1/4", 3/8", 1/2", 3/4"

Customization
Available

Accolades
Best of NeoCon Gold, 2008

Collection in Whites

Designed by award-winning textile designer Suzanne Tick. Captures the sheer aesthetic qualities of textile designs on glass with ten fresh patterns inspired by weave structures and motif scale studies. The patterns are enhanced by the translucent qualities of glass, infused with luminosity, resulting in fluid, linear, and structural designs. The result is juxtaposition between the tactile quality of textile and the hard, durable surface of glass.
