Enjoy the Benefits of Both Mesh and Room Darkening Fabrics in One Window Shade

Dual brackets allow one to install two shades into an opening without a headbox or fascia. Contact Draper for all options.

Dual Roller FlexShade Brackets

• Can be ceiling or wall mount.

• Use with manual or motorized FlexShades.

• Recessed installation with a wall clip and closure gives a faux pocket look.

Dual Roller FlexShade with Fascia

Enjoy the benefits of two fabrics in one window shade without the need for a recessed headbox. Conceal the endcaps and rollers with a stylish extruded aluminum fascia.

• Matching endcaps available for mounting outside window opening.

• Extruded aluminum fascia is available in five colors: black, white, ivory, bronze, or clear anodized, plus custom powder coat.

• Accommodates Motorized FlexShades, Manual FlexShades, Battery operated FlexShades, and 24V FlexShades.
Dimensions, drawings and specifications available at:

Access Dual Roller FlexShade

Two shades are vertically stacked in Draper's Access headbox, allowing you to install the headbox during the construction phase, and install your shade rollers later.

• Bead chain clutch or motor-in-roller operation.

• Combine a glare control fabric with room darkening or LightBloc FlexShade (side and sill channel) for complete blackout.

• Optional ¼″ wide ceiling tile flange.

U.S. Patent Nos. 6,532,109, 6,421,175 and 6,816,308. Other patents pending.
