TECHNICAL INFORMATION

Content	120 Hours WeatherOmeter®	Abrasion (Wyzenbeek)	Repeat/ Directionality	Width
100% Polyurethane face with a brushed woven polyester backing	Pass	250,000 d. r.	None	54"

Flammability: Cal. Tech Bulletin 117, Sec. E: Passes | UFAC Fabric Classification: Class 1 | BIFMA Class A

Cleaning Code: To prevent buildup of dirt and contaminants which may cause permanent staining, periodic cleaning is highly recommended, based on the environmental conditions the material is subject to. The material can be disinfected with bleach diluted with water to a 9:1 ratio (10% bleach). Liberally apply the diluted disinfectant using a sponge and then rinse with cold water. Federal regulations require that guidelines on the bleach label be followed for antiseptic or antimicrobial purposes.

Colors may vary slightly between dye lots. Please do not use these samples as color masters.
