3x9

Introduction

The 3 x 9 collection from Creative Wood is a unique combination of three workplace settings, each sharing the common goal of supporting workspace collaboration. Thin Line, Future Proof and Multi Position have distinctive design elements that can be intertwined in the same space.

Functionally, Thin Line has the broadest range of products while supporting face to face communication, PC and lap top technology. Future Proof's intricate bevel case and base detailing encourages large screen collaboration within a context of highly refined and simply positioned casework. Multi Position offers executive ergonomic solutions to the office while responding to the increasing need for desk top video-conferencing.

In specifying 3 x 9, we encourage you to think about these functional requirements, but also about the wide variety of design, and color statements that can be achieved with our standard and premium veneers. Used in combination with solid color accents on panels, pedestals, rails and cabinet backs unique design aesthetics can be created.

Terms and Conditions

I. Terms

All orders are invoiced upon completion. Payment Net 30 days. All new customers require 50% deposit with order. Credit will then be determined based on references and credit history. All project orders over \$100,000 may require a multiple deposit schedule.

II. Pricing and Cancellation

All prices are at list. Prices and specifications are subject to change without notice. All orders are subject to final acceptance by Creative Wood. Changes and cancellation requests must be approved by Creative Wood and may be subject to additional charges.

III. Warranty

Creative Wood warrants to the original purchaser that its products will be free from defects in workmanship given normal use and care for 5 years. This warranty does not cover (A) damage caused during shipment or during installation (B) any C.O.M. products (C) color, grain, or texture of wood and other covering materials over which Creative Wood has no control. Electrical components have a 1 year warranty. Light bulbs and ballasts are not under warranty.

Shipping Programs

I. Northern California Shipping

Creative Wood offers an in-house delivery and installation service for its northern California customers. Please call factory for quote.

II. Southern California Shipping

For Creative Wood consolidated freight program using Creative Wood delivery, add 10% for orders up to \$12,000 net. For orders \$12,000 to \$25,000 net, add 8% to order. For orders over \$25,000, please call factory for quote.

For Creative Wood installation, please call factory for quote.

Shipping Program

III. National Shipping

Most national shipments are consolidated and have a pre-determined route. At the time of shipment, individual orders will have assigned destination dates. All orders are shipped blanket wrapped and prepaid by applying a percentage of the net to the order based on the various regions below:

PACIFIC NORTHWEST REGION Oregon, Washington	12%	SOUTHEAST REGION Louisiana, Mississippi, Alabama, Tennessee, North Carolina, South Carolina, Georgia, Florida	15%
WESTERN REGION Montana, Wyoming, Colorado, Utah, Idaho, New Mexico, Texas, Nevada, Arizona	13%	EASTERN REGION Washington DC, Pennsylvania, Virginia, West Virginia, Kentucky, Maryland, Maine, New Jersey, New Hampshire, New York, Vermont, Rhode Island, Connecticut, Massachusetts, Delaware	15%
		MIDWEST REGION North Dakota, South Dakota, Wisconsin, Iowa, Illinois, Kansas, Missouri, Arkansas, Ohio, Indiana, Michigan, Minnesota, Nebraska, Oklahoma	14%

Unloading is the responsibility of the buyers agent. Creative Wood and the carrier assume no responsibility for labor to unload. All items must be inspected upon delivery. Any shortages or damage must be noted on the delivery document upon receipt. "Subject to inspection" or "concealed damage" claims will no be allowed on blanket wrapped shipments since inspection is required as blankets are removed.

For full truckload dedicated rates, consult factory.

IV. Overseas Shipping

Orders shipped to ports of destination overseas, i.e. Alaska, Hawaii, and other destinations, require special handling. Individual pieces or small orders are shipped in plywood crates. Please see below for the net up charge per piece.

Introduction

Veneer Options

I. Wood Finishes (Standard Sheen)

STANDARD VENEER

- (A) Quartered Walnut
- (B) Quartered Chery
- (C) Quartered Sapele Mahogany
- (D) Quartered Maple
- (E) Rift Oak

PREMIUM VENEER

- (F) Recon Macassar Ebony
- (G) Recon Grey Oak
- (H) *Recon Silvertone Walnut
- (I) Recon Wenge
- (J) Recon Zebrawood
- *Low Sheen

II. Solid Color Finishes (High Sheen)

- (1) Overt Green
- (2) Resonant Blue
- (3) Peppery Red
- (4) Sky White

III. Metal Finishes

- (10) Silver Powdercoat
- (11) Sky White Powdercoat

Veneer Note

All wood veneers are standard with clear finish.

Finish Note

Great care goes into ensuring that quality is built into every Creative Wood product. We employ an ultraviolet resistant conversion varnish finishing system. The catalyzed topcoat provides excellent water-white resilience from yellowing and excellent performance resistance from house hold chemicals, abrasion, and water. All stains and dyes are water base and environmentally friendly. The result is a finish that is designed to protect your furniture for many years to come.

IV. Standard Fabric

- | | |
|----------------------|---------------------|
| (20) Splice Alloy | (30) Stitch Andiron |
| (21) Splice Aril | (31) Stitch Basket |
| (22) Splice Loquat | (32) Stitch Cinder |
| (23) Splice Polar | (33) Stitch Endive |
| (24) Splice Seafoam | (34) Stitch Oxygen |
| (25) Splice Sparrow | (35) Stitch Skylark |
| (26) Splice Woodland | (36) Stitch Steam |

Veneer Options

V. Custom Finish

For custom finishing, call out species and color and use premium price.

VI. Finish Care

Even though Creative Wood coatings are extremely durable and resistant, they still require care to maintain their appearance. With a little help, these coatings will retain their beauty for many years to come.

To remove dust on a regular basis, use a clean lint-free cotton cloth to wipe down all finished areas.

To clean finished surfaces, wipe with a clean, soft, damp cloth and dry immediately. A solution of a mild detergent or an emulsion based cleaner can be also used. Products such as Murphy's Oil Soap contains no wax, silicones, or solvents.

Spills are always removed more easily if cleaned promptly.

Avoid harsh chemicals:

- Avoid ammonia or bleach based cleaners and soaps with dye
- Do not use soap pads, steel wool, or abrasive cleaners.
- Do not use solvent based or petroleum based cleaners.
- Do not use a dish cloth as it may contain grease or detergents.
- Do not use waxes or polishes containing silicone or solvents.

Avoid excessive moisture:

Wipe up spills and water spots immediately so that moisture is not absorbed on the surface.

VII. Plasticizer Migration

Please be aware that all lacquer or varnish top coats may be susceptible to plasticizer migration. This is a chemical transfer of a plasticizer found in plastic, rubber, and vinyl products used on wood desk tops. Most plasticizers evaporate. However in very few instances, damage to the finish will occur. We encourage the use of felt pads for all equipment used on worksurfaces.

VIII. Environmental Philosophy

Creative Wood continues to strive towards practical, effective, sustainable material implementation. As a wood furniture manufacturer, Creative Wood and our vendors work in unison to create a product and work environment that is focused on minimizing our global environmental impact. Our vendors are committed to forest management, and to carefully monitor the methods used in maintaining a sustained yield. As our products are made to last though the years, we recognize the importance of nurturing the forests and other materials to grow with us.

Effective Immediately, all of Creative Wood's products will be in full compliance with the California Air Resources Board's Airborne Toxic Control Measure (ATCM). All composite core material MDF and composite particleboard will contain no added urea formaldehyde.

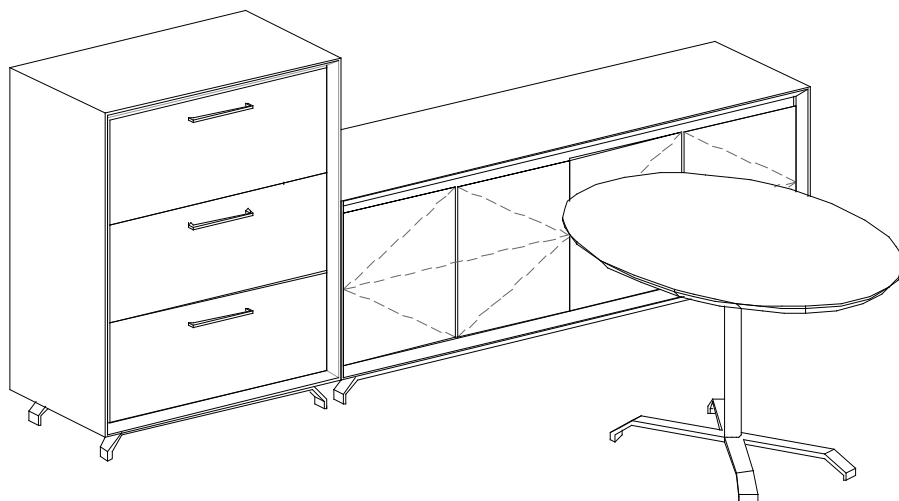

IX. LEED Credits

With this standardization, Creative Wood Products will help achieve LEED credits in all of its wood products. Non-urea Formaldehyde added panels help achieve towards credits for Material and Resources 4.1, 4.2, 5.1, and 5.2. They can also contribute towards Indoor Environmentally Quality 4.4.

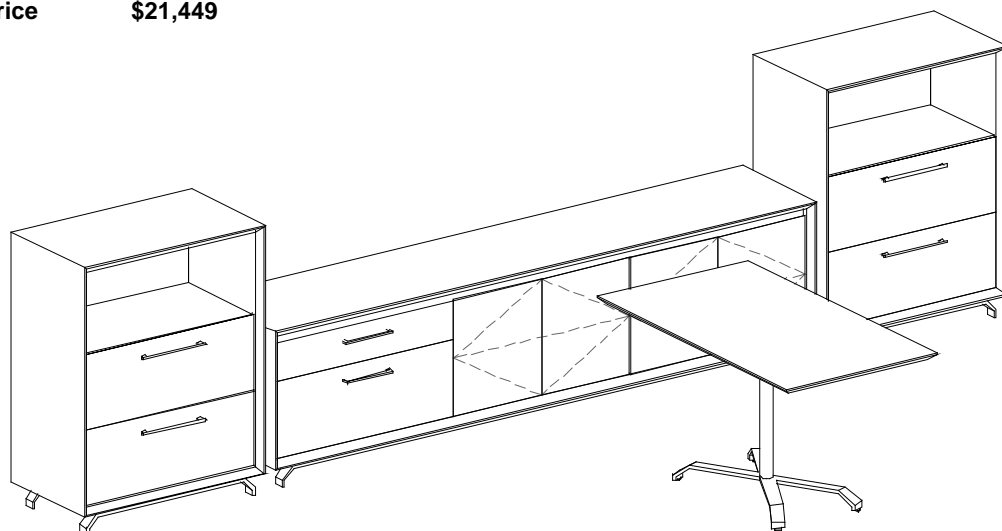

Creative Wood ships its furniture via reusable blanket wrap material in consolidated shipments. As our trucks are dedicated to travel the most efficient routes across the country, after unloading, no paper, foam, or other material waste is left behind. This contributes towards LEED credits 2.1 and 2.2. If shipping to within 500 miles of Oakland, California, contributions can also be achieved towards credit 5.1.
