PROSOCO R-GUARD® Air & Water-Resistive Barrier Products

Stops air and water leakage through structural sheathing and CMU back-up walls.

LEED EA Credit Conformance

LEED NC 2.2 EA Credit 1: Optimize Energy Performance requires computer modeling to demonstrate energy savings. The TRANE Trace 700 software for LEED energy modeling has shown a significant ASHRAE 90.1 energy savings that will contribute toward obtaining the points available under the energy category.

LEED EQ Credit Conformance

LEED NC 2.2 EQ Credit 4.2: Low-Emitting Materials references South Coast Air Quality Management District (SCAQMD) Rule 1113 in effect on January 1, 2004. PROSOCO certifies that R-GUARD products comply with Rule 1113.

LEED XX Credit Conformance

LEED NC 2.2 EQ Credit 7.1: Thermal Comfort – Design reference ASHRAE Standard 55 design criteria and calculations commonly used by HVAC engineers. A Mechanical Engineer specializing in LEED projects has recommended to PROSOCO that points for use of R-GUARD be sought under Environmental Quality Credit 7.1 “Thermal Comfort: Design” which requires control of humidity in accordance with ASHRAE Standard 55-2004.

Manufacturing Location

The following PROSOCO R-GUARD® products are manufactured in Rutland County, Vermont: R-GUARD Spray Wrap; R-GUARD MVP; R-GUARD VB; and R-GUARD TMVP.

The following PROSOCO R-GUARD® products are manufactured in Lawrence, Kansas: R-GUARD AirDam®; R-GUARD Cat 5®; R-GUARD EMERGENCY WaterStop; R-GUARD FastFlash®; R-GUARD GypPrime; R-GUARD Joint & Seam Filler; and R-GUARD StuccoPrime.

Recycled Content

PROSOCO R-GUARD® products are manufactured with no post-consumer materials content.

Date of Generation

April 18, 2012

Certification By:

Paul Grahovac
Air & Water-Resistive Barrier Product Manager
