

PK54™ / PK54A™

The PK54™ dining table is a study in contrasting materials and forms. Circle meets square and the pure expression leaves a monumental impression that makes the table the natural focal point in any room no matter where the table is placed. One of the defining characteristics of the table are the extension ring (PK54A™), which provide an unusual solution to the problem of extending a round table and make the table even more unique. Stone meets wood, hard meets soft and the table completely changes expression without losing its identity, when the concentric wooden leaves are applied to the table.

## POUL KJÆRHOLM 1929-1980

Poul Kjærholm was a trained carpenter and continued his studies at the Danish School of Arts and Crafts. He had a particular interest in different construction materials; especially steel which he considered a natural material with the same artistic fineness as other natural materials. Poul Kjærholm was first employed at Fritz Hansen for about a year, where he designed a number of noteworthy chair prototypes.

In 1955 Poul Kjærholm initiated his collaboration with manufacturer Ejvind Kold Christensen, which lasted until Poul Kjærholm's death in 1980. In 1982, Fritz Hansen took over "The Kjærholm Collection", developed from 1951 to 1967, designs, which are logical to the minute detail with an aura of exclusivity.

## DESIGN

Poul Kjærholm, 1959.
