Leather Pulls

Spinneybeck Leather Pulls, constructed of our premium Belting Leather, offer the ultimate in modernist sophistication. As Mies Van der Rohe said “God is in the details.” The ten distinct styles of Leather Pulls, combined with the 26 Bauhaus-inspired hues, are the quintessential modernist embellishment for any room. The sculptural shapes of the Spinneybeck Leather Pull collection are enhanced by the inherent qualities of the Belting Leather – the thick, firm feel and smooth finish are appealing to all the senses.

Designed by noted architect Emanuela Frattini Magnusson, Spinneybeck Leather Pulls are constructed of 100% vegetable tanned, full grain, aniline dyed leather. Pulls are available in a wide range of sculptural shapes and sizes, including the butterfly, the wave, the oval, the slider, the barbell and the sling. Pulls are 3mm thick, perfectly cut from Belting Leather hides and feature a protective water resistant finish, making them suitable for home, corporate, retail, hospitality or educational environments. Leather Pulls are easily installed and further complimented with elegant stainless steel hardware.

Installation Instructions

Spinneybeck Leather Pulls are in stock in 26 fresh colors. Each pull is individually packaged with the appropriate stainless steel hardware (standard size is 1 1/4"). Pulls are easily installed and should be positioned and mounted to a clean and dry surface.

All Spinneybeck leather is tanned, dyed, and finished in Italy according to the most stringent environmental requirements. Spinneybeck leathers are GREENGUARD™ certified.

Custom shapes and sizes available upon request. Contact Spinneybeck for leather samples and additional information.

Maintenance

Spinneybeck Leather Pulls are maintained with regular dusting and spot cleaning with cool water and a soft cloth or the occasional use of Spinneybeck leather maintenance products. Other leather cleaners, such as saddle soaps or household cleaners that may contain harsh chemicals, alcohol, or ink removers, should never be used on Leather Pulls.
