The following information and photos describe the benefits of our services:

- We can transform almost any new or existing concrete floor into a **beautiful, durable, low maintenance surface.**
- Polished concrete will **NOT peel, crack, or flake** and is **resistant to oils, chemicals, and salts.**
- Concrete floors **conserve energy** by reflecting ambient light, requiring 30% less indoor lighting when compared with traditional flooring.
- Our process **combines pH neutral densifiers and penetrating sealers with a diamond grinding process** to strengthen and seal concrete.
- Polished concrete floors project a **clean, glossy, and professional image** that will add permanent value and function to any space and structure.
- All procedures and materials contribute to **LEED accreditation** and are compliant with **Green Build standards.**
