

## TABLE SOLUTIONS

## KI TABLES OVERVIEW

Brilliant design. Durable products. Exceptional variety. KI has long been known for its adept ability to design and manufacture some of the best contract tables in the industry. In fact, KI continues to rank as the number one preferred supplier for training table solutions, based on *Contract* magazine's annual brand report survey.\*

This esteemed ranking demonstrates KI's continued success in providing timeless solutions that are reliable and durable, while offering a significant breadth of options in terms of aesthetic qualities, technology integration, and detail selections.

### HEIGHT-ADJUSTABLE TABLES

### MULTIPURPOSE TABLES

## WORKSURFACE SOLUTIONS

KI has a diverse portfolio of worksurface solutions, each with its own list of features and benefits. A range of multipurpose, height-adjustable, and powered tables supply functional needs while offering great visual variety to satisfy numerous room requirements.

Scan the QR code at the beginning of each section in this brochure to view additional details regarding these specific categories.

# MULTIPURPOSE TABLES

KI offers a table for every room in a facility. Choose different top shapes, fixed or variable heights as well as edge, leg and base styles. Define aesthetic intent with a number of laminate and veneer surface materials; a complete palette of base finishes, including powdercoat paint and chrome; and various edge finishes, including wood, vinyl, resin, urethane and laminate. Build in additional functionality or extend the use of the contract table by incorporating wire management, power access, folding or flip tops, gangers, modesty panels or casters.

LEARN MORE

### **Athens®**

Athens tables bring people together, inspiring conversation and collaboration.

- Flat or tapered steel bases with round steel columns

### **Barron®**

A versatile table with timeless appeal and flawless production.

- Round tubular steel legs with brazed metal end caps

### **DataLink® Multipurpose**

A statuesque table with a clean line that complements the elliptical upright.

- Cast aluminum base and column

### **Enlite®**

Enlite simplifies the complex by responding to collaborative or independent training needs.

- Steel tubing with optional solid or perforated steel panel insert

### **Hurry Up!®**

Hurry Up! tables are quick to set up, easy to reconfigure, and simple to store.

- Steel cantilevered tubing with high density leg-within-leg nesting frame

*Designed by Giancarlo Piretti*

### **Inquire®**

A simple, versatile solution and timeless design, all at an affordable price point.

- Fluted steel tubing with poly end caps and flared 4-leg or T-base design

### **Portico™**

Portico offers a durable design with a variety of color coordinations to suit any environment.

- Elliptical steel tubing with poly end caps

### **Synthesis®**

A combination of great design, versatility and power inspires collaboration and conversation.

- Extruded aluminum frame with attractive TT-base design

### **Trek®**

Trek's angled profile offers a significant departure from traditional floor-hugging bases.

- Tapered steel legs and round tubular frame

### **Venue®**

Easily customizable, Venue tables can be designed to fit a variety of needs.

- Large variety of base styles complement numerous surface and edge styles

# HEIGHT-ADJUSTABLE TABLES

Movement is natural and necessary, and it should be encouraged in the workplace. In fact, standing during the work day helps promote blood flow throughout the body, allowing workers to be more productive and more efficient. With height adjustable tables, workers can personalize their work style, alternating between sitting and standing as they please. KI's variety of height-adjustable table sizes allows for simplification of the workplace.

## Genesis®

No other surface solution on the market today can match the combination of flexibility, quality and affordability provided by Genesis. Adjust your desk height as easily as you raise or lower your chair.

- Desking system available in straight or curved worksurfaces with optional privacy screens
- Pin adjustable, crank adjustable, electric adjustable, or fixed leg
- 10-wire power

## Toggle™

Featuring value and versatility at its best, Toggle adjustable tables extend the benefits of electrically-modulated sit-stand work surfaces to everyone.

- Absence of low-hanging crossbar maximizes leg room
- Attractive T-base design with height adjustment range of 26-52 inches
- Standard or deluxe electric switch available

## WorkUp®

WorkUp delivers easy-to-use adjustability. The clean design maximizes leg room and enhances the overall aesthetic.

- Adjustable by ratchet, crank, electric ANSI HFES and counterbalance (manual)
- Counterbalance design makes height adjustment the quickest and simplest in the industry
- Features consistent visual qualities with other KI products

# POWERED TABLES

Training rooms are the epicenter for employee and student development, so it's critical to ensure these environments are welcoming, comfortable and functional. Powered tables from KI come in a variety of styles, sizes and top shapes to support any learning environment – from traditional classroom set-ups to U-shapes and small teaming stations. A variety of aesthetic options help you create the look you want – from traditional to contemporary. Easily support teleconferencing, video conferencing and presentation equipment with KI powered tables.

LEARN MORE

### Backbone® Media Platform

Designed to respond to the growing demand for multi-media integration, Backbone supports technology, optimizes collaboration, and enhances flexibility.

- Single-table units with round or square corners
- Multiple-table units with Enlite, Trek or Synthesis bases
- Café-height option available on single table unit

### DataLink® Training

A highly flexible, easily reconfigurable table system with computer-friendly design and laid-in-wiring.

- Two integral handles make transport easy
- Wedges form radiused configurations
- Optional folding legs allow for compact storage

### InTandem®

The InTandem table system is the easiest way to manage power and data, featuring impressive wire management and a compelling appearance.

- 10-wire, hard wire or non-powered beams
- Beam has flip-down doors with convenient access from front or back
- Multiple table depths, lengths and leg heights available with three privacy screen/divider heights

### Flat Screen Garage®

When you need high-tech access, just press the button and the worksurface instantly transforms into a computing center.

- Individual electronic controls mounted under worksurface
- Users can choose optimal height and screen articulations
- Optional keyless remote locks down monitors for security

### Laptop Garage®

The Laptop Garage allows any room to adapt to multiple uses and reduces the need for dedicated computer labs.

- Compact design leaves plenty of leg room
- Optional key fob locks down all or individual units for security
- Designed for use on InTandem training tables, DataLink training tables and WorkZone deskings

### Smart Lift®

Smart Lift is an intuitive and secure response to managing flat screen monitors within learning or teaming environments.

- Single units: 36", 38", 42" and 54" wide
- Double units: 60", 66" and 72" wide
- Optional electric or manual lock

# SURFACE ACCESSORIES

LEARN MORE

When it comes to workspace accessories, having the right paper management, integrated technology, lighting and more can make all the difference in having an ergonomically supported, productive work environment. KI offers a variety of surface accessories designed to make your workspace more comfortable and to help make you more efficient.

## Flat Screen Support

Offers sleek design and building block versatility.

## Pneumatic Monitor Arm

Easily adjusts monitors to a comfortable viewing position.

## Qi Wireless Power Grommet

Provides a convenient, powerful and integrated solution for wireless power.

## PowerUp® Module

Makes power and data access easy and discrete.

## CPU Holders

Includes adjustable CPU slings, leg-mounted CPU holders, and table-mounted CPU holders.

## Keyboard Trays and Center Drawers

Supports improved comfort, intuitive operation and adaptive use.

*May not fit under Toggle or WorkUp*

## Activ8™ Electrical System

Neatly reduces the number of power sources needed in multi-workstation spaces.

## LED Desktop Light

Combines advanced LED technology, patent-pending optics and innovative industrial design.

## Parsec™ Desktop Light

Allows greater brightness compared to task lights of higher wattage.
