

4 Steps to Custom **Feek™ Colors.**

Need custom colors on your Feek products? It's Easy.

1 Select your RAL or Pantone color you want us to match.

4 Approve the color. Once you approve, sign and return the Color Approval Form, specifying the custom match color number on the back of your color sample, we'll get started making your Feek products!

2 Download

the Custom Color/Approval Form from Trenddealer.com or Feekna.com. Complete the form and e-mail to design@feekna.com.

3 Confirm

the color is right. Before we start creating your unique Feek elements, we'll send you a color proof or sample to review.

Our color samples are matched under cool, white fluorescent lighting. All orders processed under the Custom Color program will be manufactured within commercially acceptable tolerances.

A one-time setup fee of \$250 per color will apply.
