## SL100 Water Repellent Product Information

SL100 Water Repellent is a ready-to-use, penetrating water repellent for concrete, GFRC, and most masonry and stucco surfaces.

### **LEED EQ Credit Conformance**

LEED NC 2.2 EQ Credit 4.2: The New Construction & Major Renovation Reference Guide Low-Emitting Materials section incorporates by reference the South Coast Air Quality Management District (SCAQMD) Rule 1113 in effect on January 1, 2004. SL100 is classified as a Waterproofing Concrete/Masonry Sealer (January 1, 2004 limit: 400 g/L).

PROSOCO certifies that SL100 has a maximum VOC content of 345 g/L and complied with Rule 1113 on January 1, 2004.

### **Manufacturing Location**

Lawrence, Kansas

### **Recycled Content**

SL100 is manufactured with no post-consumer materials content.

**Date of Generation:** August 18, 2009

**Certification by:** Dwayne Fuhlhage, CHMM  
Regulatory Affairs Director
