(opened)

## Procedure for installing a unit on drop-down ceiling

**Warning:** Disconnect power during installation.

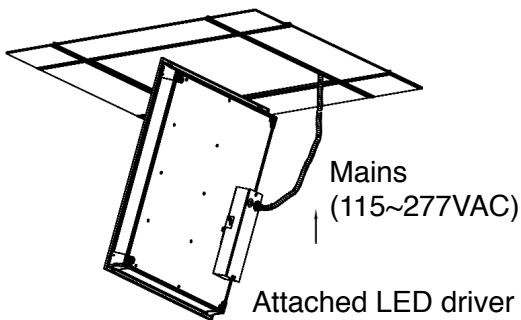

### Step 1

#### Step 1:

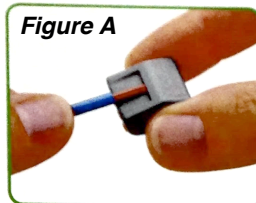

- Turn off the power.
- Fix the bracket on the ceiling with tapping screw.

### Step 2

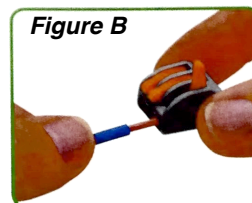

#### Step 2:

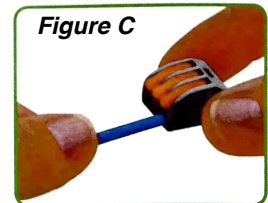

- Open the upper lid of the attached LED driver.
- Connect the mains wires to LED driver's input. (see *Figure A, B and C*)
- Close the enclosure for LED driver.

1) Strip Wire

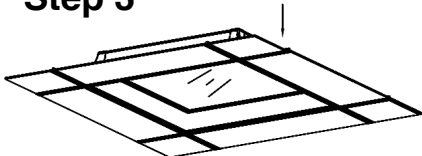

2) Push up lever

3) Insert conductor &  
push down lever

### Step 3

#### Step 3:

- Place the LED panel in the drop-down ceiling.
- The LED panel is now firmly recessed.

#### Step 4:

- Turn on the power.
