

Greenplay™

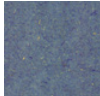

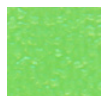

Skyline Design

#### Designer Information

Having dedicated 28 years to exhibit design, Joe Fiacchino has worked with some of the most respected design and production companies in the industry. Joe gained his experience in interpretive exhibit design and development as a creative team leader for corporations and museums. Most recently, Joe has focused on children's venue design. As an independent designer he continues to partner with other industry specialists on interactive venue projects.

## Greenplay

Designed by Joe Fiacchino for Greenplay is a furniture system that's safe for kids. These whimsical, colorful, durable furnishings feature recycled, renewable, and low-impact resources with low-VOC emission finishes. With its earth-friendly material palette, Greenplay promotes environmental and social responsibility. And, our take-back program creates a way for the products to be repurposed and donated for reuse. A perfect complement to Kids Glass™.
