

Commercial and Residential
Kitchens & Dining

custom kitchen designs

Stainless steel is the mainstay of kitchen surfaces for a reason. It's hygienic; it's durable; and it's lustrous. Patterns and textures enhance the beauty of stainless steel, creating a unique visual interest and a beautiful glow and stands up to cleaning and everyday living.

Long-lasting finishes from floor to ceiling

3QLT Satin Brushed Stainless

commercial applications

The unique beauty and durability of deep textured Rigidized® Metals' materials create a lasting impression while providing sustainable, durable functionality. Our design and fabrication team will bring your vision to life utilizing the latest design and fabrication software and tools.

Beauty, durability, functionality

The timeless element of kitchen design

Stainless steel blends well with most any décor, and it provides a heat resistant, anti-bacterial surface that requires minimal maintenance.

design your own

Whether it be countertops, backsplashes, or panel-ready appliances, we will always create to your exact specifications.
