13

When attaching the cable to the cylinder, be very careful not to pull up on the lever. By doing this it may cause the cylinder to spring up.

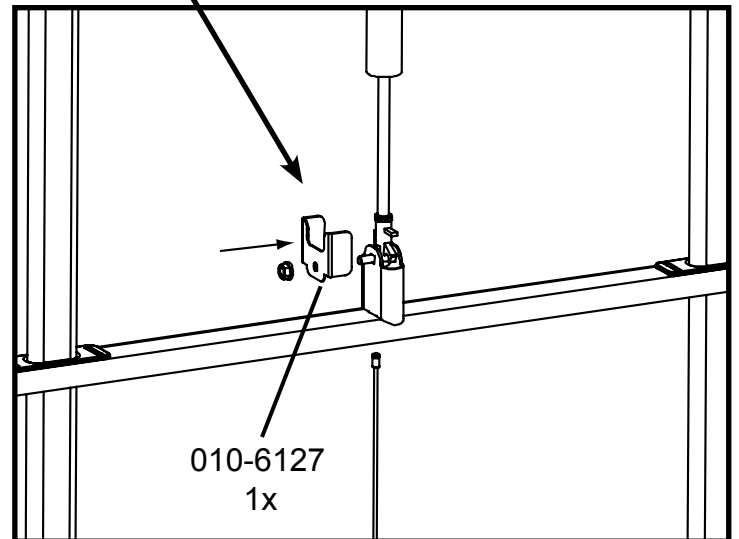

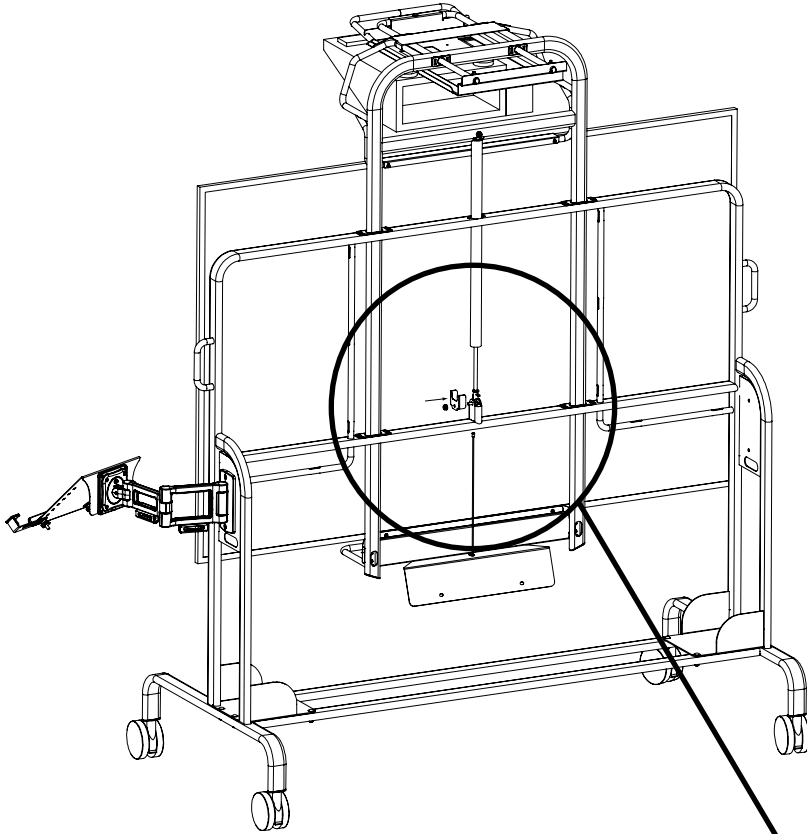

Hook end of cable onto cylinder

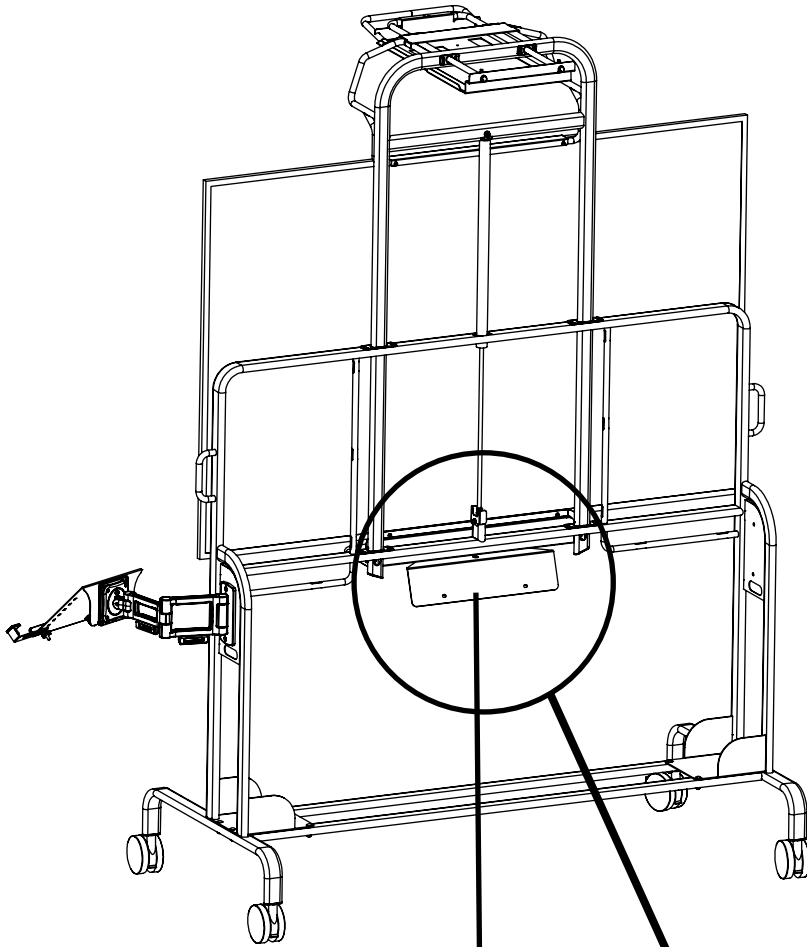

Slide in place.

14

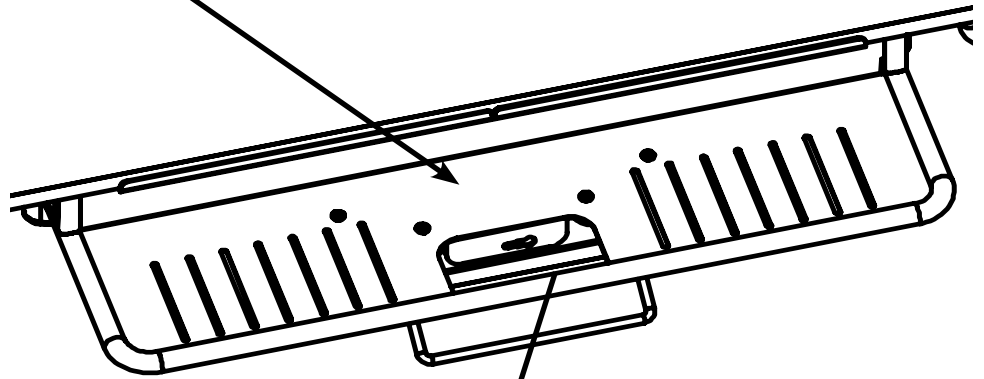

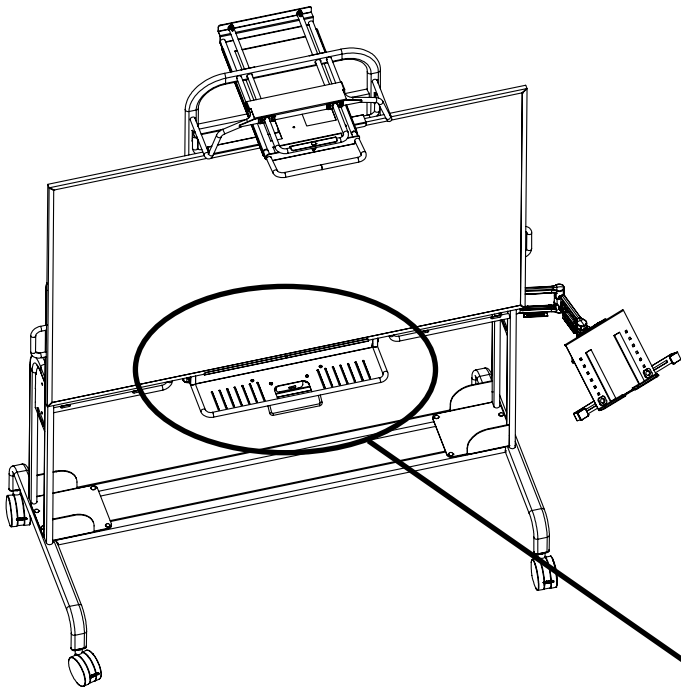

15

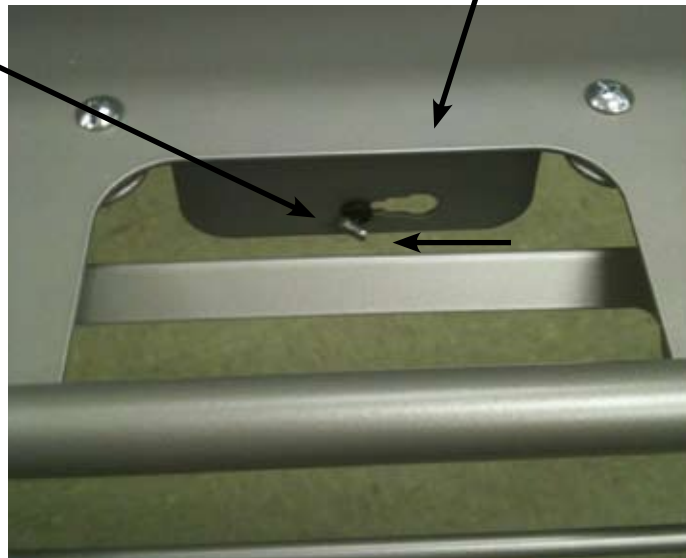

Slide cable through hole in handle assembly.

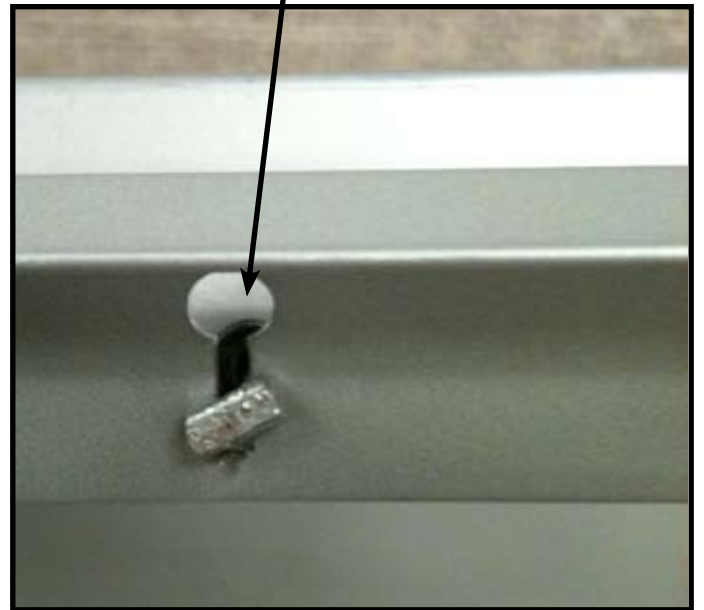

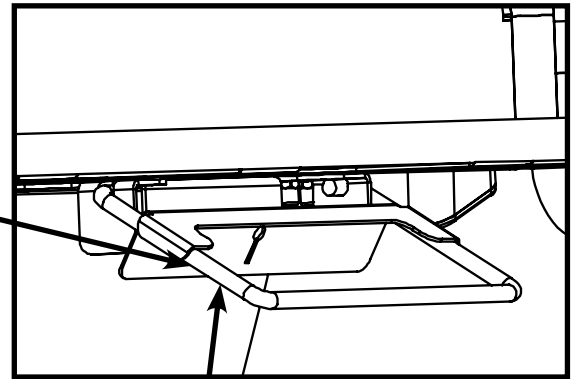

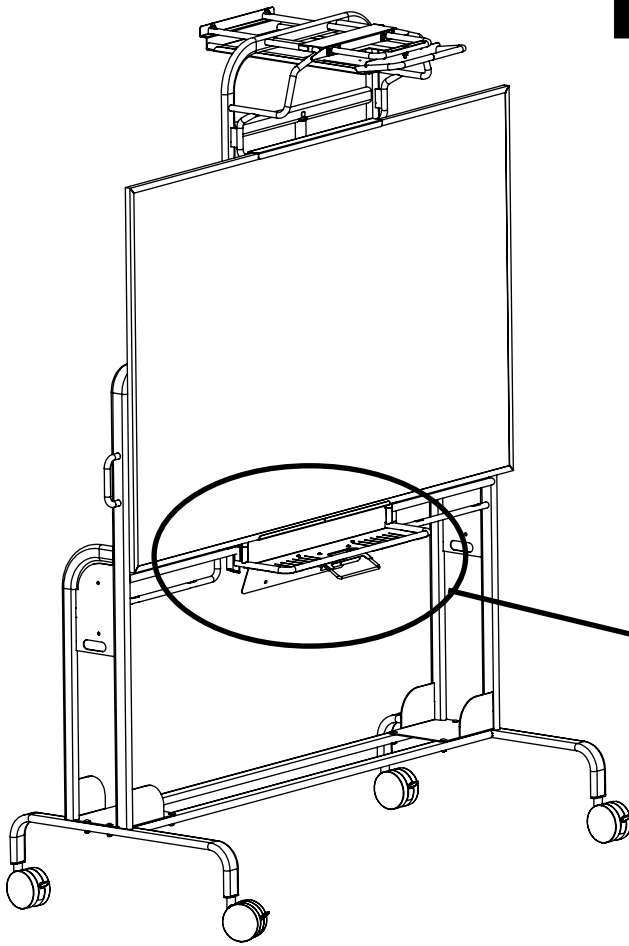

16

Slide cable through eyelit hole and slide it to the left.

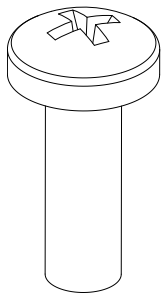

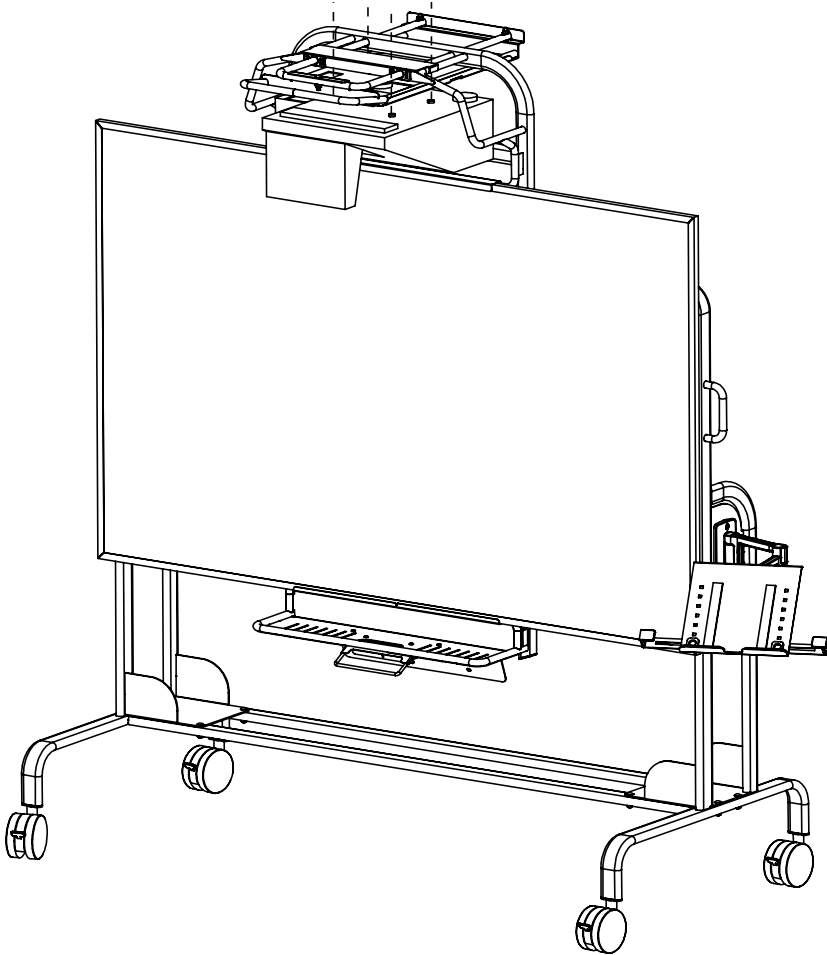

17

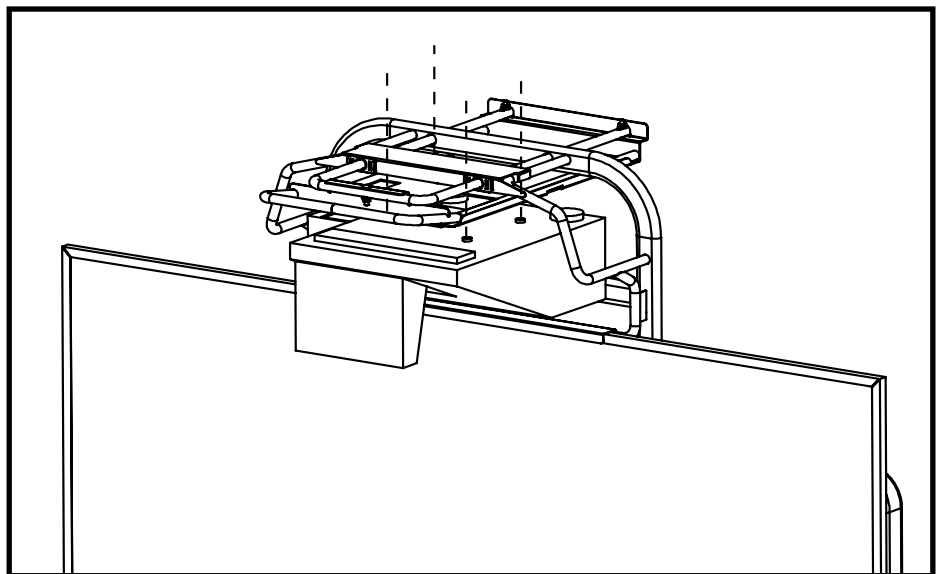

With pliers, pull the cable through the next handle piece so that it sits in the narrow part of the eyelit hole.
