BACK COVER

A Line arm chair

"WITH A LINE AND DEFT, I WANTED TO CREATE A PROGRAM OF CHAIRS AND TABLES THAT IS AT HOME NOT ONLY IN OFFICES AND MEETING ROOMS, BUT ALSO IN CAFES AND RESTAURANTS, AND EVEN THE DINING ROOM AT HOME."

KHODI FEIZ

"The marriage of high-technology carving and hand craftsmanship enabled us to design a light and elegant program of chairs and tables, with a distinct sculptural quality," Feiz adds. A Line puts a fresh spin on the wing-back chair, while Deft raises the art of the exposed skeleton in a meticulously carved frame of solid wood. While both chairs enhance progressive interiors, neither overpowers, with a lean scale and refined frames of solid ash. A Line tables serve as a complement to both chair groups, and also can seamlessly pair with other chair designs, in interiors as diverse as casual conference rooms, cafes, private offices, reception spaces, dining rooms and retail settings. The chairs are GREENGUARD certified, and all products carry a 12-year warranty.

A LINE AND DEFT | SEATING AND TABLES BY KHODI FEIZ

Khodi Feiz was born in Iran and grew up in the USA. A graduate of Syracuse University in Industrial Design, he moved to the Netherlands in 1990 to work for Philips Design. In 1998, he founded Feiz Design Studio with designer Anneko Feiz-van Dorssen, where they specialize in product, furniture, graphic and strategic design for companies such as Alessi, Artifort, Nike and Nokia. Feiz's designs have been featured in exhibitions and publications worldwide.

A LINE AND DEFT | SUPERIOR CRAFTSMANSHIP

A Line and Deft feature frames made of solid ash, a wood species known to be remarkably strong for its light weight. The beautifully grained wood's ability to bend without breaking makes it ideal in the crafting of curved components for chair frames. State-of-the-art CNC machinery maintains strict tolerances in the carving of the frames, ensuring absolute fidelity to the original design as well as consistency from chair to chair and table to table. Both chair designs employ mortise-and-tenon joinery, while A Line chairs also feature slotted rails and corner blocks for maximum structural integrity. All Geiger furniture is backed by our 12-year warranty.
