

the future is safer with altro

Altro offers flooring and wall cladding solutions for showers and wet environments

High school swim meets, hot showers after a workout, physical therapy in the hospital pool and a toddler splashing about. All of these areas have one thing in common, water. When water is around the potential for slips and falls can rise exponentially. Provide your patrons with underfoot safety and yourself with peace of mind when you've installed Altro safety flooring.

With two flooring options to choose from you can tailor your Altro flooring installation to the needs of your facility. Altro Aquarius, an award winning flooring innovation, is great for areas that receive both barefoot and shoe traffic while Altro Marine 20's unique, studded texture is best when used in barefoot only scenarios.

Combine Altro safety flooring with Altro Whiterock or Altro Whiterock Chameleon to create a complete solution for wet environments. Flooring and wall cladding engineered to seamlessly integrate for areas in which cleanability, hygiene and waterproof sealing are essential. Together they form an impervious solution that has become the industry standard for wet environments.

- Nurse assist bathrooms

- Locker rooms

- Showers

- Hydrotherapy pools

- Pool and leisure decks

- Spas and saunas

Altro Aquarius

Typical applications

Bathrooms, showers, swimming pool surrounds, locker rooms, saunas.

You asked - we delivered. Inspired by customer feedback, Altro Aquarius was developed for lasting performance in wet and dry, shoes or barefoot. Achieving high slip resistance values even while wet, Altro Aquarius provides optimum safety to patrons facing wet conditions.

At 2mm, Altro Aquarius offers the durability most areas need — bathrooms, changing rooms, hospital facilities. Anywhere you expect a wet and dry floor environment. It's also easy to clean — with Altro Easyclean Maxis PUR technology, it's at the forefront of safety floor cleaning.

No longer do you have to choose between studded or standard safety flooring. With Altro Aquarius you can have it all. Good looks and comfort without compromising safety.

Altro Whiterock

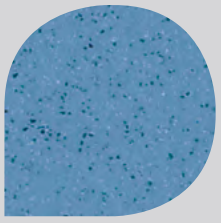

Typical applications

Bathrooms, showers, swimming pool surrounds, commercial kitchens, operating rooms, healthcare, busy corridors

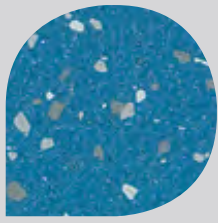

The Altro Whiterock hygienic PVCu wall cladding system provides durable, hygienic coverings for internal walls and is designed for environments that need to meet tough hygiene standards. While showers and kitchens benefit from these watertight, wipe-clean surfaces, their appeal is much broader and makes them a popular choice for wall coverings in many applications.

Available in 12 colors, you can use Altro Whiterock to help you maintain hygiene in a hospital ward, make a bold statement in a reception area or protect a shower wall.

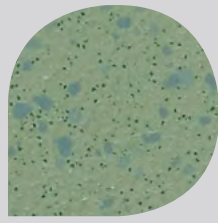

While it is great by itself, Altro Whiterock is designed to work as part of an integrated system with Altro flooring.

Altro Whiterock Recessed Shelf

Typical applications

Any shower in which a traditional shower tray is not ideal – health and infection control in healthcare, behavioral reasons in mental health and prison facilities.

Now you can have an integrated shower insert to match Altro Whiterock panels. The factory formed hygienic insert can be welded directly to panels, offering a water-tight, rust-proof shelf for your shower sundries.
