## Siloxane PD LEED Product Information

Siloxane PD is a ready-to-use, water-based water repellent for concrete, GFRC, and most masonry and stucco surfaces.

### ***LEED EQ Credit Conformance***

LEED NC 2.2 EQ Credit 4.2: The New Construction & Major Renovation Reference Guide Low-Emitting Materials section incorporates by reference the South Coast Air Quality Management District (SCAQMD) Rule 1113 in effect on January 1, 2004. Siloxane PD is classified as a Low Solids Coating (limit 120 g/L).

PROSOCO certifies that Siloxane PD has a VOC content of 25 g/L and complies with Rule 1113.

### ***Manufacturing Location***

Lawrence, Kansas

### ***Recycled Content***

Siloxane PD is manufactured with no post-consumer materials content.

***Date of Generation:*** August 18, 2009

***Certification by:*** Dwayne Fuhlhage, CHMM  
Regulatory Affairs Director
