

ZCore is Panolam's decorative melamine surface thermally fused to a urea-formaldehyde free particleboard made from 100% recycled wood fiber. ZCore supports Panolam's strong commitment to the environment and responsible building practices. Manufactured to the high standards you expect from Panolam, it is ideal for schools, hospitals, institutions and homes.

## The Power of Panolam

Panolam introduces *The Power of 2*. A selection of seven new colors that offers a sophisticated new palette and design of contemporary woodgrain styles. Look closely at the detailed graining of Opulent Olmo and Exquisite Elm. Run your hand over the cross sawn pattern of Translatable Timber, Rustic Roble and Shadow Sawn—the image appears to be so real that you expect to feel it under your fingertips. Then focus on the deep rich color of Majestic Magano and Absolute Acajou—modern variations on traditional mahogany.

W116 *Opulent Olmo*

W125 *Exquisite Elm*

W139 *Translatable Timber*

W177 *Rustic Roble*

W213 *Shadow Sawn*

W143 *Majestic Magano*

W150 *Absolute Acajou*

Wood-essence

Panolam colors are available in our full range of surface textures including Wood-essence.

## The Power of Panolam

From *Absolute Acajou* to *Exquisite Elm*, Panolam introduces *The Power of 2*—a unique selection of TFM colors with a fresh look in woodgrain designs. And, like all of our TFM colors, each is ideally matched to our HPL palette to double your creative opportunities.

Panolam is committed to preserving our environment and enhancing the quality of life in the communities we serve. We continue to work for greater awareness about the environment and the importance of responsible building practices among our employees, customers and suppliers.

All colors and designs are available as FSC® certified products.
