Designer

Multi-talented Laurinda Spear, FAIA, ASLA, LEED AP, of Arquitectonica is also the founding principal of ArquitectonicaGEO, a premiere landscape architecture firm focused on environmentally sensitive design. She uses a distinctive contemporary approach that is both abstract and romantic to design home, office, fashion, and surface products, as well as public street furniture and signage.

Geometrics

Designed in collaboration with Laurinda Spear of Arquitectonica. Combining Laurinda's distinctive contemporary approach—both playful and smart—the collection follows the bold, geometric aesthetics of the firm's architectural projects. Ten patterns for modern interior spaces offer fresh solutions that accommodate a wide range of design applications.
