Illinois Valley
Community College
CTC Building
Oglesby, Illinois

Furnishing Knowledge®

Overview

When Illinois Valley Community College needed to expand their campus, they designed a new building to house all student services in one convenient place. "We needed the new space to be up-to-date and feature the latest technology," says Michelle Carboni, IVCC Director of Purchasing. "Our vision was a state-of-the-art facility that would attract and retain more students."

Challenges and Solutions

During the planning process, several challenges came to light, including truly unique applications in certain areas. Technical CAD labs, art areas, the techno savvy "Mimic Lab", and a one-of-a-kind info center - KI responded with custom solutions and personalized product to meet these specialized needs.

In addition, KI worked closely with individuals in each department, adapting layouts and furniture selection to their needs. "The counseling department wanted to avoid having their backs to the door," explains Carboni. "We ended up with the best office for each department based on their needs."

Knowledge and Expertise

The outcome is a showcase facility for IVCC that features high-tech, personalized solutions. Students and faculty now have dynamic spaces that position them for learning success.

"Everyone loves the look and feel of the new building," says Carboni. "From the planning stages through the install, we are very happy with KI."
