- Prefabricated 2" radius corners for excellent particle flow
- Meets ISO Class 5 cleanroom standards
- Impact and chemical resistant
- Extremely hygienic

Altro Whiterock™ Radius Corners

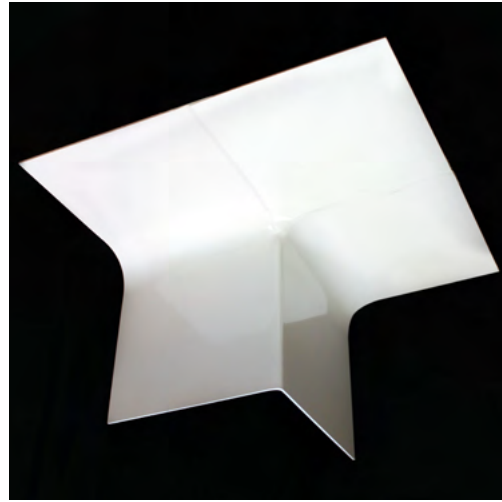

Altro Whiterock Radius Corners are prefabricated corner pieces with a consistent 2.5mm thickness, offering impact and chemical resistance for highly sensitive interior walls in a cleanroom of pharmaceutical or food processing industries. These critical requirements are needed to implement cleaning and sterilization with chemical solutions at frequent intervals. Ideal for the pharmaceutical industry.

- Available in a 3 way internal and external variation with 2" radius
- 90 degree bends available upon request
- Altro Whiterock standard white
- Lead free, phthalate free and no VOC's
- Meets Class A fire and smoke requirements, tested to CAN/ULC - S102.2
- Compatible with cleanrooms ISO Class 5 and above
- Full contact adhesive offering no bacteria growth behind walls

Thickness	2.5mm (10")
Dimensions	Stocked in 1.22 (4') x 2.5m (8'2") or 3 (9'10")
Warranty	3 years
ASTM E84 - 08 (Surface Burning)	Class A
Composition	Extruded semi-rigid PVCu sheet

A920
Three way internal corner
2" radius corner

A925
Three way external corner
2" radius corner

A910/25
90° external corner
8in x 8in x 8ft with 90° bend

A930/25
R shape internal radius corner
8in x 8in x 8ft with 2" radius bend

Weldrod
diameter 0.16in x 900ft

Altro Whiterock sanitary sealant

Altro W157 adhesive
