## MAJESTIC GEMSTONE

*White Quartz Shown*

Semiprecious stones have inspired us since antiquity. Ancient cultures ascribed special properties to exotic stones like white quartz, amethyst, natural agate and blue agate. Many people still believe these rare materials have a mystical quality. Whatever you believe, there is no denying their beauty. Artistic Tile's MAJESTIC GEMSTONE slabs present the finest of these materials in a versatile format that allows them to be prominently displayed in your home or commercial space. These agglomerate slabs are bright and beautiful, polished to a high shine, and can be backlit for a sparkling, crystalline glow. Each is unique, rich and beautiful, and who knows? It could be more than just incredible beauty that makes MAJESTIC GEMSTONE so special.

### NOTES

Slab edges are not suitable for profiling. A mitered apron is recommended, as shown to right.

Interior use only, resins may yellow if exposed to direct sunlight.

Fabrication Notes: Majestic Gemstone is fabricated using granite tools and methods.

Granite cutting disk at a speed of 1-ft/minute.

Polish edges beginning with diamond tools and progressing to polishing paper. Begin with 60-grit and progress to 6000-grit for maximum shine.

Tenax super marble glue is to be used for seams and adhering mitered edges and laminates.

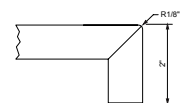

Tec 7 Super 7 silicone is recommended for adhering sinks.

Do not store singly on A-frames. Gemstone slabs must be backed by other slab materials for storage.
