## A solution for every need.

The choice is yours, thanks to a wide range of aesthetics and functions. Allsteel offers seating for every person, task, and style.

### #19®

- Automatic, adaptive ergonomics keep you supported in every position.
- Superior comfort with thermal weave that regulates heat accumulation and loss.
- Designed in collaboration with Marcus Koepke.

### Acuity®

- AcuFit® weight-activated motion adjusts automatically to your posture.
- Includes weight-activated mechanism, hybrid seat cushion, and conforming mesh back.
- Designed in collaboration with Bruce Fifield of Milan-based Studio Fifield.

Also available

Guest

### Mimeo™

- Weight-activated motion automatically adapts to users and requires minimal adjustments.
- Open design enables unrestricted, multi-directional postures and accommodates a wide range of users.
- Designed in collaboration with Bruce Fifield of Milan-based Studio Fifield.

Also available

Work Stool

### Relate®

- Active, intuitive design offers the perfect combination of versatility and enhanced comfort.
- Full breadth of offering accommodates every office application.
- Designed to perform with several innovative technologies.

Also available

Work Stool

Four-legged Stool

Guest

### Sum®

- Avatar 2™ weight-activated motion offers adaptive ergonomics without the need for adjustments.
- AutoFit® design uses air displacement to find where the user's back needs the most support.
- Modern, slim profile complements any workplace.

Also available

Work Stool

### Clarity®

- Intuitive, adaptable comfort offers support that adjusts to your weight and posture.
- Design flexibility adapts to any space, from casual to executive.
- Designed in collaboration with BMW Group DesignworksUSA.

## Seek®

- Pivoting back and contoured seat offer user comfort.
- Available with polymer or mesh back and polymer or cushioned seat.
- Ability to nest and stack minimizes footprint and frees up valuable real estate.

## Tolleson

- Choice of back shapes, finishes, and with or without arms to complement any space.
- Fully upholstered seat offers comfort.
- Stacks up to five high on the floor and eight high on optional cart.

## Nimble®

- Lightweight design features a heavy-duty frame.
- Contoured seat and flexible back allow for natural shifts in posture.
- Stacks up to 12 high on the floor and 36 high on optional cart.

## Linger™

- Unique back design allows leaning and perching for impromptu collaboration.
- Swivel base features self-centering.
- Seat and sides can be upholstered in different fabrics.

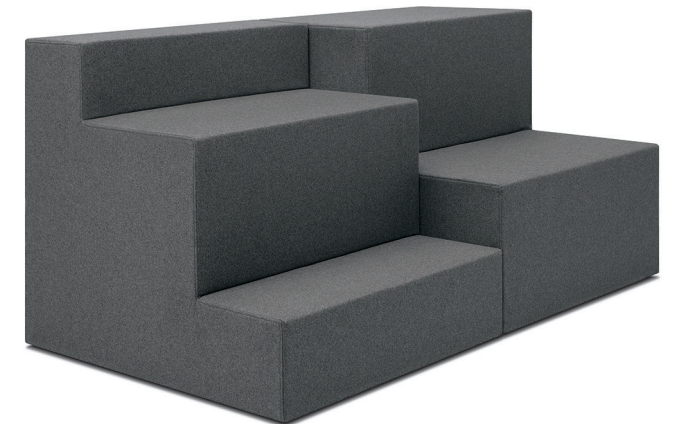

## Scooch™

- Unique design allows sitting forward or leaning back.
- Lightweight design makes it easy to lift and move.
- Seat and sides can be upholstered in different fabrics.

## Hedge™

- Provides active, functional space division with built-in worksurface.
- Accommodates a variety of sitting and standing postures for impromptu conversations.
- Available floor-anchored or with base in single, double, or triple units.

## Rise™

- Two-tier and three-tier and corner units create comfortable work areas.
- Available with or without integrated power.
- Seat and sides can be upholstered in different fabrics.

## Mind-Share®

- Modular design creates one-, two-, or three-sided micro-environments.
- Choose from screen, bolster, or bench units.
- Bench, bolster, and screens can be upholstered in different fabrics.

Also available

Stool

## Take-5™

- Bent plywood seat is available with optional cushion.
- Durable, lightweight wire frame is available painted or in chrome finish.
- Stacks up to six high on the floor.

## Involve®

- Creates impromptu meeting areas within or outside the primary workspace.
- Seat bases available with open cubby or drawer.
- Integrated and freestanding tables extend the application modularity.
