LUXURY VINYL TILE

Excellence in Value

Once again, Halo Floors takes luxury vinyl tile to a new dimension. The Asento collection of tiles and planks has achieved the coveted balance between form and function. Inspired by the need for moderately priced durable flooring, Asento is a perfect solution for military and multi-family housing, school dormitories and other high traffic areas.

When the need for affordable, dependable flooring arises, choose Asento, the wise choice for low maintenance classic floors.

Design Solutions Inspired by Nature

The carefully selected Asento stone and wood patterns create a timeless collection of planks and tiles inspired by nature. Whether you prefer the rustic look of a 6" plank like Weathered Pine or the classic appeal of a 4" English Oak the rich beauty of natural woods come together in this attractive offering.

The subtle tone-on-tone shades of Mother Nature are captured with Asento tiles. Verona, Tuscany, River Rock and other enduring patterns offer the luxurious appearance of time-honored stones and pavers with the practical features of luxury vinyl tile.

Beautiful, Practical, Affordable

When you asked for classic wood and stone patterns, we listened. Then you asked for ease of maintenance. Again, we listened. And, finally, you asked for affordability. We listened.

Asento by Halo Floors has been created for commercial applications such as multi-family and military housing, university dormitories and anywhere that low maintenance and highly durable moderately priced flooring is desired. It is backed by Halo floors, a well-respected flooring brand with a history of outstanding performance in the most demanding of environments such as healthcare and retail.

We don't just want to create floors that mimic nature. Our value is in creating timeless, beautiful products that are both practical and affordable.

Recommended Product Applications

The following Halo application chart is provided to aid in understanding where Halo Asento is recommended for use. This application chart is a subjective recommendation and is predicated upon the adherence to proper installation techniques; specific location of installation; level of foot traffic; and the type and professional level of maintenance practiced on-site.
