Wear Gloves

**Wait 48 Hours before opening box**

Important Information

- Let SkyTile box adjust to room temperature 24-48 hours before opening.
- Handle SkyTiles carefully protect faces and edges from scratching.
- Luminous SkyTiles must be installed in Sky Factory Elevator systems.
- Keep back of SkyTile clean anything resting on SkyTile will be visible from below.
- Keep hands clean during SkyTile installation wear supplied cotton gloves.

Care and Cleaning

- Avoid scratching SkyTiles when cleaning.
- Once installed, SkyTiles can be cleaned in place.
- Use mild soap & water solution, and soft, non-abrasive cloth.
- DO NOT wet edges of SkyTiles water may cause image film to de-laminate.

SkyTile not fitting easily into Elevator? DO NOT FORCE IT.

Contact Sky Factory for instructions, toll-free 1.866.859.3228.

SkyTile Layout
6eq_6x8md02

Refer to Step 1 in Luminous SkyTile Installation
for using this SkyTile Layout

A1	B1	C1
A2	B2	C2
A3	B3	C3
A4	B4	C4

1.

Use supplied SkyTile Layout to
determine where each SkyTile goes.

Note: Your SkyTile Layout may have
instruction for correct head and feet
orientation of the SkyCeiling.

2.

SkyTile has unique sticker indicating
position and correct orientation.
IMPORTANT: Remove sticker after
installation is complete.

3.

Angle SkyTile, insert through Elevator opening,
drop into correct position on upper shelf of Elevator.

4.

Use SkyTile Clips to
secure SkyTile.
(Not for EcoSlim fixtures).
