

# FUSION™ CLOSET ROD

## FLS-3 LED LIGHT STRIP

# PRODUCT SPECIFICATION

Cat. No. Description

FLS-3-\*-C Fusion Closet Rod - Chrome

\* Specify length

FLS-3 available in uninterrupted lengths from 12" to 60" in 2" increments

### GENERAL DESCRIPTION

The FLM-3 linear L.E.D. lighting module is comprised of a **double array** of solid state, light emitting diodes positioned within an aluminum extrusion and extruded polycarbonate cover lens. L.E.D. average rated life estimated to be 50,000 hours (7-8 years) continuous operation. Fusion Closet Rod is available in up to 60" maximum lengths.

### APPLICATIONS

For use as closet and display lighting. The long life of the L.E.D. source makes Fusion ideal for difficult-to-service, dry or damp locations requiring luminaires with long life, no UV and minimal heat generation. Maximum load on FLS-3 Closet Rod is 30 pounds per linear foot.

### MATERIAL

The outer housing is extruded aluminum; the cover lens is extruded polycarbonate.

### MOUNTING

Aluminum end mounting brackets are included. An optional center support bracket (FLA-CSI) is available. FLA-CSI is required for installations over 36" in length.

### ELECTRICAL

Fusion utilizes surface mount L.E.D.s attached to an epoxy matrix circuit board. **Fusion must be operated and specified with either Model PSLED-1 power supply (a Class 2 U.L. listed transformer/driver), or PSLED-100-12-H (a Class 2 hard-wired power supply).**

### LISTING

Conforms to standard for safety for household and commercial furnishings U.L. 962-ETL File #3086310DAL-001.
