

POWER + DATA

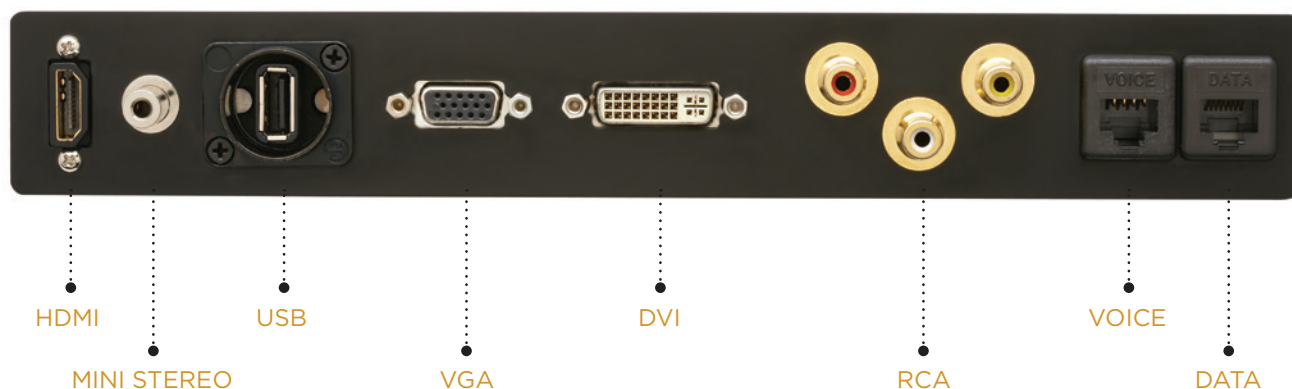

POWER AND CONNECTIVITY. WHERE YOU WANT IT. WHEN YOU WANT IT.

Versteel provides power and data solutions designed specifically for today's workspace, allowing you to connect with ease where and when you need. Choose from flush-mounted one touch pop-up or simple power on the top of the table for ease and convenience of use. No matter what your power and connectivity requirements are, you can count on Versteel for the products and solutions that are right for the job.

DATA PLATE OPTIONS

Not available on all units.

POWER ACCESS

Flush-mounted table power and data units. Standard unit includes 2 power outlets and a configurable data plate.

Available in single- or multi-circuit.

POWER GLOBE

A simple and convenient way to provide power and voice/data to the table. Ideal for stationary tables where power and data are needed consistently.

Available in single-circuit.

HENRI AND HENRI NOW

Easy pop-up power and data source for all tables. Connect 8 units in a series, providing 16 outlets. All Henri units close when not in use.

Available in single-circuit, color-keyed connectors or universal connectors.

If you're looking for new ideas and
inspiration, you've come to the right place:

VERSTEEL.COM

POWER BAY

Flush-mounted conference
table power unit. Available with
4 courtesy outlets, a green
LED for power indication and a
configurable data plate.

Available in single-circuit.
