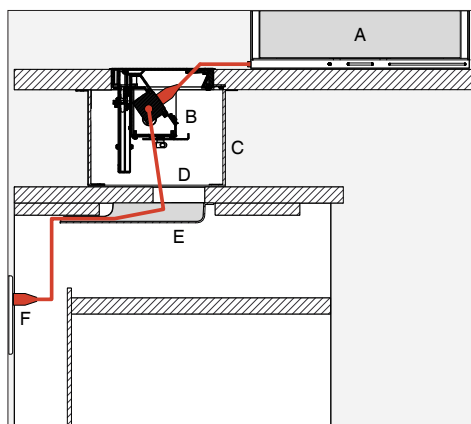

PDT Power Module

A desktop device such as a computer (A) plugs into PDT power module (B) contained within spacer box (C). Power module cable passes through cable access hole in low credenza top (D). Cable is then managed to rear of low storage via cable manager (E) to building power source (F). PDT power module can be specified as plug-in or hardwire.

Levels Power Module

A desktop device such as a computer (A) plugs into power module (B) contained within spacer box (C). Power module cable passes through cable access hole in low credenza top (D). Cable is then managed to rear of low storage via cable manager (E) to building power source (F). Technology pocket (G) can be specified to house personal technology devices (cell phone, MP3 player, etc.).

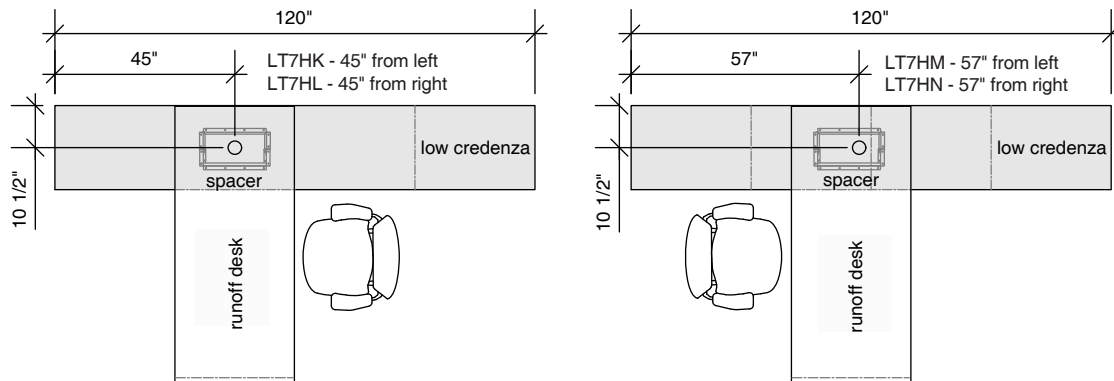

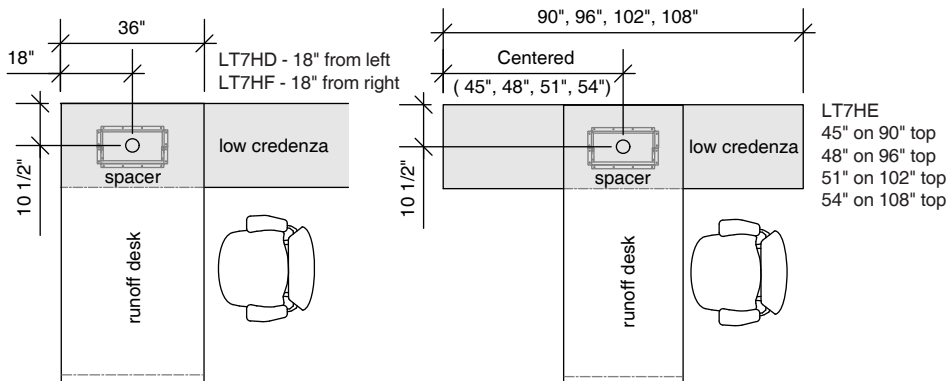

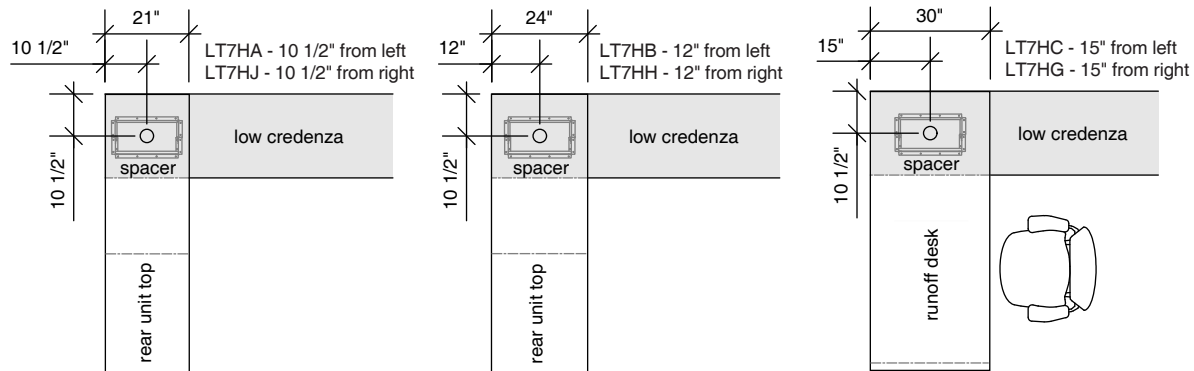

Geiger Levels™ Casegoods

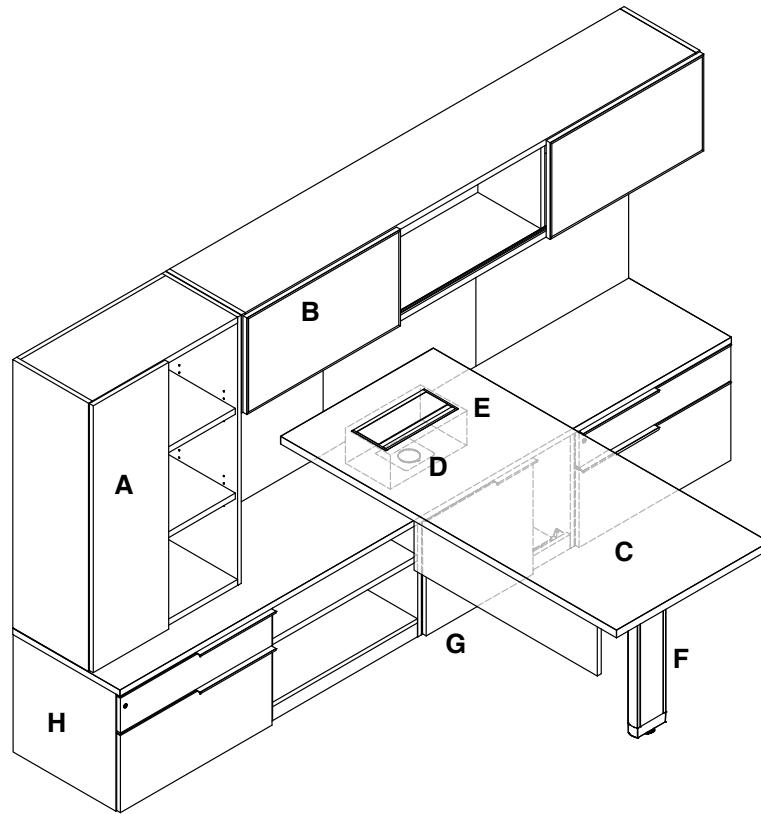

Product Features

Low Credenza Tops

Cable Access Hole Locations

GEIGER

A
Stacking storage offers a variety of open and closed configurations with shelves or closed coat storage in wood or painted finishes. Stacking storage units can be used on top of low or standard height credenzas.

B
Wall mount overhead sliding doors are available in wood, painted, or acrylic with an aluminum frame. Project shelf overheads are also available in single and double height.

C
Runoff desk top is available plain, with a grommet, or a cutout for a power module. Top can be supported with an end panel, leg or pedestal. Legs and pedestals are ordered separately. When used with a low credenza, a spacer box is included. Specify power modules separately. An optional wood or painted modesty panel can be ordered separately.

D
Spacer box is 7 1/2" high and can be specified in Arctic Silver or White metal.

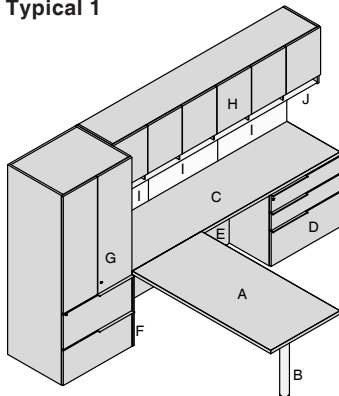

E
Power module provides convenient desktop power, voice and data access. An optional technology pocket is available for docking of electronic devices in the power module. Power modules can be used over open low storage units, equipment storage or open/file storage units.

F
Column leg is shown. T legs and post legs are also available. Column legs and T legs include removeable wood or painted inserts which conceal a cable raceway.

G
Equipment drawer storage unit includes an open slot next to a pull-out drawer which is accessible from the side. The open back allows for easy access to wall outlets.

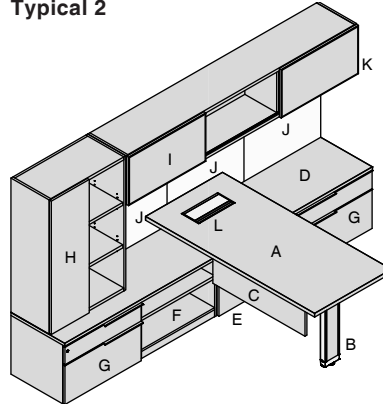

H
Low credenza can be freestanding or used to support a rear unit top or a runoff desk top. It is 21" high including a 1" thick wood top. Storage units are wood or painted. Low credenza tops are available with a cable access hole for cable pass-through when used under a spacer box.

Notes

Refer to the Geiger Textiles pricebook for fabric colorways and codes.

See product page for yardage requirement when determining fabric upcharge.

Tackboard fabric and upholstery fabric must be ordered as COM if railroaded application is required.

COM Procedures • Tackboards

Geiger accepts COM for application on its products. However, Geiger does not warrant the application, suitability or performance of those materials. Geiger reserves the right to reject any COM that it considers unsuitable. Geiger will notify Customer of any apparent defects in Customer's materials before manufacture.

Orders that include COM are scheduled at standard leadtime when Geiger receives all the materials on the order. Geiger will split ship COM orders only if Customer notifies Geiger in writing.

Testing and Approval

All Customer's Own Material requires testing and approval prior to order submission. Failure to obtain approval will result in delayed processing and scheduling of the order.

Step 1. Herman Miller dealers should request a COM test number through Kiosk. Customers and dealers without Kiosk access should contact Geiger Customer Care at 800.456.6452 for a test number.

Step 2. Send one memo-sized sample tagged with the test number to:

Geiger International, Inc.
6095 Fulton Industrial Blvd
Atlanta, GA 30336
Attention: COM Approval

Step 3. Within four business days of receipt of the memo sample you will be contacted by Geiger Customer Care Department with testing results. If approved, you will be given a four-digit COM number for the fabric, and yardage requirements will be confirmed.

The COM number is specific to each fabric and indicates supplier, fabric style, color and applied direction of the fabric. It must be shown on the purchase order and the COM tagging when shipped to Geiger.

Tagging and Shipment

Customer must ship COM materials to Geiger at their own expense. To match the material with the Customer's order, all COM must be tagged as follows:

COM No. _____
Dealer Name _____
Customer Name _____
Dealer PO No. _____
Geiger Order No. _____
Product Item No. _____

All COM for tackboards should ship to:
Geiger International, Inc.
6095 Fulton Industrial Blvd.
Atlanta, GA 30336
Attention: Tackboard Department

Geiger is not responsible for delays caused by fabric not correctly marked or shipped to the wrong location. Freight charges to ship COM from an incorrect location to Geiger may be charged to the Customer.

Questions regarding COM procedures should be directed to Geiger Customer Care at 800.456.6452.

Fire Retardancy

Fire Retardancy

Grommets

Levels Small Grommet

For grommets in returns, rear units, credenzas and small grommets for field installation

VSAS Arctic Silver
VSWHT White

Levels Table Grommet

For grommets in round and square tables

VTOR Orange Inner Sleeve
VTSI Silver Inner Sleeve

Notes

Levels small grommet is metal and provides a 2-1/4" diameter opening (without the removable cover).

Levels small grommets can be ordered separately for field installation. A hole 2 1/2" diameter is required. Specify CGLV.

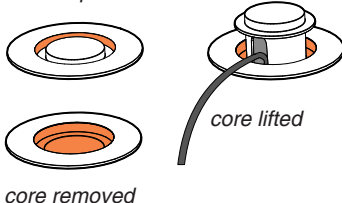

Levels small grommet

Levels table grommets have a 6" diameter frosted plastic outer ring and removable core. The grommet inner sleeve is colored. Inside opening is 2 1/2" with core removed.

Levels table grommet core can be left in place, sitting flush with top of grommet ring or it can be removed to provide through hole.

When the Levels table grommet core is removed, cables can enter/exit the table top. Once cables are managed through the grommet sleeve, the grommet core can be dropped back into the grommet sleeve with cables exiting the slot in the grommet core.

Refer to the Geiger Textiles pricebook for colors and codes of fabrics and leathers.

COM/COL Requirements

Yardage requirements listed below are based on 54" or 66" wide fabric with no pattern or repeat. Geiger Customer Service must confirm yardage requirements for narrower fabrics or fabrics with pattern or repeat.

mobile ped cushion 1 yard of fabric
18 sq. ft. of leather

lowboy cushion 1 1/2 yards of fabric
27 sq. ft. of leather

COM/COL Procedures • Mobile Pedestal and Lowboy Cushion

Geiger accepts COM and COL for application on its products. However, Geiger does not warrant the application, suitability, or performance of those materials.

Geiger reserves the right to reject any COM or COL that it considers unsuitable. Geiger will notify Customer of any apparent defects in Customer's materials before manufacture.

Orders that include COM or COL are scheduled at standard leadtime when Geiger receives all the materials on the order. Geiger will split ship COM and COL orders only if Customer notifies Geiger in writing that this is required.

Testing and Approval

All Customer's Own Material and Customer's Own Leather requires testing and approval prior to order submission. Failure to obtain approval will result in delayed processing and scheduling of the order.

Step 1. Herman Miller dealers should request a COM test number through Kiosk. Customers and dealers without Kiosk access should contact Geiger Customer Care at 800.456.6452 for a test number.

Step 2. Send one memo sized sample tagged with the test number to:

Geiger North Carolina
218 Cline Park Drive
Hildebran, NC 28637
Attn: COM Dept.

Step 3. Within four business days of receipt of the memo sample you will be contacted by Geiger Customer Care or the Herman Miller COM Department with testing results. If approved, you will be given a four-digit COM number for the fabric, and yardage requirements will be confirmed.

The COM number is specific to each fabric and indicates the supplier name, fabric style name, color and applied direction of the fabric. It must be shown on the purchase order and on the COM and COL tagging when shipped to Geiger.

Tagging and Shipment

If an order is to include materials supplied by the Customer, Customer must ship materials to Geiger at Customer's own expense. In order to match the appropriate material with the Customer's order, all COM and COL must be tagged as follows:

COM No. _____
Dealer Name _____
Customer Name _____
Dealer PO No. _____
Geiger Order No. _____
Product Item No. _____

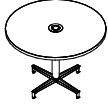

All COM for mobile pedestal and lowboy cushions should ship to:

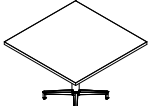

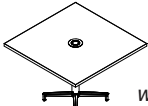

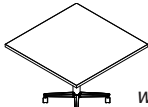

Geiger North Carolina
218 Cline Park Drive
Hildebran, NC 28637
Attn: COM

Geiger is not responsible for delays caused by fabric not correctly marked or shipped to the wrong location. Freight charges to ship COM from an incorrect location to Geiger may be charged to the Customer.

Questions regarding COM procedures should be directed to Geiger Customer Care at 800.456.6452 or Herman Miller COM Department at 616.654.3400.

Wood Finishes		
Premium Wood Finishes	Anigre Wood Finishes	Notes
For wood products or wood tops on painted products (no upcharge)	For wood products or wood tops on painted products (add 20% upcharge for all wood products; add 15% upcharge for painted products with wood tops)	Geiger beech, cherry, hickory, maple and walnut wood veneers are flat-cut and book matched. Anigre, and sapele veneers are quarter-cut and slip matched. Oak veneers are rift cut and slip matched. Champagne ash and ebony ash veneers are flat-cut and book matched. Platinum ash and white ash are quarter-cut and slip matched. For products with solid wood edges or legs, the solid wood species used with each type of wood finish is as follows:
Low Sheen Finishes 911 Champagne Maple 921 Champagne Beech 942 Sundance Cherry 943 Caramel Cherry 944 Henna Cherry 945 Port Cherry 946 Cocoa Cherry 954 Henna Sapele 955 Port Sapele 956 Cocoa Sapele 957 Espresso Sapele 973 Caramel Walnut 974 Henna Walnut 975 Port Walnut 976 Cocoa Walnut 981 Champagne Hickory 991 Champagne Ash 998 Ebony Ash 2U Light Brown Walnut (HMI) 40 Dark Brown Walnut (HMI) ED Aged Cherry (HMI) EK Medium Red Walnut (HMI) UL Natural Maple (HMI) UX Walnut on Cherry (HMI)	Low Sheen Finishes 931 Champagne Anigre 932 Sundance Anigre 933 Caramel Anigre 934 Henna Anigre	Anigre finish cherry solid Ash finish ash solid Beech finish maple solid Cherry finish cherry solid Hickory finish oak solid Maple finish maple solid Oak finish oak solid Sapele finish mahogany solid Walnut finish walnut solid
Matte Wood Finishes 6A1 White Ash 6A2 Platinum Ash 6K1 Rift Oak 6K6 Burnt Oak		Natural wood finishes are unstained to maintain the natural beauty and clarity of the wood. When the veneer and solid wood species are not the same the veneer and solid may differ in color and graining. When a stained wood finish is specified, the solid wood edges are stained to match the veneer top as closely as possible. Special finish colors may be developed for orders over \$200,000 list upon request at no additional charge. A set-up fee of \$250 will be charged on orders under \$200,000 list for each special finish. In order to protect the quality and durability of Geiger's finish, the chemical composition of the staining materials, water-base sealers, and urethane top coats will not be altered for special finishes. Exotic veneers such as pearwood, bird's eye maple and sycamore are available upon request, at additional cost. For further information and procedures for special finishes or exotic veneers, contact your Geiger sales representative.

Wood Edge Paint Spacer Pull Lock

Timeline diagram showing the sequence of pages read by the reader. The timeline starts at 0 and ends at 100. Vertical lines mark the end of each page. The pages are labeled below the timeline: page 24, page 12, page 22, page 15, page 16, and page 15. The reader starts at 0, reads page 24, then page 12, then page 22, then page 15, then page 16, and finally page 15.

Notes

*Tops are 1 1/4" thick wood; pedestals are painted
Depth dimension shown does not include edge overhang
Edge detail is included on user and approach sides
Spacer box is metal, 16"D x 8"W x 6 1/4"H
Add Pull upcharge for Circle and Track pulls
Tops include one required metal support beam which ships
separately for field installation*

Product Number

Cord* Module* Grommet**

page 11 page 15 page 14

*Required for power modules

**Required for grommets

Notes

Technology pocket is gray ABS plastic with a gel liner
Power modules are shown with retractable lid closed
PDT power module Basic Price is for plug-in version; add \$42 upcharge for flexible conduit whip or \$168 for liquid tight whip
PDT power module requires one face plate per module; specify separately
See product feature pages for more information on technology pocket and power modules
