GENERAL INFORMATION

TERMS AND CONDITIONS

Net 30 days on approved credit. A late payment charge of 1% per month will be applied on overdue invoices. This charge will be pro-rated to the number of days past 30 days that the invoice is overdue. All applicable sales taxes are extra. Prices include shipping to territorial warehouse. Distribution of this price list does not in itself constitute an offer to sell. Orders can be received only from authorized Krug dealers. Acceptance of any order and terms of sale may be established at the discretion of Krug. Deposits are required on orders received from new accounts as well as on large or special orders. Krug reserves the right to discontinue designs, or to change designs, construction, prices, or materials without notice.

ORDER ACKNOWLEDGEMENTS

Each order will be acknowledged via email or fax. This acknowledgement is the final agreement between Krug and the customer, superseding all previous communications regarding the purchase order. Where there is a discrepancy on a purchase order between a product code and a description, Krug will make every effort to resolve the discrepancy, but will be ruled by the product code ordered. Please check all acknowledgements for accuracy, and advise Krug of any discrepancies with a purchase order.

CANCELLATION

A cancellation can be made only by expressed agreement with Krug. A cancellation fee may be incurred for restocking.

DIMENSIONS

Dimensions are in inches and approximate, and subject to change without notice. Contact Customer Service if dimensions are critical.

STORAGE CHARGES

Krug reserves the right to assess a nominal storage charge if a customer does not accept shipment of an order within a week of the ship date.

PRICING

Krug endeavors to ensure that all prices in this price list reflect accurately our current prices. However, errors do occur and will be rectified through notices to the field. Krug reserves the right to acknowledge pricing that may be different from the price list.

WARRANTY

Krug warrants all Conference products to be free from defects in materials and workmanship for a period of 10 years from the date of purchase. This warranty is applicable to products in use by their original purchaser. This warranty does not apply to components and materials not manufactured by Krug: these are subject to the specific warranties of their manufacturers (if any). Repairs or replacement of any defect covered under this warranty by Krug will be made, at our option and method, at no charge to the original purchaser. Krug's judgement is final and binding with respect to the nature or cause of defects or damage, and the necessity or manner of repair or replacement.

This warranty does not apply to defects or damage resulting from:

- normal wear and tear occurring with the use of the product
- negligence, misuse, excessive use, alteration, improper cleaning or repair
- substitution or use of incorrect or unauthorized components or material
- handling or installation that is incorrect, or that causes damage or defect
- damage incurred by a freight carrier other than Krug
- wearing of finishes and fabrics, and normal variations in materials (including dye lot variations)
- properties of natural materials, including wood and leather
- exposure to environments with uncontrolled temperature and humidity (products must be transported, stored and used in climate-controlled conditions)

EXPORT PACKAGING

Krug is pleased to provide the option for export packaging on all our products, to provide additional protection from damage. Export packaging is provided at an upcharge of 5% of the net selling price per item. Export Packaging is **STRONGLY RECOMMENDED** for:

(A) all shipments outside of the lower 48 states and Canada

(B) all shipments that will be held in storage for an extended period prior to installation. Important: Please note that Krug will not be responsible for damage claims on product shipped or stored in the above conditions where export packaging has not been utilized.

Please contact Customer Service for specifications or any other assistance regarding export packaging.

FREIGHT TERMS AND CONDITIONS

1. All product is shipped FOB the Krug factory. Freight is either pre-paid to the destination (dealer's dock or territorial warehouse, where available) or not pre-paid, depending on established customer specific freight terms.

2. Docks at the selected delivery location must be equipped to handle a 53' trailer. If a dock is inadequate for delivery by Krug, Krug will re-deliver to another local location and any additional costs will be charged to the customer.

3. When a Krug territorial warehouse (where available) is selected as the default delivery location, Krug pays freight cost to the territorial warehouse only, and no further. The Customer is responsible for all charges from this point.

4. For all deliveries, it is understood that Krug or its agent is making a dock delivery only (equipped to handle a 53' trailer), and any further work of truck unloading, delivery beyond the dock, installation, and removal of packaging is not authorized or paid for by Krug.

5. Drop shipments to the installation site, and timed deliveries, are available on larger shipments (full truckloads or slightly less) at no additional charge. Drop shipments or timed deliveries for smaller shipments may not be available, or if available will require a surcharge. Deliveries on an after hours basis, or on weekends, or any other special requirements, may be subject to a surcharge. Location and contact information, and the requested time of delivery, is required at least one week prior to the acknowledged shipment date. If this information is not provided one week in advance, or if the location or time of the drop shipment is changed less than one week in advance, a surcharge may be applied, and/or the drop shipment may not be scheduled.

6. For all deliveries - whether to the Customer location or drop shipment - any circumstances that result in the delay of our carrier (including unsuitable receiving facilities, or facilities not open or available), service charges will be applied at the rate of \$75/hour. Where re-delivery is necessary because of these circumstances, the full cost of re-delivery will be charged.

CUSTOMER SATISFACTION

It is the primary goal of Krug and our staff to ensure the complete satisfaction of our customers with our products and performance. If a problem arises with a Krug product after the expiration of the limited warranty period, Krug will exercise its best efforts to achieve the satisfaction of the customer in a manner that is fair to all concerned.

DAMAGED SHIPMENTS

All Krug product is well engineered, carefully inspected, and expertly loaded onto our trucks at our Distribution Center. If you receive any damaged freight, we ask that you do not refuse the shipment. Krug is not responsible for damage to goods that occurs in transit or storage. It is the purchaser and/or receiver's responsibility to examine the goods upon receipt and to notify Krug of any damages, overages or shortages. Any discrepancies should be noted on the Bill of Lading. The delivering carrier will not accept responsibility for shortages or damages if signed "clear". Notification of concealed damage claims must be made to Krug Distribution within 5 days of delivery, along with digital pictures if available. All product and packaging must be available for inspection. Krug liability ceases after 5 business days and Krug will not be responsible for concealed damages if shipments are left unopened.

Krug is not responsible for the condition of product that is stored or installed in an environment where temperature and humidity are not controlled.

TESTING

All Krug Conference products meet or exceed the testing requirements of ANSI/BIFMA X5.5-2008 or X5.9-2004.

FIELD PRODUCT REPORT AUTHORIZATION

Krug's written authorization, in the form of an FPR number, must be obtained prior to incurring charges of any kind if Krug is expected to pay these charges. This includes authorization for field repairs and replacements, installation and delivery charges. Krug reserves the right to have its representative inspect product related to any request for such authorizations, prior to that authorization being provided. Deductions from invoices paid for any charges to Krug, without prior written authorization in the form of an FPR, will not be accepted. Digital photographs may be required to complete the FPR process.

RETURNS

No merchandise may be returned without Krug's prior written consent. In the event of an authorized return, a Field Product Report (FPR) number will be issued, and a restocking charge will apply. Return transportation charges must be prepaid. Unauthorized returns will not be accepted and will be returned freight collect. All merchandise being returned must be properly packaged in its original or comparable replacement packaging to ensure protection of the product during handling and transportation. Returns on orders duplicated by the customer must be received in their original packaging to be accepted.

Product being returned where Krug has authorized its liability for replacement or repair will be thoroughly inspected on its return, and the results compared to the reason for the return stated on the FPR. Any discrepancies, such as additional damage, signs of usage, missing parts, etc., will result in an adjustment to the amount of credit issued.

CARE AND MAINTENANCE

Wood Finishes

Although Krug's extensive finishing process ensures a durable finish on all our products, there are several steps that can be taken to protect and prolong the life and beauty of the finish. Protect the top by placing felt pads on the bottom of any accessories and mechanical equipment. Rubber and oil will permanently mark surfaces. Use a desk pad to prevent possible damage and imprinting caused by writing instruments and sharp objects. Dust only with a clean, dry cloth, going with the grain. Clean any marks with a damp cloth, using a small quantity of mild soap or detergent.

Do not use any wax-based polish, spray or silicone. Eventually, a film will build up and discolor the top. Do not place your furniture in a position of permanent exposure to direct sunlight.

Plastic Laminates

Clean plastic laminates with mild soap and warm water. Do not use steel wool, hot water, or any abrasive cleaning product.

CUSTOM CAPABILITIES

Over 15% of our orders involve some type of custom work, and we invite our customers to make use of our extensive capabilities. These include:

- 1) Dimensional customization of standard size products
- 2) Custom wood finishes
- 3) For larger orders, completely custom-designed products, as well as non-standard wood species can be specified.

Custom orders may require additional production lead times. Contact Customer Service for more information.

KRUG EXPRESS

PROGRAM DETAILS

KrugExpress orders are ready to ship by the date acknowledged. Delivery and shipping schedules may result in actual shipping of orders at a later date. Statutory holidays and scheduled factory vacations may add to acknowledged lead times of *KrugExpress* orders. Unless otherwise specified on the order, the customer's standard method of shipping Krug products will be utilized.

Available factory capacity for *KrugExpress* is filled by orders received on a "first come, first serve" basis. If the normal *KrugExpress* lead time is not available for your order because available capacity has been filled, you will be immediately advised of the earliest available ready-to-ship date. Please consult your Customer Service representative in advance if you wish to confirm the specific lead time availability for a *KrugExpress* order.

Orders must be received by midnight of a given day for that day to be considered the official day the order is received. Order lead times are acknowledged from the date the order is received, but not including the date the order is received.

KrugExpress orders must be "clean" when received in order to be considered officially received on a given day, and lead times will be acknowledged from the date orders are determined to be "clean".

Changes to *KrugExpress* orders are not allowed under any circumstances. Orders for product on *KrugExpress* must clearly state: "*KrugExpress*".

KRUG PANEL FABRIC PROGRAM

Tackboards can be upholstered in COM material supplied by the customer, and in a selection of stocked tackboard fabrics supplied by Momentum. The Momentum Panel fabrics are available on Krug Express. They are 100% polyester. For additional information and color selections, please refer to our Panel Fabrics card and Krug's website.

www.krug.ca PRODUCTS / FABRICS / PANEL

The Momentum panel fabrics pass ASTM-E84-87 Fire Codes.

If memo samples are required please call Momentum at 1-800-366-6839.

level® CERTIFICATION, AIR EMISSIONS AND FSC® CERTIFICATION

level® CERTIFICATION

BIFMA's e3 Furniture Sustainability Standard is a voluntary, multi-attribute standard that measures the degree of sustainability of furniture. This standard evaluates product and company environmental attributes and compliance systems in a wide range of elements which include Materials, Energy & Atmosphere, Human & Ecosystem Health and Social Responsibility. Nuvo products have earned level®, BIFMA's sustainability certification program for furniture, certification through third-party verification against the e3 standard.

AIR EMISSIONS

All Nuvo products can be supplied with air emissions-certified materials. Contact customer service for information and upcharges.

FSC®

In 2005, Krug received Forest Stewardship Council® (FSC®) Chain-of-Custody certification for our manufacturing facilities. The FSC® Chain-of-Custody tracks certified wood from seedling to final sale. It signifies that the growth, harvesting and production of goods are entirely achieved through responsible forestry, which guarantees a healthy supply of forest resources for generations to come. Nuvo and other Krug products can be specified with one of two types of FSC® Certification:

- (a) FSC®-certified (which includes FSC®-certified lumber, veneer and substrate material)
- (b) FSC®-mix certified (which includes substrate material only, and is a lower cost option certification)

Contact customer service for further information, pricing and lead times.

In addition, architects, designers, and building professionals can specify FSC®-certified products in order to achieve a point from the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating System.

NUVO | WOOD SPECIES, FINISH AND LAMINATES

FINISH ON WOOD TOPS

Standard wood finishes available:

SPECIES	FINISH
OAK	Light Oak SilverGrey on Oak Espresso Oak
CHERRY	American Cherry Appalachian Cherry Light Cherry Sable Cherry
MAPLE	Clear Maple Wheat Maple
WALNUT	Natural Walnut SilverGrey on Walnut Regular Walnut Dark Walnut
ANIGRE	Clear Anigre Medium Anigre

Non-Standard Wood Species will also be available upon request, please contact Customer Service to obtain a quote.

VENEERS

Nuvo veneers are quarter cut, except for White Oak which is rift cut - both quarter cut and rift cut veneers provide a straight grain appearance.

NATURAL CHARACTERISTICS OF WOOD

Wood is a natural product with inherent color variations that will never be fully mitigated by the finishing process. Please anticipate variation in colors within a single unit, from piece to piece, and from Krug wood finish samples. If a very close match is required, a sample must be provided with the order and an upcharge will apply. Exact color matches are not possible.

CUSTOM WOOD FINISHES

Add 10% list to your order for special finishes, minimum upcharge is \$500 list per finish per order. (For example, on all orders up to \$5000 list, an upcharge of \$500 will apply, on orders \$5000 and up add 10% list to your order.) For orders with special finishes, a sample that is a minimum 3" by 3" must be received with the order. Special finishes may add additional lead time to production schedules. Since wood is a natural product, some variations in grain, color and stain acceptance will occur. In our finishing processes, we try to minimize variations, but some variation between samples and finished goods should be anticipated.

ENDURAGUARD FINISH

Nuvo Conference Tables features the Krug Enduraguard finish, a proprietary catalyzed varnish formulation, that has repeatedly shown through independent laboratory testing to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors and is uniquely suited to the demands of high traffic environments.

IN-STOCK LAMINATES

In-Stock Laminate

Krug's in-stock laminates are available on Nuvo Table tops and bases in 4 solid laminate selections, Polymer Edge will be selected to match the worksurface.

Solid Laminate

Name & Number	Supplier
Almond T445	Pionite
Black T203	Arborite
Shadows T201	Arborite
White D354-60	Wilsonart

Non-Stocked Laminates

Upcharges will be applicable for non-stocked laminates, depending on their cost. Non-stocked laminates may require a minimum order quantity, please contact customer service. Polymer edge will be selected when a match is available, or alternatively a self edge applied. For specific lead time and application questions, please contact Krug Customer Service for your requirement.

The following plastic laminates are acceptable for application on Krug products as they feature a matte finish:

Nevamar	All plastic laminates with "T" in the suffix (i.e., MR2002T)
Wilsonart	All plastic laminates with "60" in the suffix (i.e., 4779-60)
Arborite	All plastic laminates with "CA" in the suffix (i.e., 1531-CA)
Pionite	All plastic laminates with "Suede" in the name (i.e., WW561 Suede)
Formica	All plastic laminates with "58" in the suffix (i.e., 756-58)

Arborite Laminates 1.800.996.0366 Wilsonart Laminates 1.800.433.3222 Pionite Laminates 1.800.746.6483
Formica Laminates 1.800.367.6422 Nevamar Laminates 1.800.638.4380

Additional plastic laminate codes may be acceptable for use on Krug furniture, however, they could be subject to an additional upcharge or extended lead time due to material complexity. High sheen plastic laminates are not acceptable for application on Krug furniture due to their inherent nature of scratching and marring during the production process.

Nuvo Conference products offers 8 table top shapes in 6 veneer species and 4 solid laminate selections. Veneered tops are 1 1/2" thick veneered fiberboard MDF core and backer material, with a 1/8" wood edge. Laminate tops are 1 1/2" thick with fiberboard MDF core and backer material, with a PVC edge. Conference tops are available with these profiles.

BASES

All bases are shipped separately and require assembly to support beams and/or tops.

All wood bases, with the exception of panel bases, offer large interior cavities for cable routing and allow for total concealment of wiring when floor monuments are located underneath. Bases are equipped with removable panels which make access to the interior quick and easy.

Refer to the base requirements chart on pages 54 - 61 to select the appropriate bases and sizes for conference tables.

Formed Metal Bases are available in Gloss Metallic finish.

Base plates are available in a choice of Wood, Palette or Gloss Aluminum finish.

CONSOLES

Consoles are available in 14", 27", 36", 42" and 50" lengths, and can be located within a top section or across a seam. Consoles located within a table section will be factory installed. Consoles located across the seam are ordered by a separate model number and will be shipped as a separate item for field installation.

The console access cover allows wiring to pass through to the console module from all sides. The console access cover can be operated from either side of the table for easy access to the console module and opens to a 95° angle from the top of the table. Console access covers are available in Gloss Aluminum with Polished Chrome end bezels.

CONSOLE POWER/DATA/MEDIA MODULES

Console power/data/media modules are available in 18 preconfigured options or can be customized by adding plate-mounted or snap-in data ports to any of the 4 standard power modules. The number of console modules per console is dependent on the console size; 1 unit in 14" lengths, 2 units in 27" and 36" lengths, and 3 units in 42" and 50" lengths. Console power modules are available in three cord lengths (6', 16' and 25'). A utility outlet is available in some console module models for connecting power within a table. Up to 10 duplex receptacles can be connected to one electrical circuit. Faceplates, duplex receptacles and data components are white.

SUPPORT BEAMS

Aluminum support beams provide strength and support to the conference tops. Support beams are field installed onto the bases allowing for top-on-last installation for all base styles except the formed metal base. Powder coated steel trough pans located between the support beams accommodate under-surface cable management and runs cables to interior base cavities to access floor monuments.

SEATING CAPACITY

To establish seating capacity, an outside chair dimension of 24" has been used for this price guide, plus an allowance of 5" between chairs, for a total of 29". This is an approximation only. When using another chair, particularly seating with a 5 prong caster base, be sure to adjust the approximate seating capacity accordingly. Since not all manufacturers use the same formula, when seating capacity is in question, please contact Krug Customer Service to review the specific seating that is being used with Nuvo Conference Tables.

VENEER

Veneers available are Rift White Oak, Quarter Cut Maple, Cherry, Walnut, Anigre and Sycamore.

FINISH

A five step catalyzed varnish finish that when dry has a sheen value of 32°, is applied to all tables, bases and cases. A lower sheen topcoat, 20°, can also be specified, at standard pricing. All purchase orders must clearly note "lower sheen finish" in order to receive this optional selection.

All finished surfaces are well sanded before applying finishing materials. The procedure begins by applying a base color via an NGR stain. A wash coat follows to further enhance the color. Next is the glazing process, which provides the 3rd color step and fills the pores of the wood. A sealer coat is then applied, twice to the horizontal worksurfaces to enhance the finish. The product is then scuff sanded to prepare for the top coat. The top coat is a catalyzed varnish that when dry has a sheen value of 32°. Krug's catalyzed varnish has been tested to be one of the industry's most durable and long lasting. Custom finishes are available at an upcharge of 10% list per unit.

GLIDES

Wood bases feature adjustable glides 1 1/2" long and allow for a range of adjustment of 3/4". Metal bases have 1/2" glides.

NUVO | GUIDELINES AND PRICING METHODS

LAMINATE WORKSURFACES

Laminate is available on all Nuvo Conference Tops; refer to Krug's standard laminate program on page 6. Krug will order and procure laminates. Purchase orders with a plastic laminate option must include:

Manufacturer's Name | Laminate Name | Laminate Number

Krug reserves the right to decline a laminate that may not be suitable for the application. Krug assumes no responsibility for durability or consistent color. The number of sections on 48" wide Laminate tops, on some table sizes, are different than the same size wood top. This is due to the size of laminates available. See table sections column on pages 12-16.

CUSTOM SIZING

Custom sizing and additional customization is available on Nuvo Conference Tables. Tops may be ordered with a reduced number of sections at an upcharge. For more information or to obtain quotations, please contact Customer Service.

CONNEXUS™

Nuvo conference tables may be specified with Connexus™ modules in the standard console locations within a top section, please use standard Connexus™ pricing when specifying table power/data requirements. These prices are added to the price of the top and bases. Connexus™ modules are available in an Aluminum or Glass faceplate, in 2 sizes, Standard and Large.

GLASS SURFACES

Nuvo conference tops are available in white back-painted 10mm tempered glass. Please contact customer service for additional color selections available at no upcharge. Color options also on website.

SOLID SURFACES

Solid Surface tops are available on conference tops. The solid surface standard top option is white, with additional colors available upon request. Solid surfaces are composed of minerals, acrylic resins that are non-porous and stain, scratch and dent resistant. Color is throughout the material, so surface scratches are not as visible. Please contact customer service with specifications for a quote.

MICROPHONE CUT OUTS

Microphone cut outs are available for \$263 list per table for up to 7 microphone cut outs.

TESTING

All products have been tested in accordance with ANSI/BIFMA X5.5-2008 Desk/Table Test Standard or X5.9 - 2012 Storage Units.

- 1) Specify table top shape, size, model number and top material. For wood and laminate tops see pages 12 - 16, for Back-Painted Glass see pages 30 - 33.
- 2) Select base shape, size and model number using Base Requirements chart on pages 54 - 61
- 3) Specify console location (end sections, middle sections or across the seam) and size option. For wood top see pages 18 - 27, for Back-Painted Glass see pages 35 - 41.
- 4) Cross seam console model number, where applicable. For wood top see page 28, for Back-Painted Glass see page 42.
Please note: Across seam consoles are field installed and have a separate model number.
- 5) Specify Console Power module options. Preconfigured Console Modules, see pages 43 - 46 Custom Console Modules, see page 47
- 6) Add plate-mounted data or snap-in data options to custom module, see port options on pages 48 - 51

Purchase orders must include:

- Wood Species and Finish
- Base Plates - Gloss Aluminum, Palette or Wood

NUVO | CABLE MANAGEMENT

CONSOLES & CABLE MANAGEMENT

All Nuvo Conference tables feature cable management capabilities for routing cables between the floor monuments and the consoles that provide voice/power/data/media connections.

Support beams connect the bases and provide additional support for the conference top. Support beams enable top-on-last assembly of the tables - this shortens the installation time, requires fewer installers, and helps to prevent damage to table tops. Data cables can be connected to the power/data modules and dropped into the base and connected to the source prior to the installation of the top. After the top is installed, the power modules are bolted into the threaded inserts in the top. Cable troughs located between the support beams offer generous space for cable management and are supplied with grommets to allow for cables to pass through to the base interior cavities.

Bases feature sizable cutouts at the bottom, providing access to floor monuments. With the exception of Panel and Formed Metal Bases, bases allow for total concealment of wiring when floor monuments are located underneath. Access doors are provided on the inward-facing vertical side of the bases, providing quick access to cabling in the interior. Formed Metal bases are available with an external cable management system and cables are run to the floor using a Metal Cable Manager or Spine Cable Manager.

The Console modules are housed within the support beam and provide power and communications connectivity. Console modules utilize UL standard receptacle outlets. Console modules are available in 18 pre-configured configurations, or can be custom-configured in unique configurations - or alternatively can be specified with blank ports, so customers can purchase and insert their own outlets. Console modules also can be designed and built specifically to meet your connectivity needs by using the Snap-in or Plate mounted port options. Console modules are available with three electrical cord lengths (6', 16', and 25'). Console modules with a utility outlet will allow units to be linked together to a maximum of 10 duplex receptacles per circuit. The number of console modules is dependent on the console size; 1 unit in 14" lengths, 2 units in 27" and 36" lengths, and 3 units in 42" and 50" lengths.

Consoles are available in 14", 27", 36", 42" and 50" lengths, and can be located within a top section, or can span top section seams. The console access cover allows wiring to pass through to the console module from all sides. Console access covers are operated from either side of the table for easy access to the console module and open to a 95° angle from the top of the table. Console access covers are available in a Gloss Aluminum finish with polished chrome end bezel. There are some limitations in glass, please see page 34.

TABLE SECTION SIZE

Section sizes can be calculated by dividing the table length by the # of sections

NUVO | CONSOLE PLANNING FOR WOOD TOPS

CONSOLE ORDERING CODE (WITHIN THE TABLE SECTION - 4 CHARACTER CODE)

1st character specifies top sections from left to right on table: A, B, C, D, E, F

2nd character specifies console location within top section: M, I, L, R

M- Middle of top on one piece table

M- Middle of top section on multi section table

I - Inset 3" from seam on end sections

L- Left side of a one piece top

R- Right side of a one piece top

3rd and 4th characters specify console size: 14, 27, 36, 42, 50

Examples:

Table Size: 96" x 36"

Table Size: 168" x 48"

Table Size: 96 "x 36"

Table Size: 144" x 48"

Y= Dimension from end of table to end of console
18" or greater, cannot be less than 18"

CONSOLE ORDERING CODE (ACROSS SEAM - 5 CHARACTER CODE)

1st and 2nd character specifies section from left to right on table: AB, BC, CD, DE, EF

3rd character specifies console location across the seam: X

4th and 5th characters specify console size: 14, 27, 36, 42, 50

Examples:

Table Size: 288" x 60"

Y= Dimension from end of table to end of console

NUVO | CONSOLES FOR WOOD TOPS

CONSOLE - WITHIN A TOP SECTION

Consoles located within a top section are factory installed. The model numbers are determined by the location within each section and the size. For example, when ordering a rectangular top 96" x 54" a console M14 can be specified in both the A and/or B section of the table. When ordering, simply add AM14 and BM14 to your purchase order and add the list price for each console to your order.

Description	Model	Console size	Price	Weights	Cubes
	M14, I14, L14,R14	14	184	3	.25
	M27, I27	27	205	4	.25
	M36, I36	36	231	5	.25
	M42, I42	42	252	5.5	0.5
	M50, I50	50	278	6	0.5

Consoles are available in 5 standard lengths.

CONSOLE - ACROSS SEAMS

Consoles located across the seam are field installed and have separate model numbers that need to be included on your purchase order along with the desired console position. For example, when ordering a rectangular top 120" x 54" with a console across the seam, purchase orders need to specify the model number for the console (51CONSOLEX27) and the location ABX27.

Description	Model	Console size	Price	Weights	Cubes
	51CONSOLE-X14	14	184	3	0.25
	51CONSOLE-X27	27	205	4	0.25
	51CONSOLE-X36	36	231	5	0.25
	51CONSOLE-X42	42	252	5.5	0.5
	51CONSOLE-X50	50	278	6	0.5

Consoles are available in 5 standard lengths.

Note: 50" Consoles have 3 lid supports, while all other sized have 2.

NUVO | CONSOLE POWER/DATA MODULES

Console modules provide an extensive range of power, data and audio-visual solutions for today's conferencing environments. Console modules are available in 18 preconfigured data and power options, or alternatively console modules with just electrical ports can be selected allowing units to be designed and built specifically to meet your connectivity needs by using the Snap-in or Plate mounted port options.

Consoles are available with 3 power options in both preconfigured & custom console modules.

Power Module A (PMA) consists of 2 duplex receptacles with 3 cord lengths 6', 16' & 25'.

Power Module B (PMB) consists of 1 duplex receptacle with 3 cord lengths 6', 16' & 25'.

Power Module C (PMC) consists of 2 duplex receptacles with a utility outlet & circuit breaker with 2 cord lengths 6' & 16'. The utility outlet in Module C allows another power module within the table to be plugged into it resulting in 1 cord going to the power source for both modules, as well as circuit protection for both modules. This also means shorter cord lengths can be specified resulting in a more cost effective power solution. Krug recommends the use of Module C's on the Console at the end of the table or location in the table nearest the power source.

Examples:

120" table with 2 consoles & the power source at right end.

Use a PMC06 in the 1st console from the right & the cord goes to power source.

Use a PMA06 in the 2nd console from the right & the cord goes to the utility outlet of the first console module.

168" table with 4 consoles & power source at right hand end.

Use a PMC06 in the 1st console from the right & the cord goes to power source.

Use a PMC06 in the 2nd console from the right & the cord goes to power source.

Use a PMA06 in the 3rd console from the right & the cord goes to utility the outlet in the 1st console module.

Use a PMA06 in the 4th console from the right & the cord goes to utility the outlet in the 2nd console module.

See page 43 - 47 for pricing.

TABLE SECTION SIZE

Section sizes can be calculated by dividing the table length by the # of sections

NUVO | CONSOLE PLANNING FOR BACK-PAINTED GLASS TOPS

CONSOLE ORDERING CODE (WITHIN THE TABLE SECTION - 4 CHARACTER CODE)

1st character specifies top sections from left to right on table: A, B, C, D

2nd character specifies console location within top section: M, L, R

M- Middle of top on one piece table

M- Middle of top section on multi section table

L- Left side of a one piece top

R- Right side of a one piece top

3rd and 4th characters specify console size: 14, 27, 36,

Examples:

Table Size: 96" x 36"

Table Size: 168" x 48"

Table Size: 96 "x 36"

Table Size: 144" x 48"

Y= Dimension from end of table to end of console

CONSOLE ORDERING CODE (ACROSS SEAM - 5 CHARACTER CODE)

1st and 2nd character specifies section from left to right on table: AB, BC, CD

3rd character specifies console location across the seam: X

4th and 5th characters specify console size: 14, 27, 36,

Example:

Table Size 168" - 192" X 48"

Y= Dimension from end of table to end of console

NUVO | CONSOLES FOR BACK-PAINTED GLASS TOPS

CONSOLE - WITHIN A TOP SECTION

Consoles located within a top section are factory installed. The model numbers are determined by the location within each section and the size. For example, when ordering a rectangular top 96" x 54" a console M14 can be specified in both the A and/or B section of the table. When ordering, simply add AM14 and BM14 to your purchase order and add the list price for each console to your order.

Description	Model	Console Size	Price	Weights	Cubes
	M14, L14,R14	14	184	3	.25
	M27	27	205	4	.25

Consoles are available in 2 standard lengths.

CONSOLE - ACROSS SEAMS

Consoles located across the seam are field installed and have separate model numbers that need to be included on your purchase order along with the desired console position. For example, when ordering a rectangular top 120" x 54" with a console across the seam, purchase orders need to specify the model number for the console (51CONSOLE-X14) and the location ABX14.

Description	Model	Console Size	Price	Weights	Cubes
	51CONSOLE-X14	14	184	3	0.25
	51CONSOLE-X27	27	205	4	0.25
	51CONSOLE-X36	36	231	5	0.25

NUVO | CONSOLE POWER/DATA MODULES

Console modules provide an extensive range of power, data and audio-visual solutions for today's conferencing environments. Console modules are available in 18 preconfigured data and power options, or alternatively console modules with just electrical ports can be selected allowing units to be designed and built specifically to meet your connectivity needs by using the Snap-in or Plate mounted port options.

Consoles are available with 3 power options in both preconfigured & custom console modules.

Power Module A (PMA) consists of 2 duplex receptacles with 3 cord lengths 6', 16' & 25'.

Power Module B (PMB) consists of 1 duplex receptacle with 3 cord lengths 6', 16' & 25'.

Power Module C (PMC) consists of 2 duplex receptacles with a utility outlet & circuit breaker with 2 cord lengths 6' & 16'. The utility outlet in Module C allows another power module within the table to be plugged into it resulting in 1 cord going to the power source for both modules, as well as circuit protection for both modules. This also means shorter cord lengths can be specified resulting in a more cost effective power solution. Krug recommends the use of Module C's on the Console at the end of the table or location in the table nearest the power source.

Examples:

120" table with 2 consoles & the power source at right end.

Use a PMC06 in the 1st console from the right & the cord goes to power source.

Use a PMA06 in the 2nd console from the right & the cord goes to the utility outlet of the first console module.

168" table with 4 consoles & power source at right hand end.

Use a PMC06 in the 1st console from the right & the cord goes to power source.

Use a PMC06 in the 2nd console from the right & the cord goes to power source.

Use a PMA06 in the 3rd console from the right & the cord goes to utility the outlet in the 1st console module.

Use a PMA06 in the 4th console from the right & the cord goes to utility the outlet in the 2nd console module.

	P08	MICROPHONE XLR STANDARD - Use for standard size XLR microphone connection. Connector is a female input with a 3 pin screw terminal output (back side of Console interface).	\$158
	P09	MICROPHONE STANDARD XLR -2 - Use for two standard size XLR microphone connections. Each connector is a female input with a 3 pin screw terminal output (back side of Console interface).	\$231
	P10	3 HOLE CABLE PASS THROUGH - Use for running loose cables from the under side of the table up into the Console interface cavity. Often used with running wires for PolyCom™ devices.	\$37
	P11	VGA-to-BNCx2 - Use for two VGA (DB15) connections that are input female pass through and are terminated on the output (back side of Console interface) with 5 BNC female pigtail connections, for each VGA connector.	\$378
	P12	INPUT VGA & 3.5 Stereo (POWERED) - VGA + Audio Line Driver designed for VGA (DB15) connections and for 3.5mm stereo connections. This unit provides a method of transmitting signals to a remote display and audio receiver or amplifier. VGA connector is a female input and comes with cabling for either VGA output, or 5 BNC output and the 3.5 Mini is a female input with screw terminal output (back side of Console interface). A 9 volt DC 500mA power supply is required to power this unit.	\$924
	P13	BLANK DECORA ADAPTER - Use for covering a full Decora sides blank opening.	\$26
	DVIR	DVI-REPEATER - Is a cable equalizer that automatically compensates for long DVI cable runs. This unit extends the usable cable distance up to 130 ft depending on the quality of the cable and the resolution of the video signal. Additionally, it is capable of extending dual link signals allowing for much greater resolutions and refresh rates. This unit comes with a power supply and is generally mounted underneath a table.	\$730

SURFACES

Buffet and Credenza tops are 1 1/2" thick 45lbs per cubic feet particle board core, 3 ply. Gables are 3/4" thick 45lbs per cubic feet particle board core, 3 ply.

VENEER

Veneers available are Rift White Oak, Quarter Cut Maple, Quarter Cut Cherry, Quarter Cut Walnut, Anigre and Sycamore.

FINISH

A five step catalyzed varnish finish that when dry has a sheen value of 32°, is applied to all tables, bases and cases. A lower sheen topcoat, 20°, can also be specified, at standard pricing. All purchase orders must clearly note "lower sheen finish" in order to receive this optional selection.

All finished surfaces are well sanded before applying finishing materials. The procedure begins by applying a base color via an NGR stain. A wash coat follows to further enhance the color. Next is the glazing process, which provides the 3rd color step and fills the pores of the wood. A sealer coat is then applied, twice to the horizontal worksurfaces to enhance the finish. The product is then scuff sanded to prepare for the top coat. The top coat is a catalyzed varnish that when dry has a sheen value of 32°. Krug's catalyzed varnish has been tested to be one of the industry's most durable and long lasting. Custom finishes are available

GLIDES

Credenzas and Buffets feature adjustable glides 1 1/2" long and allow for a range of adjustment of 3/4".

GLASS SURFACE

Nuvo Casegood tops are available in white back-painted 10mm tempered glass. Please contact customer service, for additional color selections available at no upcharge.

TESTING

All products have been tested in accordance with ANSI/BIFMA 4X5.9-2012.

DRAWERS

Desk box drawers have full progressive full extension slides and are load rated at 100lbs. per drawer. All drawer interiors are veneer on plywood, and include a push to open drawer mechanism.

LATCHES

Doors open with a touch latch. There are no pulls on Nuvo Media & Storage.

HINGES

Nuvo Media & Storage utilize European style satin chrome hinges with 3-way adjustment & quick release feature. Hinge opening is 95 degrees.

LOCKS

Locks are optional on hinged doors at an upcharge of \$100 list per set of 2 doors. If the unit has an uneven amount of doors, the single lock required is also \$100.

CASTERS

Locking casters are standard on the Hospitality Cart.

SLIDING DOORS
