

ANSI/BIFMA Testing Summary Essentials Storage Products

Test Standard: ANSI/BIFMA X5.9-2004
Product Series Tested: Essentials lateral files, towers, bookcases, storage cabinets, personal files and pedestals
Test Completion Date: February 2010 or later

Tests	Section	Results
• Unit Strength	4	PASS
• Leg / Glide Assembly Strength	5	PASS
• Racking Resistance	6	PASS
• Vertical Load Durability	7	PASS
• Stability	9	PASS
• Storage Unit Drop	10	PASS
• Movement Durability for Mobile Storage	11	PASS
• Rebound	12	PASS
• Out Stop	13	PASS
• Lock Tests	14	PASS
• Cycle Test	15	PASS
• Interlock Test	16	PASS
• Door Tests	17	PASS
• Clothes Rail Static Load	18	PASS
• Pull Force	20	PASS

Allsteel certifies that the above results were achieved using product in accordance to Allsteel's recommended freestanding guidelines. All testing was conducted at the HNI Corporation Test Lab; which is located at 505 Ford Avenue in Muscatine, IA. The HNI Corporation Test Lab is accredited by the American Association for Laboratory Accreditation (AL2A).
