# Bat Executive Meeting tables

Design by **Francesc Rifé**

Table top made of a double layer of 60 mm (2 3/8") thick MDF board marking a 3 mm (1/16") edge with integrated top access veneered in natural wood with acrylic matte UV protection varnish available in several finishes. Powder coated steel structure integrated underneath the wood desk surface.

U-shaped metal leg in 2 mm (1/16") thick steel, 80x20 mm (3 1/8" x 3/4") powder coated frame with leveling glides.

The cable management system is designed through a central column in textured, lacquered MDF with access for cable rising with cable tray for electrical units. Top access from table tops.
