

# Vision

Asymmetrical task light which combines flexibility, performance and reliability in an elegant design that adds a decorative element to any office.

## TECHNICAL INFORMATION

Design: John Houghton

Asymmetrical task light that lights up even large work surfaces. Vision has a large light output, and it is easy to position and adjust because of its flexible arm. Supplied with electronic ballast to eliminate flicker. An optional high/low dimmer enhances Vision's power consumption attributes.

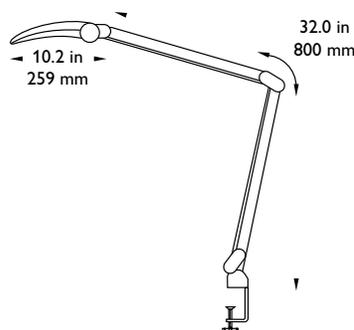

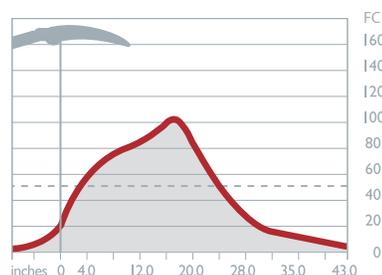

Light source: 18W compact fluorescent tube

Arm length: 800 mm (32 in.)

Supplied with Edge Clamp.

Mounting: Edge Clamp

Accessories: Table/Desk Base.
