To build tandem configurations, always specify units from left-to-right as facing.

Starter units ("ST") represent the first seating model in a configuration with subsequent modular units building onto them towards the right.

Add-On units ("AO") can only be added next to Starter units or other Add-On units.

End-units ("EU") represent the final seating model in a configuration.

Center and corner tables are for in-line placement only (cannot start or end a configuration) and for specification purposes, will always come before a Starter unit or after an End unit (i.e. Add-On units cannot be specified next to connecting tables).

End tables can only start or end a configuration, therefore they will always come before a Starter unit or after an End unit (i.e. Add-On units cannot be specified next to connecting tables).

To build tandem configurations, always specify units from left-to-right as facing.

Starter units ("ST") represent the first seating model in a configuration with subsequent modular units building onto them towards the right.

Add-On units ("AO") can only be added next to Starter units or other Add-On units.

End-units ("EU") represent the final seating model in a configuration.

Center and corner tables are for in-line placement only (cannot start or end a configuration) and for specification purposes, will always come before a Starter unit or after an End unit (i.e. Add-On units cannot be specified next to connecting tables).

End tables can only start or end a configuration, therefore they will always come before a Starter unit or after an End unit (i.e. Add-On units cannot be specified next to connecting tables).
