

You design. Let us handle the details.

Nucraft offers a free, online product configuration and specification service that saves you time and allows you to be creative while leaving the nuts and bolts to someone else.

- No special software is required, nor is there any learning curve.
- The service applies to all Nucraft products including private office products, conference room products, reception stations, and training tables.
- You can generate quick and accurate answers for budget estimates and/or quick and exact specifications for final quotes.
- Revisions can be made any time you like, and total accuracy is guaranteed.

How it works.

Called iSpec, this service is as close as your phone and your Internet-connected computer. You can use it anytime you need to configure, specify, or price Nucraft furniture. Here is how it works:

1. Schedule an iSpec session by calling 1-877-NUCRAFT or by visiting www.nucraft.com/ispec. (You will be asked to provide some preliminary information on the project. We will respect the confidentiality of the information.)

2. At the scheduled time, a Nucraft project specialist will contact you at the telephone number you provide.

3. You will be directed to the online collaboration site. (All you need is an Internet connection and a Web browser.)

4. Once you are at the site, the Nucraft project specialist will work with you in real time to configure the required product based on your specific direction. (Watch the screen as your workstation appears.)

5. When the specification process is completed, you will receive 2-D or 3-D drawings, the specification itself with guaranteed accurate pricing, and the estimated lead time. (Follow-up sessions may be scheduled at your request to make any necessary modifications.)

iSpec-it's fast, it's flexible, it's a free service from Nucraft.

Nucraft Representatives General Information

Nucraft has independent sales representatives throughout the United States, Canada, Mexico, and the Middle East.

Please visit www.nucraft.com/find-a-rep to locate a sales representative in your territory.

This price book supercedes all previous versions.

How to Order

Before placing your order, confirm you have all required information necessary. Lead times for orders begin after all required information is included and correct.

Delivery Information

Our goal has always been to provide the very best service to our customers. We know lead times are important and sticking to them even more so. We work to maintain a 6-8 week lead time on all standard products in this book from receipt of a clean order. All orders are acknowledged with an approximate shipping date and will be invoiced with the price in effect at the date the purchase order is received.

Shipping charges are prepaid (within the continental U.S.). Therefore, pricing is a delivered price based on normal ground transportation. If you have special instructions, need to ship by air, or are shipping to Alaska or Hawaii, contact Nucraft Customer Service. Nucraft can also help arrange to have products blanket wrapped for an additional charge. Contact Nucraft Customer Service team or specify it on your purchase order.

Minimum Freight Charge: Any order below \$1,800 net will be assessed an \$210 net minimum freight charge (one per order).

Orders are subject to acquiring the materials required for manufacturing. Fulfillment can be affected by strikes, fires, embargoes and acts of government. These elements are beyond our control.

Freight Terms

Shipping charges for Nucraft products are prepaid for standard delivery in the continental United States. Standard delivery is defined as follows: Product is delivered on a 53' trailer being pulled by a long-haul tractor (total length of 85'). Facility will receive delivery Monday through Friday between the hours of 8:00 AM and 4:00 PM. Facility has docks with levelers and a fork truck for unloading. Product will be loaded on load bars two levels high. Receiving facility is responsible to have personnel on hand to unload the truck upon arrival, drivers do not unload. Delivery sites or times that do not meet this criteria will be accommodated, but will typically incur a charge to cover additional shipping costs. Please notify Nucraft in advance of the shipment if this is the case and the additional charge (if any) will be determined by Nucraft.

Product ships FOB dock. The customer obtains title to their product and materials, and assumes the risk of loss for them, upon shipment from Nucraft's facilities.

Storage

Nucraft has no storage facilities for finished product. If a customer cannot accept an order when it is ready for shipment, the customer must designate an alternative shipping address. If no address is provided, Nucraft may, in its discretion, transfer the product to storage. If product is transferred to an offsite storage facility, the customer may be charged for transportation to the facility and for any associated storage fees. Nucraft considers transfer of the product to a storage facility the equivalent of shipment, including invoicing and payment. Customers assume the risk of damage or loss during storage.

Transportation Times and Delays

Third party carriers that Nucraft contracts with will make reasonable efforts to accommodate requested delivery times and dates. Scheduled delivery appointments may, however, be delayed for a variety of reasons, including inclement weather, traffic, transportation equipment problems, and delays encountered at other delivery locations along the delivery route. Nucraft does not recommend scheduling activities that depend on the delivery

General Information

appointment (for example, scheduling furniture installers to install furniture the day of the delivery appointment). Nucraft shall not be liable for any costs incurred as a result of a missed delivery appointment.

Shipment Damage Claims

Legal title to merchandise passes to the buyer upon acceptance by the carrier. **Inspect all cartons upon delivery.** Details of visible damage should be noted on the delivery receipt. Do not install product if damage is found upon inspection. The carrier should be notified by the buyer to inspect the merchandise, and file a claim immediately. If visible damage is not apparent, sign the delivery receipt "No visible damage." This will allow recourse for a concealed damage claim. Although most claims for transportation damages must be filed against the carrier within nine months of the date of delivery, concealed damage claims must be filed within 15 days of receipt.

Do not destroy packing materials until shipment has been inspected. Then proceed to file a claim with the carrier.

Failure to make any claims against Nucraft within 10 days shall constitute acceptance of the merchandise and a waiver of any defects, errors or shortages discovered upon inspection.

Cancellations

Cancellations must be reviewed by our Customer Service team. Because we build your products to order, orders cannot be cancelled once processing has begun. Processing includes but is not limited to development of shop drawings and other engineering drawings. If cancellation is approved, a processing fee of 20-100% will be assessed based upon the status of the order.

Repair Authorization

Prior written approval is required for repairs of merchandise charged to Nucraft. Failure to do so will result in customer funded repairs.

Payment Terms

Terms of payment consist of a 1% cash discount for payment within 10 days of invoice date or payment of the net amount due within 30 days of the invoice date (1% 10 days, net 30 days). Discount is not allowed on credit card payments.

Credit Card Payments

When paying by credit card (Visa, Mastercard or American Express), include the card number, expiration date, card holder name (printed) and card holder signature on the purchase order. A credit card payment form is available upon request. No cash discount allowed on credit card payments.

Warranty

Nucraft warrants that each piece of furniture it manufactures will be free from defects in materials and workmanship for a period of ten years of single-shift use. Textiles, decorative trim, electrical components, lamps, mechanical devices, casters and custom-made products not described in Nucraft's catalog are warranted for one year from the date of original delivery. This warranty is applicable only if the furniture is given normal and proper care and is properly installed and maintained in an office environment. This warranty extends only to products manufactured and sold in North America and only to original purchasers acquiring new Nucraft products through authorized dealers, or from others specifically authorized by Nucraft to sell its products.

Nucraft's sole obligation under this warranty is to repair or replace, at Nucraft's discretion, products which prove to be defective during the warranty period. Purchasers may be required to establish that a claim is within the warranty period. To initiate a warranty claim, the purchaser should contact an authorized Nucraft dealer.

This warranty does not cover: 1) Damage caused by a carrier 2) COM (Customer's Own Material) specified by the customer that is not a standard product offering 3) Color, grain or texture of wood and other covering materials (due to the natural variations over which Nucraft has no control) 4) Damages resulting from user modification, attachments to a product, misuse, abuse, alteration or negligent use.

Nucraft extends no other warranties, expressed or implied, including warranty of merchantability or fitness for a particular purpose. Nucraft shall not be liable for loss of time, inconvenience, commercial loss, incidental or consequential damages.

Finish Information

Surface Materials Palette

We crafted our materials palette using the same demanding standards that distinguish our furniture. Thoughtful design and attention to every detail elevate your possibilities.

Anchored by Nucraft veneers, unrivaled for clarity, quality, and depth of finish, our collection of surface materials comprises a sophisticated set of balanced elements that supports your design vision.

Some elements have their roots in Nucraft's rich heritage. Other's are new materials and refelct current trends and taste. Together, they ensure that you're ready for today and positioned well for the future. Beautifully.

Custom Finishes

Nucraft specializes in expert custom finish matching. For a nominal upcharge we can provide custom finishes, and we are frequently asked to match the finishes of other furniture manufacturers. For orders over \$5000 list, a finish sample will automatically be sent for approval prior to entering the order. Additionally, for finishes that appear unusual to match or for customers directly requesting a sample, a finish sample will also be sent for approval prior to entering the order.

Custom finishes requiring colored varnishes to create a painted look can only be applied to Maple veneer and require one extra week in addition to the standard leadtime. Nucraft's standard black finish (G82) can be applied to all Nucraft standard veneers. Walnut is the standard black veneer. Other species must be specified when ordering.

Custom finishes carry a 10% upcharge per item, per finish.

Do not add the finish upcharge to any item that is not wood. Example: casters, ganging connectors.

Treatments

Note: Default veneer sheen will vary per finish and were determined by a team of experts who reviewed the colorways to determine if gloss or matte best highlighted the natural characteristics of the species of wood and the color of the stain. Default finish is bolded on Page 8. If no direction is provided on incoming orders, default sheen will be selected.

Gloss: Gloss is a durable finish that tends to nicely mask normal wear and leaves wood grain visible to the eye. It achieves a medium gloss open pore appearance (40-50 sheen range). Finish numbers preceded by the letter "G" indicate a Gloss finish.

Matte: Like Gloss, Matte is durable, tends to nicely mask normal wear and leaves wood grain visible to the eye. It achieves a low luster, open pore appearance (10-20 sheen range). Finish numbers preceded by the letter "M" indicate a Matte finish.

Since each veneer type responds differently to both types of treatment, all will have a distinctive look and feel when finished. For example, a Walnut veneer with a Gloss treatment will remain much more textured than a Cherry veneer with the same treatment.

About the Wood

All Nucraft veneers are carefully selected for uniformity of color and grain. Still, wood is a natural substance and minor variations may occur due to its own uniqueness. Because of this, the furniture you receive may not be an exact match to our samples.

Nucraft takes great pride in our finish color consistency. However, wood is a natural product that will have color variation within a single piece of furniture, as well as from one piece to the next. Other factors also affect color over time, such as exposure to light (both intensity and duration). For example, lighter finishes cause more variation in colors over time.

In cases where a returning customer wants a precise match with existing furniture, we recommend sending a sample of the existing furniture finish. Please contact Nucraft Customer Service to determine an appropriate sample. This will ensure a finish match between old and new orders. This type of order is considered a control sample. There will be a 10% upcharge on an order of this type. Due to natural aging of veneers, natural finishes may vary.

Care and Maintenance of Wood Finishes

Our finish material is a crystal clear, urethane acrylic blend. This type of finish may be repaired in the field by a qualified refinisher.

Nucraft recommends using a damp cloth to clean your fine wood furniture. Always wipe with the grain of the wood. Should your wood furniture require a more thorough cleaning, we recommend using a mild cleaner such as Joy dish soap or Murphy's oil soap, thoroughly diluted in water (one part soap to thirty parts water). Water will not damage Nucraft's finish, but will leave surface spots when it dries. To avoid this, dry the surface with a soft cloth after it is cleaned. Marks that cannot be removed with the cleaning methods above may be able to be removed using naptha, a mild degreasing solvent.

Caution: while the use of polishes that contain wax, petroleum solvents or silicones may immediately enhance the "shine" of a product, it may also eventually remove the fine original finish applied in our factory. Silicone on the surface of wood may also make it very difficult to respray or refinish.

All Nucraft furniture is inspected and polished before it leaves our factory. In some instances, the packing materials may imprint on the factory polish. Cleaning and polishing the furniture once it is unpacked will normally restore the furniture to its original beauty.

In some cases, the rubber support feet used on the bottom of common office equipment (teleconferencing phones, laptops, microphones, copiers, etc.) can create unsightly marks in the surface of wood tops, due to oxidation of the lacquer finish. We suggest these machines be placed on a protective type of padding, such as felt.

Finish Information

Laminates

Selected Formica[®], Nevamar[®], and WilsonArt[®] laminates are available on Satellite Tables, A/V and Presentation Cart top insets as well as Conference Tables, Conference Room Furniture, Visual Boards and select Occasional Tables. For standard laminate and wood pricing, refer to individual item pricing columns.

Non-Standard Laminates

To order a color other than those on our list (see Page 8), refer to Nevamar, WilsonArt, or Formica standard grade, matte texture or Pionite standard grade, suede texture laminate offerings (excluding manufacturers' non-standard matte offering). Add \$90 list per item for a non-standard solid, matrix or pattern. Add 20% per color for woodgrain laminates (includes stained-to-match for remainder of unit to match laminate color). Add one week to the lead-time for all non-standard laminate orders. Call the Nucraft Customer Service team for quotes on premium grades and laminates. Mirror and metal laminates are not available.

Care and Maintenance of Laminate

Laminate surfaces may be cleaned with a damp cloth and ordinary soap or non-abrasive household liquid detergent. Dry the surface with a clean cloth or soft paper towel to prevent streaks from appearing.

Care and Maintenance of Metal

Metal surfaces can be wiped with a damp cloth and rubbed dry. A mild non-abrasive household liquid detergent can be used if necessary. Regular maintenance of metal components, including tightening of fasteners and light lubrication of moving parts, will extend the life of your furniture.

Care and Maintenance of Glass

Clear or frosted glass may be cleaned with commercial glass cleaner. Be sure to use a lint-free cloth if cleaning the frosted side of the glass.

Stone and Solid Surface Material

Despite its reputation for durability, natural stone can easily be broken during handling and/or installation if proper techniques are not followed. In addition, Nucraft is not responsible for the installation of natural stone or solid surface materials on its products. Therefore, installers specifically trained in the installation of these materials must be utilized to ensure a quality installation. Nucraft shall not be liable for any damages incurred during the handling and/or installation of natural stone or solid surface materials on its products.

Care and Maintenance of Stone

Marble: Marble is porous and stains easily. Wipe off anything spilled on marble immediately. Occasionally wash marble surfaces with lukewarm water and wipe dry with a clean cloth. To avoid leaving streaks, wipe surface with a damp chamois. Should your marble surfaces require a more thorough cleaning, wash with a mild household liquid detergent solution, rinse and wipe dry. A light coat of wax will protect the surface of marble but is not considered essential. If wax is applied, it should be a colorless wax.

Granite: Granite surfaces may be cleaned with a damp cloth and ordinary soap or non-abrasive household liquid detergent. Dry the surface with a clean cloth or soft paper towel to prevent streaks from appearing.

Care and Maintenance of Leather

Genuine leather requires very little care. Nucraft recommends that leather be dusted regularly. If a more thorough cleaning is needed, use lukewarm water and a mild, non-abbrasive soap. Generate some lather and lightly rub the surface with cheesecloth. Rinse off any soap film with clean water and towel dry. The leather may dry dull. To restore the leather to a normal gloss, rub it with a clean towel. Never use furniture polish, oil, varnish or ammonia. Saddle soap may be used to prevent the leather from becoming brittle or cracked and to maintain the original supple finish.

Touch Up Finish Kits

Model #	Description	Price_
KIT-M	Metal Kit	80
KIT-P	Paint Kit	80
KIT-S	Stain Kit	80

REQUIRED INFORMATION:

Tackzone Fabric

KNOLLTEXTILES

Applies to Visual Boards and Tackzone

Nucraft is pleased to have partnered with KnollTextiles to offer a concise selection of standard fabrics pre-approved for use on our products, with prices that are figured into our graded-in system. We've carefully curated a selection of each of the textile's color lines to coordinate with our materials offering. However, all colorways are approved and available as standard. Please contact fabric manufacturer for sampling support.

All tackzone fabrics are applied railroaded

For additional information on our graded-in fabrics program, please go to www.nucraft.com.

Upholstery Fabric

Applies to Benches, Pedestal Cushions

Nucraft is pleased to have partnered with KnollTextiles, Spinneybeck, and UltraFabrics to offer a concise selection of standard upholstery fabrics pre-approved for use on our products, with prices that are figured into our graded-in system. We've carefully curated a selection of each of the textile's color lines to coordinate with our materials offering. However, all colorways are approved and available as standard. Plase contact fabric manufacturer for sampling support.

*In addition to being available on all of our bench and pedestal cushion applications, the starred upholstery fabrics are approved for tackzone application on Nucraft products.

COM Specification

For COM orders please include the following:

- Name of customer
- Customer's purchase order number
- Model number and quantity of piece(s) to be covered
- Specify right-way or railroad application (railroad is the default if no selection is made)
- If fabric is a stripe or pattern, specify vertical or horizontal application
- Supplier's name, material number and description

YARDAGE ESTIMATING

All yardages in the price list are based on 54" wide plain (no match) fabric. The following is a guide for fabrics that are less than 54" wide or have a pattern match.

Fabric Less Than 54" Wide

For 50" wide fabrics allow 10% additional fabric

For 48" wide fabrics allow 15% additional fabric

For 45" wide fabrics allow 20% additional fabric

For 36" wide fabrics allow 50% additional fabric

For Pattern Match Fabrics

 $3\,^{\prime\prime}$ to $14\,^{\prime\prime}$ repeat allow 15% additional fabric

15" to 19" repeat allow 20% additional fabric

20" to 27" repeat allow 25% additional fabric

28" to 36" repeat allow 30% additional fabric

Nucraft may add a charge for sewing, cutting and matching unusual COM or COL materials to cover additional costs. Call customer service for pricing.

It is the sole responsibility of the customer to determine that the fabric is appropriate for the application in which it will be used.

Once COM/COL is accepted, Nucraft assumes no responsibility for its overall appearance, flammability, normal durability, color fastness or any other quality after upholstered on a Nucraft product beyond our normal quality standards.

The fabric should be sent to the following address:
Nucraft Furniture Company
5151 West River Drive
Comstock Park, MI 49321
Attn: Order Processsing

FIRE RESISTANCE

All Nucraft benches incorporating upholstery fabrics meet California Technical Bulletin 116/117 and BIFMA X5.7 - Voluntary Upholstered Furniture Flammability Standard for Non-Residential, Non-Live-In Occupancies.

COM LEATHER SPECIFICS

The following is a guide for specifying leather requirements. The guide is based on the following general information.

A full "domestic" hide is approximately 50-60 square feet. A specialty or calf hide is approximately 35 square feet. Of this footage there are various non-usable areas included in the hide's size. Conversion of fabric yardage to leather is approximately 1 yard = 18 square feet.

Bench Requirements

48" benches will require 1/2 domestic hide or 1 full calf hide.

60" benches will require 1 domestic hide or 2 calf hides.

72" benches will require approximately 1 full domestic hide or 3 calf hides.

The boxing around the seat, if required, will have 4-6 seams that will be placed aesthetically based on the yield and usable remains of the hides.

Specification Tools

Computer Aided Planning

Nucraft products and pricing are available on CD via CAP (Computer Aided Planning), a product of 20 20 Technologies.

Cap Studio is an integrated software system developed specifically for interior designers and facility planners to enhance workplace performance. This modern suite of applications works together seamlessly, in concert. Navigate catalogs, select products, design in plan view and 3D, assign options, create worksheets and build a project where you want, when you want. Take your pick. It's dynamic and interactive. Design projects are a work in progress. And now you can perform any of the many discrete tasks that go into a project any time, any place.

For additional information you may contact 20 20 direct at 800-227-0038.

iSpec®

Nucraft offers a free online product configuration and specification service that saves you time and allows you to be creative while leaving the nuts and bolts to someone else. No specific software is required, nor is there any learning curve. This service applies to all Nucraft products. For additional information, call 1-877-NUCRAFT and ask for the iSpec Team or log on to www.nucraft.com/ispec.

Environmental Statement

Environmental Options

Nucraft is committed to supporting responsible environmental policies and practices in all that we do. We strive for sustainability, weighing our business decisions against the costs to the ecological, social and economic systems they affect.

Our products are manufactured to meet one or more of the following credit requirements of the U.S. Green Building Council's LEED rating systems:

Recycled Content

LEED Credit MR 4.1

Requirement: The sum of post-consumer recycled content plus 1/2 (one-half) of the pre-consumer content shall constitute at least 10% of the product (by weight).

LEED Credit MR 4.2

Requirement: The sum of post-consumer recycled content plus 1/2 (one-half) of the pre-consumer content shall constitute at least 20% of the product (by weight).

All standard Nucraft products consist of a high percentage of recycled content that far exceed the LEED requirements and vary by product line. For exact percentages, download the Environmental Statements for each respective product line at www.nucraft.com.

Rapidly Renewable Materials

LEED Credit MR 6

Requirement: Products shall consist of at least 5% (by weight) of materials made from plants that are typically harvested within a 10-year or shorter cycle.

Nucraft offers all wood products with an optional Rapidly Renewable construction to meet the LEED requirement for Rapidly Renewable content. Contact Nucraft Customer Service for details on how to order products with this construction. For exact percentages of Rapidly Renewable content by product line, download the Environmental Statements for each respective product line at www.nucraft.com.

Certified Wood

LEED Credit MR 7

Requirement: Products shall consist of at least 50% (by weight) of materials that are certified in accordance with the Forest Stewardship Council's Principles and Criteria.

Nucraft is a Forest Stewardship Council (FSC)-certified manufacturing facility and offers all wood products with an optional FSC-certified construction to meet the LEED requirement for Certified Wood. Contact Nucraft Customer Service for details on how to order products with this construction. For exact percentages of Certified Wood by product line, download the Environmental Statements for each respective product line at www.nucraft.com.

Low-Emitting Materials - Systems Furniture and Seating

LEED Credit EQ 4.5

Requirement: All systems furniture and seating that was manufactured, refurbished or refinished within one year prior to occupancy must meet the ANSI/BIFMA M7.1-2007 and ANSI/BIFMA X7.1-2007.

All Nucraft conference tables, training tables, and Aerial casegoods satisfy LEED Credit EQ 4.5 as they have been certified to the stringent ANSI/BIFMA X7.1-2007 Furniture Emissions Standard.

Options:

Plug-in Infeed: Add -P Hardwire In-feed standard unless -P option selected

Chicago Electric: Add -CHI Deduct \$887 for 96"-120" tables Deduct \$1772 for 144"-240" tables

The city of Chicago may require hardwiring of components and may not allow the use of standard modular power systems. A junction box will be provided when ordering the **-CHI** option

REQUIRED INFORMATION: (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

- Choose Model Number. (Must correspond with table length)
- Choose Metal Door finish if Metal Doors are specified: Cloud (A8004), Burnished (A8009), Foil (A8006), Shadow (A8005), Galaxy (A8007)

Note: Metal Door finish will default to the base metal color if not otherwise specified.

General Information:

- Available on Racetrack, Arc Rectangle, Sight Line and Boat tops
- Not available with Cylinder Base
- Wood finish and species default to the same as the table top and bases
- All electrical components included (unless -CHI option is chosen)
- Power In-feed located at end of table
- Detailed information on Power Center found on Pages 416-419

COVE-M-P	5 x 5 x 4	Polished Chrome Door	2	1	2	954

Chicago Electric: Add -CHI Deduct \$119 per unit

The city of Chicago may require hardwiring of components and may not allow the use of standard modular power systems.

A junction box will be provided when ordering the -CHI option. Plug-N-Play Data Add -PNP \$148 per unit

REQUIRED INFORMATION: (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

- Choose location code & quantity from the chart below
 Choose Glass Door finish if COVE-G is specified: Satin or Gloss in White (WS, WG), Meringue (MS, MG), Quill (QS, QG), Clove (VS, VG)
 Choose Metal Door finish if COVE-M is specified: Cloud (A8004), Burnished (A8009), Foil (A8006), Shadow (A8005), Galaxy (A8007) or Clear Anodized (CA)

Note: Metal Door finish will default to the base metal color if not otherwise specified

General Information:

- Wood species and finish will default to the same as the table top and bases if COVE-W is specified
- Glass & wood doors are 1/4" thick, metal doors are 1/8" thick
- Glass door is back-painted low-iron glass
- All interior components are Clear Anodized aluminum
- Each unit includes one convenience outlet located below the work surface
- When specified on tables with laminate tops, each Power Cove unit includes a 3/8"-wide metal bezel and is limited to the glass, metal and polished chrome door options (please note that the Clear Anodized (CA) metal door finish is not available)
- Detailed information on Power Cove is on Pages 422-423
- (2) RJ-45 and (1) RJ-11 faceplate ships installed on Power Coves. Each unit also ships with (1) Double Open Slot (COVE-FNG2), (1) VGA (COVÈ-VGA1), (1) RCA (COVE-RCA1) and (1) Blank Faceplate, which can be easily interchanged with pre-installed RJ-45 and RJ-11 faceplates.

Power Cove Faceplate Options	Model #	Description	Price
	COVE-FNG1	Open Slot Faceplate	18
	COVE-FNG2	Double Open Slot Faceplate	18
	COVE-VGA1	VGA Connector Faceplate	18
	COVE-USB1	USB Connector Faceplate	18
	COVE-RCA1	Single RCA Connector Faceplate	18
	COVE-RCA2	Double RCA Connector Faceplate	18

General Information:

- Faceplates do not include voice/data connectors (connectors are customer supplied)
- Finish is Clear Anodized aluminum
- For the various faceplate options see Page 422

Tech Node	Model #	W x D	Price
	PUP	8 x 4	331

REQUIRED INFORMATION: (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

• Choose location code and quantity from chart below

General Information:

- Tech Node option includes two simplex receptacles and two voice/data openings
- 10' cord and a 15amp plug-in power in-feed
- Voice/data modules must be ordered separately; contact your local AV integrator
- Default color to metal finish specified on tables (Shadow and Galaxy receive Black Anodized Tech Node; Cloud, Burnished and Foil receive Clear Anodized Tech Node)
- UL listed
- Detailed planning information found on Page 424

Round Grommet	Model #	W x D	Price
