

Means of Expression

You can work wonders with glass. You can draw things and write messages to yourself and to one another on it's smooth surface. Adding a coloured backing adds depth and it becomes an attractive decoration, all by itself. If you laminate it to a steel plate, you can attach things and images to the glass with magnets ...

CHAT BOARD® Classic

CHAT BOARD® Classic is the original and precursor to all our products. A simple magnetic glass board, made from a piece of 4 mm glass and a thin steel plate. For walls in homes, offices, conference rooms and other places where people have information to remember, share, express or illustrate. We make our boards in a wide range of different colours and formats. And we have the capacity to meet special requirements in record time.

CHAT BOARD® Projection

Imagine a magnetic glass board with a professional grade projection screen concealed at the top. If you need to supplement what you are writing or drawing on the board, just pull the screen down in front of the board and show your slides. We supply CHAT BOARD® Projection in three sizes and in all CHAT BOARD® colours.

CHAT BOARD® Mobile

Not every wall is movable. But you can roll the CHAT BOARD® Mobile to exactly the right position where everyone can see it. The board is mounted to a stable steel base in white powder coat with four wheels and parking brake.

We can supply CHAT BOARD® Mobile in 3 different sizes and 25 different colours.

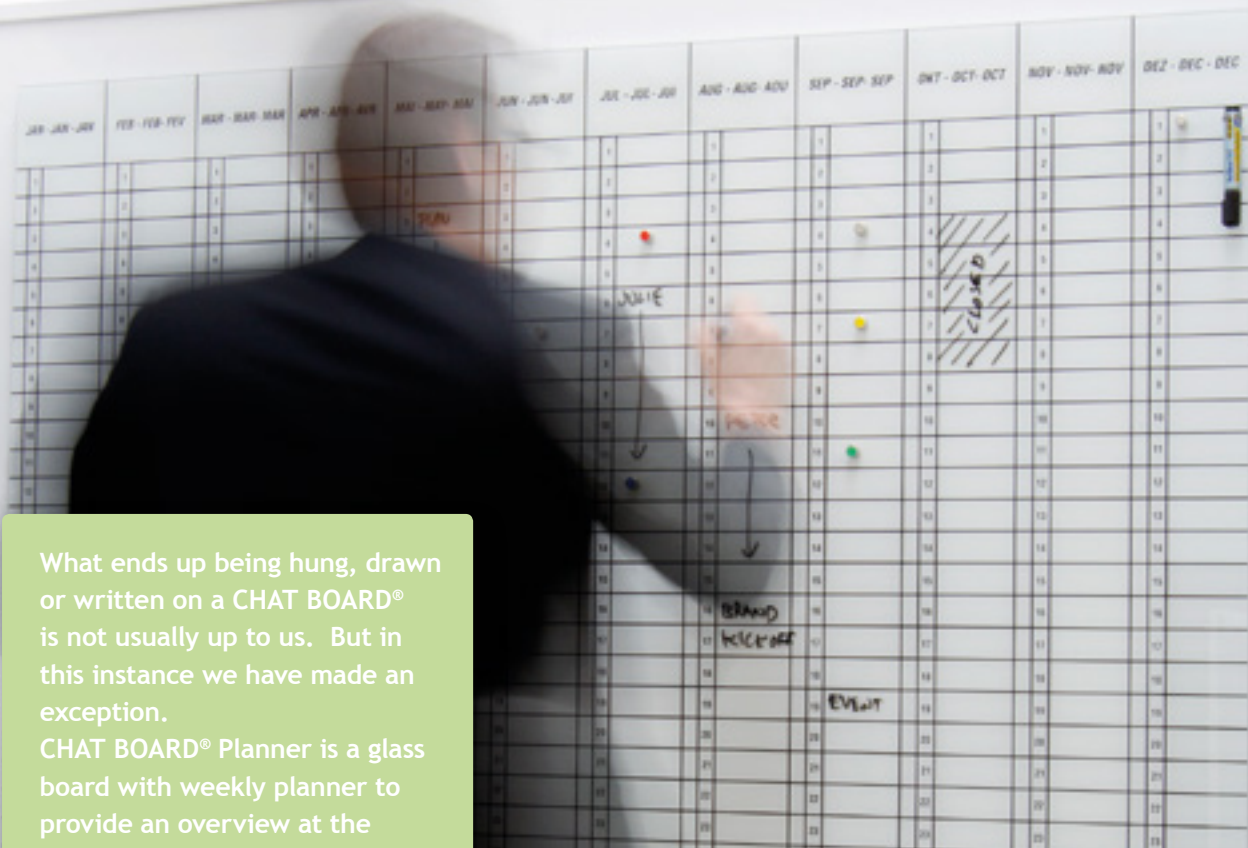

CHAT BOARD® Magazine Rack

A wall-mounted rack for magazines, newspapers, mail or documents is nothing new. But here you have a decorative version with a glass front that you can write or draw on, with magnetic sides. The modules can attach below each other and are available in all CHAT BOARD® colours.

CHAT BOARD® Planner

What ends up being hung, drawn or written on a CHAT BOARD® is not usually up to us. But in this instance we have made an exception.

CHAT BOARD® Planner is a glass board with weekly planner to provide an overview at the office, or at home for the busy family.

It comes in a 50x80 cm standard size and in nearly all CHAT BOARD® colours.

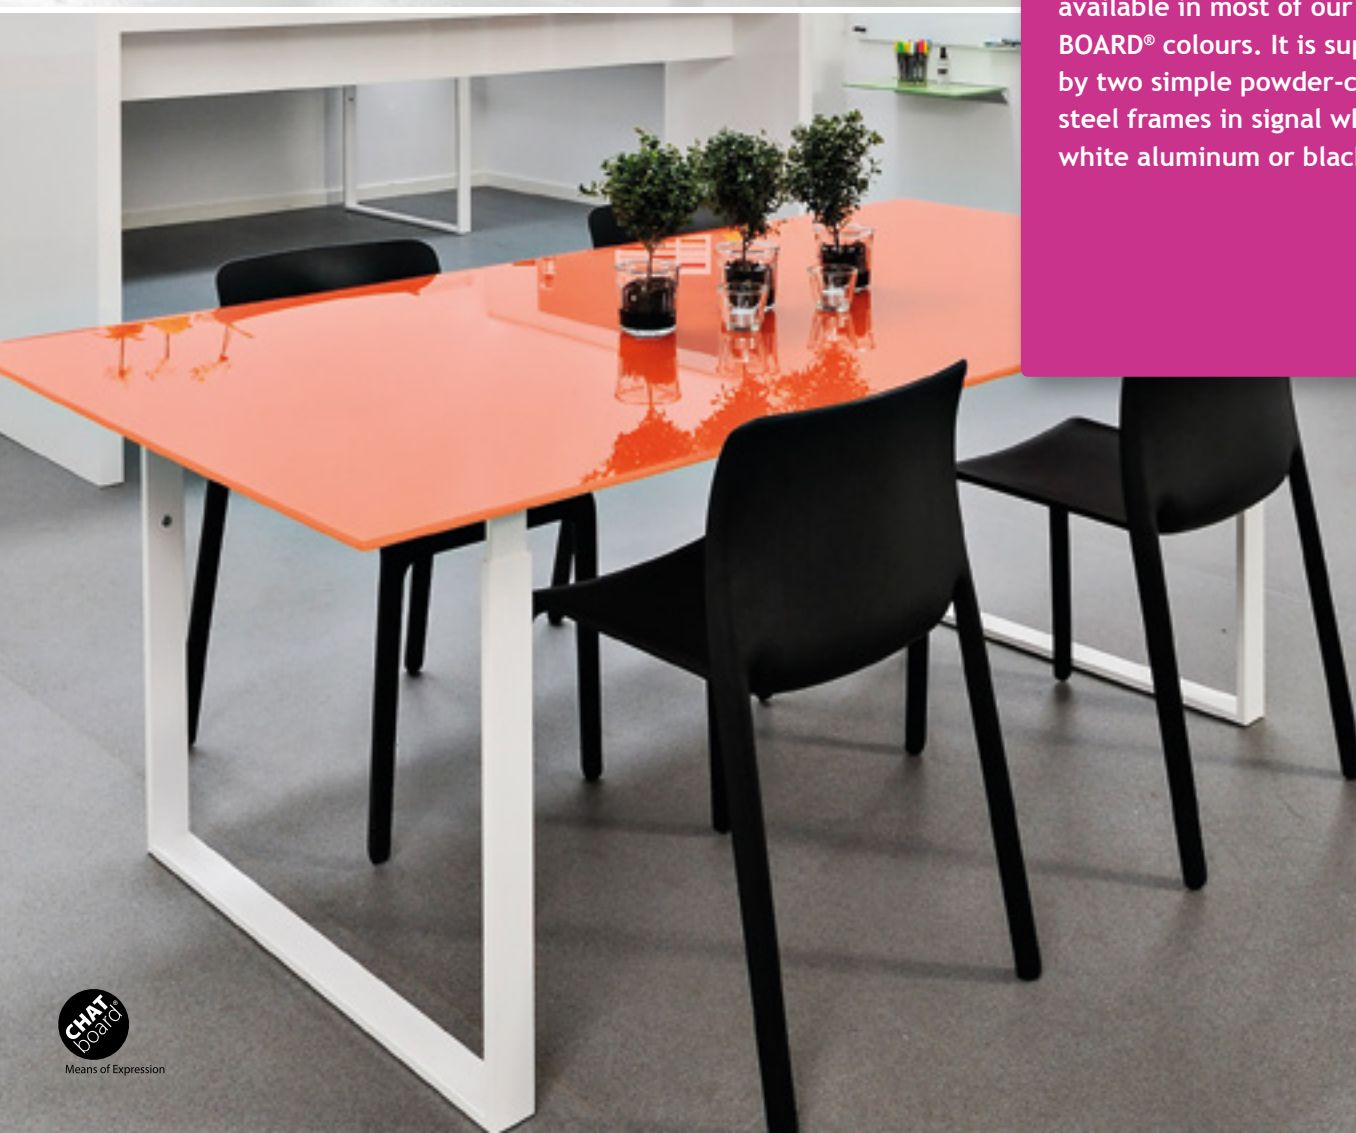

CHAT BOARD® Wardrobe

Shouldn't you be able to use a wardrobe for more than just storing clothes?
CHAT BOARD® Wardrobe is a magnetic glass board mounted in a steel frame with a practical shelf. The frame is secured to the wall by round stainless steel bars. They can be used to hang clothes from. Only imagination sets the limits for what the board can be used for.

CHAT BOARD® Table

We have produced a table that is a good match for our boards. But it can also stand out by itself. The table top is made of 10 mm tempered glass and is available in most of our CHAT BOARD® colours. It is supported by two simple powder-coated steel frames in signal white, white aluminum or black.

CHAT BOARD® SHELF

Not just any shelf is worthy of hanging beneath a CHAT BOARD®. But we have produced one that is. It is made of tempered glass and hangs in a simple, slender aluminum profile that can be easily screwed into the wall, under a board or anywhere else. We make CHAT BOARD® Shelf in 10 different sizes and a wide variety of colours.

CHAT BOARD® Customize

If you have read the above, you will know that our products are available in a variety of standard sizes and colours. But we are happy take on the challenge of accommodating a special request. We do it often. We enjoy doing it. And we do it faster than most would expect.

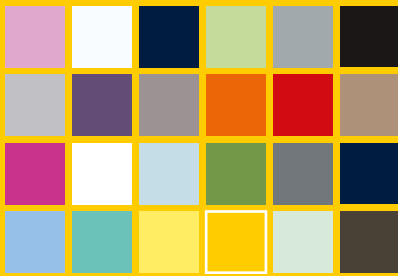

Means of Expression

CHAT BOARD® Accessories

In addition to the products shown here, we supply a variety of types of accessories, such as marker pens, magnets, cleaning products and sponges, pen trays, etc.

Who are we?

We are a Danish family owned company, founded in 1982 under the name Focus Products A/S. We design and manufacture all our products in Denmark, but fortunately they are now used in businesses and private homes across the globe.
