

Skyline Design has expanded its collection of eco-etch® glass designs for low price point, high-volume distribution.

This product line is significantly less costly than off-the-shelf decorative vinyl film and imported glass, and overall exceeds competition in aesthetic standards and environmental consciousness.

Program highlights

- Twelve of Skyline's top-selling patterns
- Medium-to-high privacy options
- Aggressive price points on minimum 5,000+ square foot projects
- Eco-etch, one-sided
- Available in tempered safety glass thicknesses: 1/4", 3/8" and 1/2"
