Feek™

Fundamentals

Exclusively by Trendway >

Meet Feek.

A fun, friendly, and flexible coated foam product for almost everywhere you can imagine!

Created by Frederik van Heereveld, a globally recognized designer and product developer, Feek Fundamentals bring fun and personality to space with coated foam. With a broad range of colors and over 40 standard sizes and shapes, you'll love how Feek appeals to users while offering incredible function and flexibility to space.

Founded in 2003 in the Netherlands, Feek products have been specified by architectural and design firms across Europe. From universities to hotels, museums to corporate offices, Feek Fundamentals can be used in many different environments. Popular and proven in Europe, we're pleased to introduce Feek to the North American marketplace.

Feek — Go Custom!

See how far creativity can go! Feek custom capabilities give architects, designers — or anyone who wants to make a unique statement or solve a unique challenge — freedom to bring their vision to life. Visit Feekna.com and see many custom Feek projects!

Easy To Own.

Feek is easy to maintain in high-use public areas. Hygienic and seamless, food and liquids can't penetrate the coating. Spills can be quickly towel dried. Feek meets the Cal 117 fire standard and meets the industry standard for heavy-duty usage.

Rock Your Feek Q-Bee!

Feek Fundamentals are ideal for collaborative spaces and meeting places. From creative conference environments to open, social settings, you'll like how easily Feek fits in.

User Friendly.

With soft edges and supportive foam construction, Feek offers great comfort and is perfect for users of all ages!

Relatively light and mobile, Feek Fundamentals allow for user-configurability. You'll appreciate how easy it is to change a space around to suit changing needs.

Feek coated foam offers you a highly durable, comfortable, water-based top coat! This new top coat greatly reduces VOC emissions and is a more environmentally friendly solution for you.

Feek North America purchases only CertiPUR-US® certified foam for use in the manufacture of our products.

Feek foam is 100% recyclable. Feek products, 60% air by volume, reflect minimal materials usage.
