

VIP Room Dividers

VIP Room Dividers

design: Friis & Moltke

> Column free VIP Room Dividers can be linked and placed in any desired angle. Together or individually, they can be used to screen areas, divide rooms or serve as freestanding boards. The room divider can be mounted on adjustable feet if a relative permanent placement is desired. Larger mobility is achieved by mounting on lockable casters.

Finish:

Base is Matte Anodized Aluminum

Divider Options: Double-sided acoustical, tackable fabric or 100% recycled rubber surface, whiteboard and double-sided high acoustical non-tackable fabric

Varieties and Dimensions:

| | | | |
|---------------|---|---------|---------|
| VSVO 12001305 | Double-sided acoustical fabric or 100 % recycled rubber surface | 47.5" w | 51.3" h |
| VSVO 12001505 | Double-sided acoustical fabric or 100% recycled rubber surface | 47.5" w | 59.5" h |
| VSVO 12001705 | Double-sided acoustical fabric or 100 % recycled rubber surface | 47.5" w | 67" h |
| VSVO 12001905 | Double-sided acoustical fabric or 100 % recycled rubber surface | 47.5" w | 75" h |
| VSAK 12001305 | Double-sided high acoustical non-tackable fabric | 47.5" w | 51.3" h |
| VSAK 12001505 | Double-sided high acoustical non-tackable fabric | 47.5" w | 59.5" h |
| VSAK 12001705 | Double-sided high acoustical non-tackable fabric | 47.5" w | 67" h |
| VSAK 12001905 | Double-sided high acoustical non-tackable fabric | 47.5" w | 75" h |
| VSVS 12001305 | Double-sided Whiteboard | 47.5" w | 51.3" h |
| VSVS 12001505 | Double-sided Whiteboard | 47.5" w | 59.5" h |
| VSVS 12001705 | Double-sided Whiteboard | 47.5" w | 67" h |
| VSVS 12001905 | Double-sided Whiteboard | 47.5" w | 75" h |

VST01 Base with adjustable feet

VST05 Base with small caster

VST10 Base with large caster

e3™ Porcelain Enamel Steel Whiteboards & Chalkboards Fact Sheet

eisysVISUAL e3 Porcelain Enamel Whiteboards stand up to the rigors of both office and classroom. It's ability to outperform all other whiteboard surfaces has made it the most popular whiteboard and chalkboard surface in the world.

Typically 4 white surfaces are available (though only 3 are approved for North America):
Ultra Gloss – High Gloss – Satin Gloss (eisys Standard) – Low Gloss (not approved)

It's guaranteed to be scratch, stain and fade resistant. It delivers a consistently smooth writing experience and unmatched erasability.

e3 boards can be written on with dry-erase, semi-permanent, water-soluble or permanent marker, chalk, pen or crayon without damaging the surface.

e3 Porcelain Enamel Steel boards are 99.9% recyclable and is the only globally Cradle to Cradle Certified^{CM} Silver surface of its kind. It's safe and clean, and emits no harmful chemicals into the environment.

e3 Advantages

- > Ultra smooth writing surface
- > Optimum erasability
- > Scratch, fire, bacteria and chemical resistant
- > Greater color contrast
- > Forever Warranty
- > Minimal surface/light distortion
- > Enhanced visibility and optimum eye comfort
- > Safe and Clean: Cradle to Cradle Certified^{CM} Silver, emits less chalk dust

Chemical Resistant
