minuscule[™]

Innovation meets loving craftwork, Danish furniture traditions in dialogue with curious innovation, elegance and soft forms united in the designer Cecilie Manz's minuscule[™] furniture series - consisting of a chair and a table. Comfortable qualities that do not put limitations on the design's expression. A chair and a table that beautifully follow the lines of Arne Jacobsen's curvy classics.

CECILIE MANZ 1972-

Cecilie Manz studied at The Danish Design School and University of Art and Design in Helsinki, Finland, from 1992 to 1997. She knew early on that she wanted to work for herself and the year after her graduation, she started working in her own design studio. From the beginning, the simplicity of her designs characterized her work.

Cecilie Manz has long been hailed as one of Denmark's most significant younger design names. She has designed glass for Holmegaard, ceramics for Kähler, and the Essay™ table for Fritz Hansen, as well as textile and furniture projects for a large number of international design companies. Her designs are modernistic and elegant and she has a reputation for being uncompromising. Aesthetics and consciousness are intrinsically linked for Cecilie Manz.

The renowned designer creates furniture and design objects that can last an entire lifetime. Comfortable qualities that do not put limitations on the design's expression. A chair and a table that beautifully follow the lines of Arne Jacobsen's curvy classics

DESCRIPTION

Furniture series designed by Cecile Manz, manufactured by Fritz Hansen.

The minusculer™ chair comes fully upholstered in Remix fabric in 19 unique and different designer selections. The sculptural shell with natural leather piping creates a severe edge towards the inner shell which curves downwards. The chair padding has been kept light and elegant. This reinforces the feeling of a chair that is informal and stringent at the same time.

The minusculer™ table is square with rounded corners and has a frame that is clearly in the same family as the chair's geometrically built frame. The reinforced plastic frame has a colour and beautiful rounded shape inspired by the natural grey tones and curves of pebbles found on the beach.

ENVIRONMENT & TESTS

The shell for the chair is made of polypropylene and contains 4 connectors made out of zinc. The shell is upholstered with PUR foam. The tabletop is made of either compact laminate or oregon pine. The base for both the table and chair is made of glass-filled nylon with four steel pins and two components glue in the joints.

The chair can be disassembled for repair and the connectors to the shell can be removed. In case of disposal, the shell of the chair (polypropylene) and the base of both the chair and the table (glass-filled nylon) can be granulated and re-used. The connecting joints must be mechanically removed.

The chair will be tested according to EN 15373, strength, durability and stability, test level 2, general contract use. This test refers to EN 1728 Strength and durability and EN 1022 Stability.

The table will be tested according to EN 15372, strength, durability and stability, test level 2, general contract use. This test refers to EN 1730 Strength, durability and stability.

WARRANTY

Standard goods have warranty for five years against manufacturing defects (i.e. materials and design). The warranty does not cover leather and other fabrics ordered as customers own or special material as well as products manufactured according to customer specifications. Normal wear and tear and damage of covers are not covered by the warranty. The warranty for wicker and lamps is 2 years.

EXTENDED LIMITED WARRANTY
